## Editorial

### Welcome, Frosh!

We really mean it. The above words are a sincere expression of our hearty welcome to our new fellow-students. It is our fervent hope that you will all take our words of welcome to heart. It is our way of telling you that we really want you here. We want you to become part of Assumption College as we have become part of it. We want you to join us in forming our little portion of that great stream of Assumption students that has flowed out to the four corners of the world for nearly one hundred years. You are now makers as well as heirs of the traditions of Assumption. We want Assumption to mean as much to you as it has come to mean to us. We pray that there will soon glow in your hearts that same loyal love for this, your college, which gives such depth of meaning to those inspiring words, "Alma Mater." And so again, "Welcome, Frosh."

### Ideas Have Legs

We quote, without comment, the following editorial from the PURPLE AND WHITE of October 15, 1937:

"The GAZETTE from the University of Western Ontario protests against the present system of Initiation. While it offers no substitute, it realizes that the current practice is intolerable. As an affiliate of Western we are directly concerned with its real problems. We, too, think that the established vogue is nonsensical.

As an introduction to College life, Initiation is useless. Nothing is gained by the surly subservience of the Frosh or the ridiculous pomp of the Sophomores. As the swan song of youthful and animal exuberance, it is interesting but not consequently indispensable.

"The GAZETTE remarks that American schools are abandoning the practice entirely. Further research would have disclosed that an Orientation Week has supplanted it. This is a sensible and logical approach to fitting the Freshmen for University. Student leaders and Faculty unite in showing them what to expect and what will be expected. To us this seems the only solution to the problem."

### Bachelor of Droodles?

Once again, as in many years before, this institution sets out on another scholastic cycle, the second as a university, the ninety-eighth as a school. The goal remains the same. For almost a complete century the school "under the bridge" has operated with one purpose: to give all attending a Christian and democratic education. The many students who have passed through these halls, are a fulfilment of this purpose; we, the students of today, must try our utmost to be the same.

The student body, therefore, must be reminded again of the primary reason for their presence here. We are here to obtain an education. Those "students" who have come merely to have the opportunity to goggle at the females of the campus (or vice-versa) or play tic-tac-toe or droodles during lectures and, at the same time, have an "honourable" excuse for not working, have perverted this reason. These people are not receiving an education; they are not fulfilling the purpose of Assumption; they are wasting their time. The program of study and recreation proscribed by this institution is designed to cultivate a desire for learning and socializing that should provide a guide and a goal for the future. If you follow this program, you will receive a college education; if you don't, then you are either too lazy or too immature to be at Assumption.

It is with these thoughts that we recommend that the students, particularly the Freshmen, have a clear idea of why they are here, to guide their actions and efforts during the coming year. If you have come here merely to pass time, you, through your immaturity, are destroying the tradition of this school and degrading yourself. If you have come for an education and act accordingly, you will benefit yourself and simultaneously fulfill the purpose of Assumption.

Remember, a Bachelor of Droodles never got anyone a job!

### Varsity Basketball Schedule

## Premier Frost Receives Honorary Degree

June 3, 1954 was one of the proudest days in the life of Very Rev. E. C. LeBel, C.S.B., vice-chancellor and president of Assumption, as he presided over the first convocation at the college and presented hon-

orary degrees to distinguished Canadians and Americans from various walks of life. Left to right, above, Premier Leslie M. Frost receives his LL.D. from Father LeBel.

### Dean's Message Greetings to Freshmen From Fr. Ruth

College life is often over-glamorized; what is talked about in the papers and what students report is not the blood, sweat and tears of the classroom and examination hall, but the frivolities and entertainments of campus life.

The college year is shorter than the high school year not because there is less work to be done but because you are expected to use your time to greater advantage. The obligation is yours. There will be little or no urging from professors. They provide the opportunity for knowledge, yours must be the initiative, the industry and the perseverance.

Have a planned curriculum for your study time just as you have a planned curriculum for lectures. Try to regard your work as done for yourself, not as something done for a teacher. At the end of each lecture, or at the end of each day's lectures, go over the work of that day. Ask yourself the questions: Have I understood all that was covered in that lecture? Did I get from it all that I came to college to get? If not, your work is not finished. Do not wait for an examination, or for a teacher to check on you, or even to suggest an assignment. Learn the work as you go, being mindful of the work covered, not just having an eye for just "getting by" the demands of to-morrow.

Education is not so much a matter of remembering facts or of passing examinations. It is a discipline. It demands constant effort and self-denial. The growth of a habit is slow. Education is the formation of habits which are to last a life-time, and the habits of knowledge, of judgment, of acceptance of responsibilities, of generosity for a cause, of courage in the midst of difficulties. The means employed—the texts, the teachers, the examinations, will pass, but the habits will remain.

### Registrar's Remarks

It will be helpful to recall at this time a few of the Academic Regulations currently in force, particularly the following:

1. A course dropped prior to December 1 counts as a failure unless the student notifies the Registrar's Office of his or her intention to drop that particular subject.
2. A Course dropped on or after December 1 automatically counts as a failure.
3. A student who fails to obtain standing in at least two-thirds of the subjects in his or her program for any one academic year is considered to have failed the year and loses credit for all subjects (except those in which grades A or B have been received).
4. A student who has failed the year may repeat once only. A repeating student must pass each subject of his or her year, or withdraw.
5. Students admitted on probation are not permitted to repeat First Year. If they fail to obtain standing, they must withdraw.
6. Grades are assigned on the basis of both term-work and final examinations. A passing mark in both is required.

## CAMPUS ROUNDUP

by O.K.

**WELCOME FROSH!** You are now entering the friendliest university in Canada. This is a comparatively small student body. Therefore, it is your obligation to know every person on the campus. Meet everyone; stick out your hand and say hello. Even if you are from Toronto, we won't hold that against you. All freshmen are invited, even urged, to join and participate in the campus activities. If you are gifted with any particular talent, don't be bashful about putting it to use.

**LAST YEAR,** it was evident that many Freshmen did not have dates for the Frosh Hop, particularly the males. Since the number of men on the campus is greater than the number of women, the new students from out-of-town are caught without dates. The student council has assured us that, by hook or by crook, the situation will positively be remedied. We do, however, advise the Freshmen to act quickly, because competition is stiff. Incidentally, it is a tradition that ALL Freshmen attend the Frosh Hop.

**THE HIGHLIGHT** of the orientation should be the snake dance, which will take place on Thursday. It will end with a bonfire on the campus; we hope that the weather is good. Because of a certain accident in the high school last year, which was blamed on the college students, we urge that the wood for the bonfire be guarded, even at night.

**ODDS AND ENDS:** Plans are being considered to move the date of the Arts Ball to February. Former S.M.C. students are delighted to have Father Faught here at Assumption. Father was the manager of the famous Majors of the O.H.A. Stuart Wilson returned from his WUS tour of Europe sporting a beautiful tan. It seems that he was stranded on the Riviera... the poor fellow.

## Here's Our Co-champions of Last Season

In the above picture, standing (left to right) are: Hugh Coyle, Lou Veres, Dick Kennedy, Matt Borowicz, Chuck Collini, Dick Mackenzie, Bill Smythe,

and coach Stanley "Red" Nantais. Kneeling (l. to r.) are Rusty Caldwell, George Joseph, Howie Triano, Larry Connorton, Eddie Chittaro, and John Kleberg.

### Sports Review

Last year saw the Purple Raiders fight their way through one of the most exciting seasons witnessed in the past few years. Statistics tell the story. Last year the Champs enjoyed their second best season, with 17 wins against five losses, broke a long-standing high-score record by scoring 98 points against Detroit Tech, and proved themselves to be the best team in the Intercollegiate loop. The Raiders in their second year of league competition won eight of their 10 conference contests and earned a co-championship with the University of Western Ontario.

The essential ingredient in all this success is our amiable coach, Stanley "Red" Nantais, who is entering his thirteenth season as pilot of the purple pack. Coach Nantais, a perfectionist who is satisfied with nothing but the best, has led only three losing outfits in a dozen seasons, and three times his quintets have won 20 games or more. After the disastrous 1950-51 season, Nantais began building his championship team, and in 1952 his trend toward a comeback began to pay off. The Raiders in that season won 11 non-conference contests. However, in conference competition, with four regular starters ineligible by the freshman rule, the pack had a record of two wins and eight losses. Last season Coach Nantais hit the jackpot. With a roster of veterans and a sprinkling of flashy rookies, the Raiders fought their way to two important championships. They won the Brian Casey Memorial Trophy, emblematic of Windsor basketball supremacy, and co-ownership of the Athletic Union's Wilson Trophy.

## New Deal for Basketball Tickets

One glance at the current basketball schedule indicates the sharp step-up in the calibre of opposition over last year. Yet, with the complete Varsity roster from last year's champions returning, enriched with an additional year's experience, Assumption College is confident that 1954-55 will be even a greater year than the past one.

Student support last year was unsurpassed in the history of Assumption. Students turned out in such numbers as to create traffic jams at the main entrance.

Chiefly with the hope of eliminating this jostling with the general public at the main entrance of St. Denis Hall, the Student Athletic Council, with the approval of the Students' Administrative Council, has decided this year to make compulsory upon each full-time student the purchase of a book of Assumption Student Tickets. These tickets will be good for all Varsity home games. They are priced at \$3.00, which means that students have admittance to all these games at a price lower than the 25 cents formerly paid at the door. The rear (north) entrance of St. Denis Hall will henceforth be reserved as the Assumption Student Entrance exclusively.

There each A.C. student will present his or her book of tickets to have the appropriate ticket collected.

Thus students will no longer need to line up in front of St. Denis Hall, even though escorting a friend to the game. As in the past, 75 cents cash will admit the escorted partner at the student entrance. Reserved seats await students and partners in the A.C. student sections, and ONLY in those sections. All other seats are sold to the general public on a reserved-seat-ticket basis.

The Athletic Council asks the cooperation of all students through purchasing their books of tickets before the end of September. The alternative is an expensive proposition: the paying of the general admission prices of \$1.00 or \$1.25 per game.

## CO-ED CAPERS

By Marilyn Miller

There'll never be a lack of the feminine touch on Assumption College campus this year. You'll find that the women students will participate in all campus activities and that they really are a necessary factor. The Holy Names Undergraduate Association—H.N.U.A.—gives promise of one of the best years in its history. With 36 girls returning and 43 freshmen there will be plenty of hurry and scurry for the H.N.U.A., the Women's Council. They are one of the most active campus organizations, with the largest single membership, for all women students are members since they are part of Holy Names College, and a fall calendar of events will greet all those participating in the 1954-1955 school year.

To acquaint the girls' mothers with their daughters' new college friends there is the Mother and Daughter Tea to look forward to in the early part of October. The first chance to ask the boy of your choice to a semi-formal dance will occur in November on the occasion of the Alumnae Prom. Joy and gratitude will be felt by all the girls who attend the Christmas Party in December. Here Santa will shake your hand and distribute gifts for the small tots.

January is a big month for the co-eds on the "plain," for with the turn of the year comes the annual H.N.U.A. Prom. This roundabout receives much publicity and is fun for all, as everyone has her say in the planning and decorating.

Father's interest in his daughter's welfare is not forgotten, and a Father and Daughter Tea is held in March. If the thought of approaching exams doesn't get everyone down, chances are that the girls might get a preview of the fashions for Spring. The method is by staging a Fashion Show, as the H.N.U.A. did last year. The closing affair of the year is the banquet held after the final exams, where everyone bids adieu and promises to keep in touch throughout the summer.

For the girls who are keen athletic enthusiasts there is the "Gym Nite" at St. Denis Hall every week during the winter months. For an evening of basketball, badminton, and just plain fun you won't want to miss this.

All this is just part of the program of the H.N.U.A. for the year, not forgetting such affairs as raffish girls' get-togethers at Holy Names Hall, and dances in the Huts, plus the programming ideas which the girls bring from Timmins, Cuba, Peterborough, Chatham, Detroit, and Windsor.

## Library Receives 1200 New Books

Over 1200 new books, received by the Library during the summer vacation, will appear on the shelves at the beginning of the fall term. This marks the largest shipment of new books ever processed by the cataloguers during the vacation period, and is one more step in the vast expansion programme planned for the whole university.

## New Classification System

The student body last year discovered very soon that the library classified its books under two systems, the Dewey Decimal System (most commonly used in public libraries), and the Library of Congress System (now being adopted by the major universities of Canada and the United States). To fall in line with the trend of universities to reclassify their holdings in the Library of Congress System, the Library Board of Assumption undertook this work in the summer of 1953. Helpful information enabling the students to distinguish between the two systems is readily available throughout the library. Happily, the Cataloguing Department was able to reclassify the entire Reference collection during the summer and this division will not occur for Reference users. It is the hope of the Librarian that reclassification of the entire holdings will be effected in two years before the new library building is completed.

## New Services Available This Year

The Library has recently acquired a microfilm reader which will be installed in the main reading room for ready use by faculty and students doing research among micro-filmed theses and microfilmed back issues of certain newspapers and magazines. New audio-visual equipment will be available to the faculty and campus groups, (which includes a film projector and filmstrips). Additional filmstrips will be added upon request to the Librarian. The Library plans to begin a phonograph record collection for the Audio-Visual Department. At the present time the Library secures albums of

## Frosh Queen of '53

Pictured above is Margery Ann Linton, our most deserving "Frosh Queen" of 1953. "Margie" hails from Riverside, Ontario and is enrolled at Assumption College, taking a Lab. Tech. course. Frosh Queen for 1954 will be elected from a number of candidates and announced at the Frosh Hop.

## Greetings from the Dean of Women

The Sisters of Holy Names Hall extend cordial greetings to all women students registered at Assumption College, especially to the newcomers. We wish you a happy and a successful academic year. Your happiness and success, however, will not depend solely on regular attendance at lectures and assiduous application to study, but also upon your wholehearted participation in the numerous religious, intellectual, social and cultural activities designed for a well-balanced college life.

Many of the Co-ed activities are sponsored by the Holy Names Undergraduate Association, organized for the promotion of the special interests of women on the campus. The centre for this Association is the recreation room, "Women Students' Union," at Holy Names Hall, where we hope that we shall see you often. The Sisters will always be ready and willing to assist you in solving your personal problems, and to guide you, especially the Freshmen, in adjusting yourself to the environment of the College.

recordings on loan from the Willistead Public Library Record Collection for faculty and student groups. Another service which will be of great value to students of Political Science, Geography, and History in particular, is the newly acquired collection of Canadian, American, and British government documents. Assumption Library has recently been nominated a Selective Depository Library by the Queen's Printer. This means that the library is entitled to receive one copy of each document printed in Ottawa. The volume of public documents received by the Library is enormous, and, at the same time, a very valuable addition to the collection.

Library hours will be the same as last year; i.e., Monday through Thursday, 8:30 a.m. to 5:00 p.m. and 6:30 p.m. to 8:30 p.m.; Friday, 8:30 a.m. to 5:00 p.m., and Saturday, 9:00 a.m. to 12:00 Noon. Open shelf books circulate for one week, and reserve collection books circulate overnight until 9:30 a.m. the following morning.

## Plans for New Library

For the past year, the Library Board has worked on plans for a new library building to be erected adjacent to the Memorial Science Building. Tentative plans are completed, and it is expected that the library will be operating in new

quarters in approximately two years. In the meantime, the Library Staff is planning its services with a view toward operation in the new building. It is also planned that the reclassification of the present collection will have been completed by the time the move to the new building is made.

## Alumni Association Heads Five Chapters

The Alumni Association of Assumption College was founded in 1933, and its first president was Monsignor Francis VanAntwerp of the Class of 1877. Father Van, as he was affectionately called, was a Detroit pastor for many years and is held in prayerful memory by many former Assumption students since for 34 years he returned to Assumption annually to conduct the students' retreat.

Throughout its more than 50 years of existence, the Alumni Association has always endeavored to maintain a close bond between the College and its former students and to enlist from the alumni body every kind of assistance in the development of Assumption. Reunions of all former students have been conducted on the campus in recent years on a biennial basis. Class reunions have been arranged at other times. The Association annually appeals to its members for donations to the scholarship funds and assists the College in other financial campaigns and in student recruitment.

Local units of Assumption alumni have been formed in recent years. The Windsor Chapter was the pioneer in this activity and its members have been meeting monthly for over 20 years. Other chapters have been established in Detroit, Toronto, Montreal and Rochester, N.Y.

Since November, 1939, the Alumni Association has published a monthly paper, "Alumni Chatter." Its circulation this year is 5,200. A complete file of Alumni Chatter is to be found in the College library.

Dr. Louis J. Morand, of Detroit, Class of 1912, is president of the Association. The vice-president is

## Papal Delegate Lauds College

Most Rev. Giovanni Panico, D.D., apostolic delegate to Canada from Rome, paid a visit to Assumption College on Friday, October 1. The distinguished delegate of the Holy Father terminated his visit to the London diocese accompanied by Bishop Cody.

It was the Papal delegate's first visit to the area since his arrival in Canada in March. A former Apostolic delegate to Australia, he has been apostolic nuncio in Lima, Peru, for the five years preceding his appointment to Canada as successor to Archbishop Ildebrando Antonetti. The new delegate has been travelling throughout Canada since June, visiting various dioceses.

In a speech to Assumption students, the delegate praised Assumption College. The P & W here prints the contents of his speech.

"Reverend Fathers, my dear students. No doubt you are all aware of the true meaning and purpose of a University. Being so, you can understand the pleasure it gives a representative of the Holy See to visit this College of yours, so recently known to the stature of a University.

Assumption College was created by the combined efforts of clergy and laity to continue in this part of the world the mission so well inaugurated and fulfilled by the Universities of Europe and other lands. It was the Church that mothered and fostered University education, and she intended these institutions to be a channel for bringing her voice to the minds and hearts of succeeding generations. And what did she wish to say through the Universities? She wanted to relay the same message she transmits through the altar or the pulpit. The

### C. C. C.

First Annual Commerce Club Casual will be held on Friday, October 22 in the Students' Union. An orchestra will provide music and entertainment from 9 - 12. Admission: couples, 50c, singles, 35c.

Church knows that, unless men learn the arts and sciences in relationship to the ultimate purposes of human life and in relationship to God, their learning can never be real education but must remain a mere knowledge of facts and assimilation of skills. She knows also that in most countries it is only through the establishment of Universities under Catholic auspices that her own children will be sure of learning "the way, the truth and the life" during their formative years.

"To the Basilian Fathers and all who have been the Church's instruments in making Assumption University a centre of true Christian education, I offer my congratulations and encouragement. I urge those authorities never to lose sight of the common goal towards which every faculty of this University must work. It is not merely a case of the scientists turning out skilled scientists, or of the arts professor moulding clever scholars. Each and every faculty can and must pass on truth and a way of life: not different truths and different ways of life, but one and the same truth and way. Obviously, there must be integration of both subject matter and staff for education of this kind to exist. The results will be genuine Christian education. Assumption University will send out, from its halls, men and women who are informed and skilled, who are equal to any in the world today, but, these men and women will be something more. They will be informed with the whole truth, and skilled in the whole way of life, and convinced it is their happy task to bring others to the truth and the way so precious to themselves. Remember these words of St. Jerome: 'The soul of the child is to be educated with a view to its becoming the temple of the Holy Ghost.'

## Just One of Those Things

Pictured above is just "one of those crazy things" which were seen in the Snake Dance during Frosh Week. The Snake Dance, a tremendous success, was a conglomeration of floats, confetti, goats and even Freshmen. Miss Eleanor Pare (centre) surrounded by a trio of clergymen (Freshmen) who appear to be giving her last rites.

## Papal Delegate

REV. PANICO

"To those of you who are students, I would like to address a very special word. You should receive the minds, hearts and hands that gave you this centre of learning. You should appreciate what they have given and show your gratitude in a practical way. Mere words can never prove that your appreciation is sincere. As St. Ignatius says: 'Love consists much more in deeds than in words. God is a skillful money-changer; had money does not pass current with him, and in His eyes our words have only the value of our actions.' What is the practical way of saying thanks? Now, whilst you are students, you must be assiduous in study and participation in campus life. After graduation, be the kind of men and women whose lives prove that Assumption has sent you out, knowing the way, the truth and the life.

"To conclude these remarks, I want to make special mention of the efforts put forth by Assumption University in the field of adult education.

"The more concrete programs of actions you inspire in the community, the more will you fulfill the nature and purpose of a University."

## "What a Week" —Freshman

At the assembly on Monday, Father Label, the president of our college made us feel right at home. We were very glad to meet the president of the S.A.C. and his council. From their appearance and their speeches we feel they are good leaders. This we will observe during the coming year.

Wednesday night's banquet and dance was a bang-up success. To us, the highlight of the evening was Bishop Nelligan's talk. He is our idea of a true apostle of God.

Bob Knuckle and Len Dietzen did a wonderful job of organizing the spectacular and orderly parade on Thursday night. Credit is also due to all the upper classmen who participated in making the various activities during the week the success that they were.

We are still wondering where they got all the floats, trucks, buggies, goats, rabbits, cats, and horses that joined the parade. We also would enjoy knowing if there was any similarity between the parading goats and the parading freshmen.

The climax of frosh week came on Friday night, highlighted by the election of the freshman queen, Eleanor Pare, the Frosh S.A.C. representative, Gene Nori, and Fred Lang as the Frosh Athletic representative. The popular and modest Eleanor was a happy choice to be our queen and as far as representatives go we think Gene and Fred are "tops."

The smooth music of Matti Holli plus the gay happiness of the large throng of students attending our dance made it a tremendous finale for Frosh Orientation Week. For some reason the orchestra played "God Save the Queen" at twelve and then kept playing until one.

From the standpoint of becoming acquainted with lecturers and fellow students Freshman Week accomplished its purpose. Now the year spreads out ahead of us. We feel that our college has an outstanding president and teaching staff. Add to this the general keenness of the students and we feel that Assumption College should set a high standard in the academic world. This, to us, as freshmen is the most important thing above all else at our University.

A FRESHMAN

## Psychology Club Meets; Active Year Promised

The Psychology Club of Assumption College held its first meeting of the 1954-55 academic year in Room 304 to discuss forthcoming events and election of officials. President Lynne Toth welcomed an interested group of students with these words: "The Psychology Club last year led a very active existence. This year we hope to do bigger and better things." A very informal discussion period was held. The club plans to study such fields as Child and Social Psychology, Delinquency, Marriage Problems, and Psychology of Industry.

Fr. M. Record, C.S.B., is faculty moderator and the next meeting of the organization is scheduled for Wednesday, October 20 in Room 304 at 4:00 o'clock.

## Christian Culture Series

Bishop Fulton J. Sheen opened Assumption College's twenty-first C.C.S. under the directorship of Father Stan Murphy, C.S.B. His lecture, "Brain Washing," was held at the University of Detroit on August 26, 1954 at 8:30 p.m.

For the student (and who is not one throughout life's span) this year promises to bring a wealth of culture, knowledge and entertainment.

Here are just a few programmes that will appear in the future:

October 31  
John Hyasta, first American to escape the Communists after being held by them on trumped-up spy charges, 8:30 p.m. at St. Denis Hall, Assumption College, Windsor, Ontario. Topic is entitled "By Faith Alone."

November 7  
The Detroit Symphony (105 members) will play at the Capitol Theatre, Windsor, at 8:30, Paul Paray conducting.

November 15  
Playwright of Washington, D.C., will enact Julius Caesar at the Detroit Institute of Arts. Time: 8:30 p.m.

November 21  
Carleton Smith will appear at St. Denis Hall, A.C., at 8:30 p.m. His topic is "The Arts Censored or Uncensored." He is president of the American National Foundation of the Arts. Mr. Smith concludes the November programme.

Keep posted with your reporter.

## 6 Man Out, 12 Man In

By Peter Howland

The Assumption College intramural football league inaugurated a new system this season. The important change being a switch from 6-man to 12-man teams. This transformation has been readily accepted by the participants in the general practice sessions already now in progress. An intramural football league is definite. However, the success of this league will depend upon student interest. In all certainty a successful league will necessitate the formation of a considerable number of active teams. There is a need for more participants since about only 40 are attending workouts.

Perhaps one reason for the apparent lack of interest is that American gridmen are unfamiliar with the Canadian brand of ball. To remedy this situation, a few differences between the two will be listed below.

To begin with, the dimensions of the playing fields differ, the size of the Canadian field being larger than the American: 110 yards by 65 yards, with a 25 yard end zone against 100 yards by 53 yards with a 10 yard end zone. There are 12 men on the Canadian team, the twelfth being the "Flying Wing," who is used both as an extra line man and as a blocking back. In Canadian football the defensive line at the snap is one yard from the ball, the backfield having the option of being in motion toward the line of scrimmage even before the snap.

There is no blocking after 10 yards from the line of scrimmage, whereas unrestricted blocking on kickoffs is permitted. However, a five yard fair catch zone must be given to the kick receiver.

In scoring, the Canadian game also differs from the American. In football north of the border, a touchdown is worth five points, a field goal three, point after touchdown and the rouge one point. The latter is a play unique to the Canadian game. It occurs when a kick goes into the end zone and 1) rolls out of bounds or out of the end zone completely; 2) is caught and not run out of the end zone. The kicking team then receives a point.

Now that the American players have been educated in the Canadian system, a larger turnout should be expected.

## Publicity

All campus organizations wishing publicity in the Student Administration Council Bulletin must submit such articles to Marilyn Miller by Wednesday of each week for publication the following Friday. Marilyn will receive articles in the S.A.C. offices.

The main factors in last year's successful football league were a large turnout and the eager spirit shown by all competitors. Playing in a five team league with the added attraction of championship playoffs, football men whipped up a frenzy unknown to Assumption grid circles.

The undisputed champions of the league were the Juniors who compiled an unblemished record of four wins and no losses in regular league play. They also swept the playoffs with two consecutive victories. It is interesting to note that the Juniors, being almost entirely Canadian, featured a hard running attack whereas their closest rivals, the Freshmen, had a Yankee passing attack.

The purpose of this article is to illustrate to the sports minded men at Assumption College that football here is big time. Student support will decide how big time.

## Editorial

### What About Football?

From the very beginning of the school year, Assumption has promised to move on a higher level than ever before. The Frosh Initiation Parade and the Frosh Hop exceeded all the others in the history of the school. The basketball team promises us another victorious year. But what about football?

During the past two weeks there have been football practices which could have been held in someone's back yard. Not even one third of all those physically fit to play made an appearance. That huge stretch of grass in front of the school isn't a lawn. It's a well equipped football field, capable of accommodating all our football players.

As long as you can play football you should be more than willing to give up a little of your time out of loyalty to your school. But even if you don't care whether Assumption reaches a new level in intramural football and may someday participate in inter-collegiate football, you should participate for your own selfish ends.

A famous coach once said that football not only strengthens man physically, but also mentally. True, the body becomes well developed through rigorous training and coaching, but the mind which is more reliable than the body also becomes strengthened.

With each man working shoulder to shoulder, there must be split second thinking guided by co-operation. Recently the fallacy of the old cliché "a strong back and a weak mind" makes a good football player, has been apparent. It has been proven that every man is required to make a quick and precise decision under great strain in every play. This exercise of the mind helps one to meet and solve more important problems in life. Such a man with a broad outlook on life is able to take defeat like "a good sport," and take victories without assuming a superior attitude.

The huddle before every play signifies the co-operation of each member working toward a common end. With this spirit of co-operation imbibed in a man, he is able to work successfully in any field of work into which he may later go.

If you don't feel that you have a true sense of loyalty toward your school, perhaps it is because you really never gave yourself a chance. If you are able to play football, do so.

"MORNING, DAD!"

### Know the Faculty

FR. DONALD FAUGHT, C.S.B.

The Faculty and Student Body of Assumption College take great pleasure in welcoming Father Faught to our Campus.

Father Faught came to us early in September of this year on transfer from St. Michael's College High School in Toronto, where he was held in high esteem by all those with whom he came in contact during the past 17 years. Those among us who had the good fortune to meet him personally at St. Michael's will unanimously agree that Father Faught was always available to render advice to all, both spiritual and scholastic.

He was the Head of the Math department at St. Mike's and those whom he taught will vouch for his genius in that field from the sparkling math classes which he conducted.

Father Faught is an Arts graduate of the University of Toronto. He later attended Michigan University where he acquired his Master's degree.

For the past four years he held the rank of Assistant Superior at St. Michael's and inaugurated, and was Chairman of the Marist Guild.

His interests in athletics carried him to unlimited heights as a renowned figure in the hockey world. Three years ago he assumed the chores of manager of St. Michael's Majors in the Jr. "A" O.H.A. division. He led the club to the finals the past seasons against the Barrie Flyers and the St. Catharines Teepees respectively. His rapid and ever-growing friendship with Con Smythe, General Manager of Maple Leaf Gardens, high-lighted the hockey regime at St. Michael's.

The fact that St. Mike's eliminated St. Catharines to advance into the final round in the 1952-53 season is responsible for the grin under Father Faught as seen here.

So again we salute you Father and you can rest assured that Assumption will keep you smiling.

#### Attention, Grads

All seniors, who expect to graduate, are urged to make appointments at Wild Studio for pictures for The Ambassador. The deadline is October 31.

## CAMPUS ROUNDUP

by O.K.

THE FROSH HOP last Friday night ended one of the most successful Orientation weeks ever held at Assumption. Both the Freshmen and upper classmen retained an ideal outlook on the purpose of this event. There were no accidents, no misfortunes and above all there was no bad feeling when the Frosh week schedule reached a conclusion. It seems to have been the fad this year, that university Freshmen must riot to be initiated. We can pat ourselves on the back for successfully avoiding such a childish and destructive practice. It is paradoxical to the point of humor that students who have come to university to learn how to construct, should start out in a destructive manner.

★ ★ ★

UNANIMOUS CHOICE for the outstanding event of the Frosh week was the Snake Dance. The people of Windsor suddenly became conscious that Assumption has a little spirit, or rather, a lot of spirit. They saw some of the most outlandish sights and costumes, some of the most spirited fun and some of the most ardent school spirit ever witnessed in Windsor. There is a thin line between outrageous behaviour and good spirited fun. The behaviour in the Snake Dance never crossed that line. The citizens of Windsor, who could easily have had reason to complain enjoyed the spectacles more than some of the participants.

★ ★ ★

CONGRATULATIONS for the success go to many, but special congratulations must go to the few who organized Frosh Week. The Freshmen, first of all, are deserving of special applause for the manner in which they acted and co-operated. The Student Council deserves a hand for the fine way in which it has begun the year, especially Bob Knuckle and Len Dietzen. Bob has been a living dynamo for the past three weeks, so that things could run off as smoothly as they did. Len Dietzen came all the way from Tennessee a week early to give a helping hand. Also a special thanks to the faculty for their co-operation.

★ ★ ★

QUIPS 'N' QUOTES: BISHOP NELLIGAN, the beloved orator of the campus, was his usual best at the dinner dance. His seemingly endless array of jokes baffle the listeners by their number. I suspect it is more than memory. The N.F.C.U.S. delegation to its annual meeting in Toronto will be led by John Brockenshire. BOB SOZANSKI, the Irish tenor, was heard singing that grand old Irish ditty "The Crowd at the Bullfight Shouted 'Ole,' as the Bull Ripped Hernando's Hideaway."

## TIME OUT

with LEIF

## EDITOR'S NOTE:

This is a column on sports about Assumption College and the sports world, which will appear in every edition. It is written by the Sports Editor, John Craddock, otherwise known as Lief. We hope you like it.

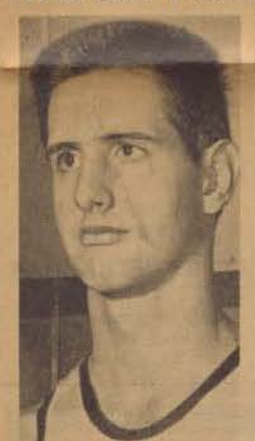

Attention sports fans... whether you know it or not, there is a sport called football being played at Assumption College. There is no compulsion for any student to engage in this sport. However, in a school this size it should be an easy matter to attract more than 40 men to the initial workouts. It certainly shouldn't be a lack of school spirit because in every event there has been an overabundance of it. There have been rumors in the past that Assumption may enter the Intercollegiate Football picture. From a practical viewpoint this would be a little ridiculous unless you have enough players to form a team. The only way we can arrive at this point is to have an intramural league with active student participation. So, men, let's see you show that school spirit by going out and giving the game a whirl.

All the budding Ben Hogan's from our ranks invaded Roseland Golf Club during the past week. Rod Scott, our Golf Commissioner, assures your reporter that a very strong team will represent us in London at the Inter-Collegiate Tournament this week. Who knows? Assumption may soon be more than the Intercollegiate Basketball champs. May the best team win, but we hope it's Assumption.

We may be rushing the season a bit but the Athletic Council recently elected a Hockey Commissioner. This position was aptly filled by the appointment of Mike Doyle. Mike is a graduate of St. Mike's in Toronto, the well known hotbed of hockey players. The Athletic Council feels that with a man of Mike's capabilities directing the operations, an intramural hockey league might be possible this year. There are certain problems to be overcome such as ice rental and the ever present problem of getting enough athletes out. This corner will keep you posted on further news in this respect.

We have heard that Bill Lee, known to Assumption as Herbie, will be back in Windsor for another year as he was recently traded to the Bulldogs by the Chatham Maroons. We were also glad to see Reno Bertola back on the campus after completing a successful season with the Tigers. Before I close I would like to caution any Indian fans against jumping from the Ambassador Bridge, because it isn't the fall that hurts, it's the sudden stop.

## Meet the Team

CHUCK COLLINI

Pictured above is Charles (Chuck) Collini, centre of the Assumption Purple Raiders. Chuck, six feet five inches, comes to us from Royal Oak High. He is now in his senior year at Assumption. Charlie has the distinction of being one of the Assumption players chosen for the Intercollegiate All-Stars. It is sincerely hoped that Chuck will surpass himself and have another great season. Collini's popularity was proven by his election to the Student Council last year.

## Nori Elected Frosh Rep

It was announced at the Frosh Hon that Gene Nori was elected Frosh Representative to the S.A.C. Gene, a holder of a Senior Matriculation certificate, is in Commerce. He hails from Sault Ste. Marie, where he attended the Sault Collegiate. Previously, he attended St. Michael's in Toronto and so is no stranger to Basilian schools. His brother, Gerry, was editor of the Ambassador in 1953 and a very popular figure about the campus.

Gene has a special message for the Purple and White:

"Having been here only a few days has already revealed to me the great part that our Student Council takes in our everyday life here at Assumption College. It has been through its efforts that our first week at Assumption has been such a pleasant and successful one.

"I realize the status of such a position as Frosh Rep. and I will give my best and unceasing efforts. The Freshmen of this school will rise in importance and take their place in the everyday life here at Assumption. I realize that I will be the link between the Freshmen and our Council and I will always be open for your problems and suggestions no matter how great or trivial they may seem. Your concerns are my concerns and your interests are my foremost interests. I will endeavour to do my utmost to see that we will get equal representation in all student activities.

"The student council this year will be in contact with all the other clubs of the school. This will mean a closer connection with more activities and your representation will

be that much more important.

"I want to thank all the Freshmen who have made my stand for Freshman Rep. such a success. The confidence that you have placed in me will not be forgotten and I will see that the Freshmen have a prosperous year."

## Tennis Team Leaves

The Assumption College Tennis Team left on Wednesday to compete in the Intercollegiate Tennis Tournament in Toronto. The team, made up of Lou Veres, Fred Dupont and Jack Gauthier, were optimistic at the time of their departure. "We will do our best," said Fred Dupont. "We won't be pushovers."

Lou Veres, an outstanding all-around athlete, won the Windsor Tennis Championship this past summer. Gauthier and Dupont are also bright prospects.

Paul Roche, president of the Athletic Council, gave them a final farewell and wish of good luck.

## Last of the Sixers

Pictured above is possibly the last championship team of six man football at Assumption. They are the Juniors of '53-'54, who swept the intramural league. Kneeling (left to right) are Paul Hart, Joe Devereaux, Bill (Moose) Moineshy, John (Duke) Roubie, and Paul Roche (captain). Standing (left to right) are Bernie Kelly, George Hammerschmidt, Mark Wiant, Max Karcis and Harry Bick.

## New Bowling Season Starts Monday

Bowling Commissioner Pete De-Vriendt of the Athletic Council announced today that plans have been completed for the new 1954-55 bowling season. Avid ten-pin artists are requested to see Commissioner De-Vriendt personally, if at all possible. In any event, handicap bowling will start this Wednesday at 4:00 at the Campus Recreation Lanes. A 12-team league is anticipated. However, this will be determined by the size of the turnout.

## Assistant Couch?

Chuck Schiano (pictured above) who was appointed Football Commissioner last year, has undertaken the prodigious task of organizing the 12 man football. Chuck is optimistic about the future of the 12 man game at Assumption, but can only succeed with student support. At the first Assembly, Schiano was raised to assistant coach by Athletic Council president, Paul Roche.

## A.C. to Promote School Spirit

The Assumption College Athletic Council held its initial meeting Monday, September 27, under the presidency of Paul Roche and the moderatorship of Dr. DeMarco.

Getting right down to business, the Council made pertinent decisions concerning the filling of vacant positions in the Athletic Council and determining the intramural sports program.

As to the problem of filling the vacancies in the organization, it was decided that applications would be passed out to those who were interested. The Council will then appoint the applicants with the best qualifications. The posts available are Senior representative, Sophomore representative and Commissioners of Bowling, Hockey and Basketball.

Dr. DeMarco emphasized the fact that intramural sports this year will be played on a voluntary basis. The college will assume no responsibility for any injuries incurred during play. Therefore some kind of insurance program is necessary since over five hundred dollars was paid out by students for medical bills last year. This need cannot be defeated by the argument that intramural sports are voluntary because we all know that the Freshmen must participate in at least two in order to get their physical education credit.

Intramural football this year will be played on a 12-man team basis. An introductory two week training program will serve as a means of conditioning and as a method of forming teams in the league. The main reason for switching from 6-man to 12-man team competition is to acquaint players with the system used in intercollegiate play in the hopes that Assumption may some day field a Varsity squad.

Swimming may be raised to the intercollegiate level if there is enough interest. This could hold true for any other sports activity as well.

The Athletic Council this year will stress student interest in all sports both intramural and intercollegiate.

Bearing in mind that Assumption will benefit greatly from all publicity derived from this school spirit, the Athletic Council will do all it can to foster it.

## CO-ED CAPERS

Activities are well under way in women's news this week. At a meeting of the H.N.U.A., Monday, October 4, Margaret Ceresa, president explained the purpose and function of the Council and introduced the elected members who are:

Iris Saychez	Vice-President
Alice Rittenhouse	Senior Representative
Nat Stewar	Junior Representative
Sheila O'Rourke	Sophomore Representative

Elections will be held this week for Representative of the Freshman class.

Congratulations are in line for Eleanor Pare, Frosh Queen. Eleanor is in first year Lab Tech and hails from River Canard. She likes Assumption and is already active in campus affairs.

Residence this year has 12 girls, six of whom are freshmen. Because of the number of girls staying there, three of the "old troopers" have moved to the third floor in order that everyone will have a single room. So that there will be uniformity of dress at morning Mass the women are wearing caps and gowns.

—Marilyn Miller

## Beauty Plus Modesty

"I had resigned myself to forget about the contest and not plan on winning. When my name was announced at the dance, I was afraid to go up on the stage because I thought I'd burst into tears."

These are the words of our vivacious and modest Frosh Queen, Eleanor Pare. She is a graduate of St. Mary's Academy and in her first year Lab. Tech. Upon completion of her course at Assumption, Eleanor plans to intern at a hospital in Detroit.

She comments on the friendliness and good spirit of the students at Assumption. Eleanor is planning on adding to the school spirit by becoming a cheerleader.

Basketball, skating, playing the piano, and singing at parties rank among her favorite pastimes.

For extra-curricular activities the Queen has chosen the P & W, the French and the Dramatic clubs. Later in the year she will be seen in one of the Dramatic Club's one-act productions.

## New Club Formed

A new club has been formed on Campus called the Creative Arts Club for the purpose of furnishing the decorations for the College dances. Betty Sheridan has organized the club and wishes to welcome any new members interested in creative art work. Father Hartmann, the Dean of Men, is the Moderator of the club and will see that the club has his full support. The Creative Art Club will meet every Wednesday afternoon at 3:00 p.m. The group is now working on decorations for the Halloween Dance, which will take place in the very near future.

## SHADOW AND SUBSTANCE NOV. 11, 12, 13

### PRIZE WINNER ON STAGE AT ST. DENIS HALL

By ELEANOR PARE

The casting of the Broadway play "Shadow and Substance" by Paul Vincent Carroll is now complete and rehearsals are progressing rapidly. This play was chosen by the director, Father C. P. Crowley, to be the major production of the Assumption College Players this year. It will be presented in St. Denis Hall on November 11, 12 and 13. The story dramatizes conflicting forces at work in Ireland. Upon its opening at the Abbey Theatre in Dublin it caused quite a furor because it was a satire on education. The New York production starred Sir Cedric Hardwicke and Julie Haydon and carried off the Drama Critics Award for the best foreign play of the 1937 season.

We have even greater hopes for the Assumption production which stars Frank McTeague in the leading role. Frank plays the part of the Canon, who becomes embroiled in a struggle with two people. The rebellious schoolmaster is played by Brian Smythe, and Paula Clary plays the role of the saintly house servant who is constantly seeing holy visions.

Two newcomers to the school, Joe Luddy and Peter Vanderwoert handle the role of the curate. Beverly Johnston plays the part of Kate Conroy and her nephew is played by Jack Jewiss. Other parts are, the Canon's niece, played by Shirley Tonsignant, Marty Mullahane, played by Peter Broder, and his wife, Rose Violet, played by Helen Caniff. The five newcomers in the cast bring to light the latent talent of the freshman class.

#### One-Act Plays

In the theatre laboratory, three one-act plays are in progress following an educational policy to develop student directors. Anton Chelov's "Marriage Proposal" is directed by Marilyn Miller and Andy Garlatti is directing the "Bishop's Camillestick" by Norman McKinnel. Phil Drouillard has undertaken to direct the "Flattering Word" by George Kelly. Although all three producers are new in this field, they are progressing extremely well and should be given a great deal of credit. Those to be seen in these one-act plays are: Rosemary Sikich, Fran Warren, George Tomlinson, Leon Levine, Andy Garlatti, Natasha Stewart, Bob Sozanski, Peter Broder, Nancy Birchard, Eleanor Pare, Diane Barr, Don Biers and Bill Cramp.

#### President Elected

Election of the executives followed the second meeting of the Drama Club. Brian Smythe was elected president and Natasha Stewart secretary-treasurer.

To enable the students to get into the spirit of dramatics, the Drama Room has been provided with a stage and new decorations. With this in mind, the Drama Club hopes to have an interesting and educational season.

### W.U.S. Seminar Scheduled For Far East

On October 15, 16 and 17 the World University Service of Canada held its national conference at Hart House, University of Toronto. Stuart Wilson, President of W.U.S. here on campus, and Fr. D. J. Mulvihill, faculty moderator, represented Assumption. Major points of interest—seminar this summer is to be in Japan, the major international project will be the building of a health centre for the University of Patna in India where 80% of its 10,000 students require medical attention.

### They Survived The Flood

John Brockenshire (left) and Dick Kennedy are shown looking up a scheme at the annual meeting of the National Federation of Canadian University Students, in Toronto. John and Dick, the Assumption delegation, survived the conference and floods in Toronto, to return enthused with the bright future of N.F.C.U.S. They particularly were impressed with Canada's role in international student affairs and the forthcoming drive for new scholarships.

### Fr. Hartmann First A.C. Dean of Men

Since Assumption College has been granted University status, the school has been growing rapidly. Numerous exterior signs give evidence of this growth. One sign in particular typically denotes success: that of the newly created position of Dean of Men.

Responsibility for the men students (that of discipline and of properly placing them in residence in neighbouring homes) in the past lay wholly on the shoulders of our very able Dean of Arts and Science, Fr. Norbert J. Ruth. Because of an increase of enrollment and a need for closer supervision of men students, it was decided to divide Fr. Ruth's responsibilities, thereby creating the position of Dean of Men. This position was given to the popular professor of English, Fr. Edward J. Hartmann. Fr. Ruth retains responsibility for arrangement of courses and academic problems.

Your reporter, upon interviewing the new Dean of Men, gathered the following information:

The motto on the coat of arms of Assumption College is taken from Psalm 118: "Teach me goodness, discipline, and knowledge." It expresses concisely the aim of the College, which is to form its students spiritually, morally, and intellectually, and in that precise order of importance, so that they may gain the end for which they were created. The College would not, therefore, be faithful to its professed purpose if it did not insist on a reasonable rule of conduct for its students.

It is the function of the Dean of Men, which office is at present held by Fr. E. J. Hartmann, to assist the President in all matters pertaining to the good order of the College and the welfare of the male students regarding discipline and residence. The Dean of Men is responsible for applying the regulations for resident men students, for student recreations in the lounge, and for their behaviour both on and off campus. He is responsible for the supervision, in person or by delegate, of all

#### DEAN OF MEN

FR. HARTMANN

student functions of a social nature, and for seeing that no conduct is allowed that would reflect unfavourably on the good name of the students or the College.

When interviewed by your reporter in the palatial office of the Dean on the first floor of St. Michael's Hall, Father Hartmann terminated the conversation with the remark: "Little did I think that I would be called upon in my old age to take upon my frail shoulders the heavy burden which the demersy involves. However, I shall endeavour to bear it manfully, and trust that my duties will be carried out to the satisfaction of both the President, to whom I am responsible, and the students, for whom I am responsible."

### Lou Veres Elected History Club Head

At the first meeting of the Assumption College History Club, Lou Veres was elected President with Rose Marie Sikich acting as Secretary-Treasurer. Assisting the executive as members in large are Stuart Wilson, George Joseph, and George Hamerschmidt. This first meeting was well attended with over 20 students present.

### N.F.C.U.S. TO SPONSOR SCHOLARSHIP DRIVE

By JOHN BROCKENSHIRE

During the week of October 18 to 23, Assumption College was represented for the first time at the N.F.C.U.S. national conference. Assumption's delegates were Dick Kennedy and John Brockenshire.

The conference, after hearing reports on last year's work, was divided into three commissions to work on national, international, and financial problems. These commissions prepared resolutions which were later presented to a plenary session of the conference. Out of these commissions came, in addition to a number of motions on international regulation, many resolutions of interest to all Canadian students.

### I.U.S.-N.F.C.U.S. Relations

By JOHN BROCKENSHIRE

One of the most debated questions at the Federation Conference was what relations N.F.C.U.S. should have with I.U.S. (International Union of Students—a commission controlled organization representing students behind the Iron Curtain). After much discussion, it was resolved that since N.F.C.U.S. believes in student unity and the I.U.S. represents a large block of students, therefore a N.F.C.U.S. delegation should be sent as observers to the next I.U.S. conference.

Further, it was resolved that the observers be empowered to offer membership of N.F.C.U.S. in I.U.S. subject to conference ratification, providing that the I.U.S. accept a list of conditions for I.U.S. membership, secretariat, documentation, procedure, etc., which would in effect make I.U.S. a free and democratic organization.

### Library Launches First Attempt At Book Drive

During the week of November 8-12 the Assumption College Library will conduct a Book Drive. Some students have books at home which are collecting dust, but are too valuable to throw away. If such is the case, the library will be only too glad to accept them.

Mrs. Robert Haddow, Librarian, recently announced that Book Drives will be regularly sponsored activities of the College Library each semester of the school year. The purpose of these activities are to encourage book donations to the College Library by providing convenient facilities for the students and other interested persons to deposit their donations. Large boxes will be placed in three convenient locations on the campus; in the College Library; on the main floor of the Science Building; and in the Students' Lounge. Students are requested to place any books from their private collections which are no longer wanted or any text books no longer needed in the boxes provided.

The library staff will collect and sort these books. Textbooks, for example, will be used for reference purposes. Those books which the Librarian believes are not suitable for the College Library will then be boxed and shipped to the World University Service for distribution to libraries overseas under the patronage of the W.U.S.

Let us all contribute to make this Book Drive a success!

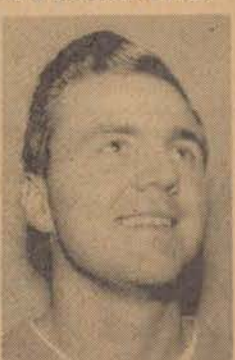

### Attention, Seniors

The National Employment Service of Canada will shortly be leaving application forms in Fr. Swan's office. The purpose of these forms is the placement of our graduating students. If you are interested in finding out what positions the N.E.S. has to offer, pick up and fill out an application. Then call Mr. Ben Howe or Mr. Frazer at N.E.S. at CL 6-3161 for a personal interview.

### Attention

All clubs desiring publicity in the Campus Courier are asked to submit articles to either Paul Martin or John Marshall by Wednesday of each week for publication the following Friday.

### New Senior Pres.

BERNIE KELLY

Bernie Kelly, pictured above, is seen smiling in his usual Irish fashion. Bernie was elected President of the Senior class, when Joe Devereaux, elected last year in the spring elections, failed to return to Assumption. He was active last year in student activities, having been a member of the Athletic council and also a main cog in the big Junior machine which swept the intramural football league last year. It was also due to Bernie that the Homecoming parade of last year was such a success. Bernie Kelly has already made an impression at S.A.C. meetings, especially with his subtle humour and pertinent suggestions.

## Editorial

### Hello, Tomorrow

As college graduates, we will shortly enter that cruel, cold world we have heard so much about. The proper way in which we approach a prospective employer will be all important. Few employers want the top men of the class. The employer looks for students active in classes and also for those who have participated in extra-curricular activities. They feel that this type of student is more mature and valuable to their firm.

Put your best foot forward in the job. Be well dressed. It does wonders. Don't be conceited in an interview. Adopt a humble, yet confident approach.

Don't worry too much about salary, but the opportunity or challenge offered in your particular job. Have integrity. Play fair with your employer. That old axiom "A honest day's work for an honest day's pay" still applies.

When taking a college course, the student should ask himself, "Can I do it? Will I be happy? Am I interested in it?"

The choice of a career should not be made on the theory of supply and demand but on your personal liking for that field in which you honestly desire to excel. Then you can proceed with the serious intention of overcoming any difficulties to reach that goal.

Throughout all, you must be interested in the chances for advancement and have a willingness to accept responsibility.

## Know The Faculty

DR. STRATFORD

Dr. Phillip Stratford, is a new professor in English at Assumption College. Born in Chatham, and raised in Toronto, Dr. Stratford received an Honours Degree in English from the University of Western Ontario. (The Editors in glancing through the Western Year Book, 1949, noticed a smiling student, named Stratford, decorating sets for a play—a job which he has resumed here at Assumption.) He spent four years on the continent where he attended Sorbonne, Paris. While studying there, he met his wife. He is now the proud father of a one-year-old son. We wish to welcome Dr. Stratford to Assumption and wish him luck in his teaching career here.

## College Band Solicits Support

By MATT BOROWIEC

The college spirit has hit Assumption College. This year there will be bigger and better support for our basketball team due to numerous moves such as the advance sale of student tickets and the enlargement of the college band.

Pertaining to the college band, it will be bigger and better although the same dynamic personalities will be back. The difference will be a major expansion program to finance the buying of sweaters and the decorating of the bandstand. Purple and White bandstands are being prepared to add color to home games.

Responsible persons in charge of the band are expecting some 24 members this year of which 12 will be new students. This year, as last year and the past years, the band will play at basketball games, assemblies, and quite a few other school functions.

A draw is being held to defray the cost of the sweaters, which is approximately \$200. The students of Assumption College are asked to co-operate in any way possible and to give their fervent support financially and otherwise. The prizes of the raffle are (1) a portable radio, (2) a desk lamp, (3) and a string of pearls.

The success of the band is but another feature in Assumption's rising spirit and quality and certainly is a step in the right direction towards growing up. Everyone should donate a little, because actually, in the long run, they are benefiting themselves as well as Assumption.

## RELIGION IN EXILE

### Stuart Wilson Reports

EDITOR'S NOTE: Stuart Wilson, a Senior Arts student represented Assumption at the annual world seminar, this past year held in England. He travelled extensively throughout Europe and had many fascinating experiences, some of which he will relate in a series of articles which will appear in the P & W. This is the first.

I spent this past summer in Scandinavia and England, studying their way of life and position in our rather jumbled world. One of the tours most striking to me was to see Christianity at ebb tide in the Nordic countries.

In Sweden, Norway, Denmark and Finland, the state church is Evangelical Lutheran, comprising 90% of the population. Yet, this figure is misleading since everyone is born into the Church (few see it again until their funeral). Actually, only 4% attend any sort of Church service regularly.

As far as I could discern, topics like religion, philosophy, and theology are shunned. As one Finnish chap told me, "I've never thought about religion before—I don't know the answers and I don't care!" There seems to be present in these countries a feeling of spiritual insecurity.

If these countries, so near to the Iron Curtain are really spiritually bankrupt, how long will they continue to run on "nervous energy"? At present, they appear to be truly Christian from an ethical standpoint, but if Christianity is not deeply engrained in the people, surely this veneer will rub off—leaving what? The situation seems paradoxical and cannot but concern the minds of those who see in such growing materialism, only futility, despair, and a completely distorted picture of man.

Next issue—Student Life in Scandinavia.

## Total of 1,103 Students Enrolled At Assumption

Official enrollment figures of Assumption College released by Rev. P. J. M. Swan, C.S.B., registrar, show a 10 per cent increase over last year in the number of students enrolled for the term.

Students numbering 580, from all parts of the world, are registered for full time classes. There are 269 Windsor students enrolled and 199 from other parts of Ontario.

In addition there are 12 from other parts of Canada, 90 from the United States, four from the British possession of Trinidad and six foreign students. The latter group comes from Syria, Greece, Hong Kong, Gold Coast, Panama and Cuba.

There are also 328 part time registered in addition to 195 non-credit students. The total figure for enrollment amounts to 1,103.

## 36 Head Dean's List in '53-'54

The Dean's List is made up of those students who maintain an average of B (65%) or better in all courses, and who have no grade below a C (60%). It is a custom in many Universities to publish the Dean's List each year. Outstanding students whose name appears on the Dean's List in each year of their course receive special citation upon graduation.

To encourage scholarship and give due recognition to our outstanding students, the following Dean's List is here published for Assumption College based on grades received in the Annual Examinations of April and May, 1954.

First Year: A: Kenneth Barnes, Earl Cherniak, George Fraser Dickson, Andrew Garlati, Barbara Gray, Albert MacMurdie, Thomas McReavey, Michael Maloney, Muriel Robichaud, Pat Suraci. B: John Carpenter, Carl Cohen, Pat Cunningham, Peter Howland, Ralph Labute, Nick Lukos, Richard J. Moriarty, Frank Nowak, Louis Romano, Ernest Vadnais.

Second Year: A: Andre Boutin, Paula Clary, Terrence Hobin, Victoria Lavis, Marie MacDonald, George McMahon, Paul Madden, Theodore Saller, Guy Sullivan, Thomas Swieczkowski, Donna Urie, Michael Vachek, John Wadell, Robert Willey. B: Norman Antaya, George Byng, Helen Canfield, Hugh Coyle, Henry Crespi, David Farrell, Thomas Finn, Charles Hickey, Stephanie Horeglad, Emery Kanayasi, Roy Kennedy, Bernard Maitre, Richard MacKenzie, Joan Mitchell, Richard Moriarty, Bernard O'Connell, Joan Parr, Andrew Perejda, Charles Schiano, Natalia Sleser, Paul Speck, William Thrasher, George VanderZanden.

Third Year: A: Philip Beers, John Brockenshire, Margaret Ceresa, Albert Cyfwicki, Ruth Heyd, Clifton Molyneux, Louis Podgornik, Louis Veres, Stuart Wilson. B: Donald Anderson, Fred Barth, Harry Bick, Charles Collini, Patrick Conlon, Paul Hart, Pearl Holland, Michael Karz, Bernard Kelly, Richard Kennedy, Fred Knight, Robert Knowlton, Lawrence Kosak, Leonard Lyons, Raymond Sawchik, James Steel, Louis Yeager, Michael Zin.

## TIME OUT

with LEIF

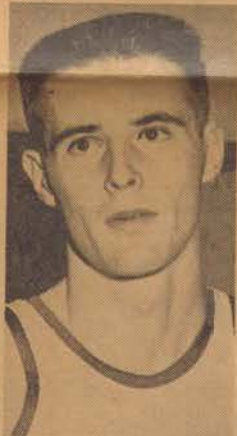

Since the last time we got together the 12 man intramural football league has become a reality. This is very heartening. It is due mainly to the hard work of Charley Schiano, the Football Commissioner, and also to the co-operation of the student athletes. So far the league has featured great defensive battles and some stirring upsets. However there is one fault which has been noticeable thus far. This is the unnecessary roughness. Some players seem to forget sportsmanship and endeavour to take their hard feelings out on their opponents. Let us not forget that this is just an intramural league, the main object of which is fun. The officials are competent but they can't see everything. This puts it squarely up to the players. As the old adage says, gang, "Let's keep it clean."

The first news of basketball this year is that the Raiders will have another fine team. They should again be counted among the favorites for the Intercollegiate crown. We know that every student at Assumption will be cheering for the team all the way. However, this year admittance will be granted only upon presentation of the new student tickets or one dollar. These tickets cost three dollars for 12 games. They will be sold for four more weeks only. So get on the bandwagon and cheer the Purple Raiders on to victory.

Congratulations are in order for Pete DeVriendt, Assumption's popular Bowling Commissioner. Under Pete's management the league has grown from eight teams last season, to 12 teams this year. The teams began competition three weeks ago and everything points to a great season for the keepers of Assumption.

FOR WHAT IT'S WORTH: Rumour has it that Bill Dineen, Red Wing star, will enroll at Assumption as a part time student. Mike Doyle, the Hockey Commissioner, is up and around again after a bout with pneumonia. Dick Mackenzie, Raider stalwart, is on the limp with a bad foot. We hope that he rejoins the team soon. Joe Halloran, Frank Nowak, and Mike Robert are the chief football casualties. Let's hope that they will be playing again soon. Thanks to Kid Cavilan there are a few glum gamblers on campus. To any one who's interested Norbert Shevansky of the U.S.A. won the world's weightlifting championship.

## Meet the Team

HUGH COYLE

Hugh Coyle is one of the defensive standouts of the Assumption College Raiders. He stands six feet and stars at the guard position. Last year, it was often due to his steady influence that the Raiders could rally and pull the game out of the bag. Hugh comes to us from St. Michael's College in Toronto where he received his Junior matriculation. He is confident that this year, his third with the Raiders, will be as successful as those preceding. A history major in an Arts course, Hugh received a B average last year.

## The Woman's Side

By FRAN O'CONNOR

From the notice appearing on the locker room bulletin board last week, you girls must have a fair idea of the feverish plans being made for women's sports for the coming year. From the wide selection we were given, there is no reason why every girl cannot participate in at least one of the sports mentioned!

### SWIMMING

For instance, Forster Collegiate's swimming pool has been reserved on Thursday evenings between 7:00 p.m. and 10:00 p.m. from November through February, for those interested in swimming. A capable instructor and life guard have been scheduled to appear as well.

### Basketball

For you basketball fans, the girls' team is soon to be organized. Details on this team may be obtained from Pearl Holland.

### Badminton

Girls whose interest tends towards badminton will find an instructor in the gym on Monday evenings, between 7:30 p.m. and 10:00 p.m.

### Bowling

Due to the small number of girls interested in this sport, regular bowling parties will be organized at intervals throughout the year for those wishing to take part.

These sports have been organized in your interest and we hope you will take advantage of them and show your school spirit by participating wholeheartedly.

## Sophs Nip Juniors, 1-0

Highlighting the intramural football league, a scrappy Sophomore club smashed and pounded their way against an equally rugged Junior team to eke out a 1-0 victory. This grueling game exhibited some of the finest football ever played at Assumption.

Although vicious line play predominated throughout the contest, the superb quarterbacking of the Sophs' Jack Hool and the upperclassmen's Rupe Cooke was very much evident.

Powerplays by Terry Sheehan and Fred Dupont accounted for most of the Sophomore yardage whereas the Juniors countered with the hard running of Leo Larocque and the peerless pass catching of ends Len Dietzen and John Elliott. However, heads-up defensive play on the part of both outfits proved impervious to any scoring with the exception of the Sophs' rouge, occurring when Cooke was tackled by a host of second year men.

Outstanding defensive stalwarts for the Sophs were George Tomlinson, Frank Sheehan and Jerry Dietrich while Mike George, Chuck Schiano and Frank Novak played well for the Juniors.

## Navy Stuns Seniors

An inspired U.N.T.L. squad led by quarterback Bob Kauckie upset Mike Robert and Co. 6-3. The highly rated Seniors never could get their running attack started as a smashing Navy line led by the two Turner brothers, Bert and Jim, snared any such attempt. The lone tally came after a sort of fluke play wherein a Navy apex was batted down by defender Claude Mallette into the eager hands of sailor Bill Burton. The Tars added another point to their final score when a booming kickoff by Bob Derris went for a rouge.

## Sophs Smother Frosh

A spirited sophomore squad took advantage of all the frantic freshmen fumbles and slipped and slid to a mud and rain filled victory. Amassing a total of 26 points, 15 of which were scored by lanky end Phil Eustace, the Sophs were never in trouble although a pint-sized Fresh Hurricane Hazel named Al Ambledian, was a constant thorn in their side all afternoon. Brilliant in their play in this water-soaked fray were Sophomores Gerry Kiser, Jerry Coughlin, Jerry Harrington and John Mayard. Jerry Carrion, Fred Lang and Bernie O'Neil stood out for the hapless Frosh.

## Grads Bow to Sophs

The sensational sophomores made it three straight football wins by trouncing a hardy Senior squad 16-0. In a loosely-played game, the unseared upon Soph line showed just enough strength to thwart the last Senior backfield composed of Terry Snyder, Paul Hart, Jim Sterle, Chuck Hickey and Jim Fester. Pat Cunningham, a standout guard for the Sophs, pounced on a senior fumble in the end zone for the first score of the game. A dazzling display of running and passing erupted from Soph quarter Jack Hool completing passes to end Pete Hewland, which resulted in the final touchdown of the game. Co-captain Terry Sheehan, Len Mancini and Leo Paling, performed creditably for the high-riding Sophs with Paul Roche, Bernie Suttle, George Hamerschmidt and Fred Dalby bolstering a hard Senior line.

## Larocque Rocks Them

Leo Larocque, (above middle) is seen plunging through the sophomore line in a quick-opener, in the Junior Soph clash. Bob Orlowski and John Elliott block as Leo picks up four yards. Larocque's plunges were not enough, however, as the Juniors dropped a close one, 1-0, to the high-flying Sophs, in the hardest fought game of the season.

## Wonder Fabrics Wonderful In Wardrobe

By PAM CHAUVIN

How often have we seen these words on a sales tag when buying clothes? "This garment contains orlon" (or nylon, dacron, acrilon etc.). Naturally we take a second look—because of those magic words. Here is a bargain! Those wonder fabrics are said to wear like iron and are easy to care for too. That is the important part, "easy to care for"—the fewer the cleaning bills, the better. Still, we wonder if these fabrics are all they are said to be. We have heard some complaints from dissatisfied friends. Well, we must remember that we can't expect the impossible and most of these fabrics are still in the development stage. We have to admit though they have made clothes care a lot easier.

### Helpful Hints

Here are a few hints that might help in the care and selection of these clothes.

Let's start with those wonders—Orlon-pleated skirts. The pleats are supposed to be permanent no matter how we wear them. There is no doubt about it, they do keep their press better than plain woolen pleated skirts. Nevertheless they do lose their pleat sharpness and smooth appearance with wear and cleaning. The pleat lines are not removed in dry cleaning but they do have to be reset. Pleats made on the straight of the material with the same width at the top and bottom reset easily. Beware of pleats made on the bias, they tend to sag with wear and cleaning. Orlon sweaters are becoming more and more popular also. They are very easy to care for because they require no blocking or pressing when you wash them, nor are they affected by perspiration stains.

### Acrlon

Acrlon is another miracle fabric that is coming into general use. Stains such as tea, Coca-Cola, mercuric iodine are easily removed from garments containing acrlon. In pressing the iron should be set for rayon or even lower. A hot iron will yellow acrlon if allowed to remain in contact with it too long.

### Dacron

Dacron is another fabric from which stains are easily removed. Heat reshapes dacron, therefore the iron should be set the same as for acrlon. However, dacron sweaters were found to grey easily. In blended fabrics, the higher the percentage of dacron, the more difficult they are to press. Be sure to find out if the fabric containing dacron was heat set during the processing of the fabric. If it wasn't, then the garment may shrink.

Perhaps the best known is nylon, which was the first of the miracle fabrics. When the fabric appeared on the market everyone thought: "This is the answer to a woman's dream." As time went by, however, it was found that nylon greys so easily. Believe it or not, the formula for keeping white nylon really white is hot suds-in-water. The best results are obtained by using a washer and making up the load of only white things. With hot water, plenty of soap or detergent and a thorough rinse nylon garments will be really white.

As you can see, we have the advantage over grandma with these easy-to-care-for fabrics which science has developed for us.

## CO-ED CAPERS

With the addition of Natalie Stasick as Freshman Representative, Marie McDonald as Secretary, Pat McManus as Treasurer, Pearl Holland as Athletic Representative and Diana Barr as Publicity Convener, the H.N.U.A. has a complete executive and is taking advantage of it. At its first meeting, plans for a Mother and Daughter Tea on November 7 were made and additional sports activities for the year were discussed. By the sounds of things, a good year is surely in store.

Refrains of "I've Been Working on the Railroad" were heard October 20 at the Student's Union. Everyone had a good time and enjoyed the Variety show which was staged—(even the boys who sneaked in from the flats). Top honours in the show go to the fashion show, which may be called "The Past?? and the Present in Campus Wear." The event was the first girls' get-together, sponsored by H.N.U.A. It was a unanimous decision that, because this first get-together was such a "bang-up" success that "the more we get together, the happier we'll be."

There's plenty of buzzing in the ladies lockerroom pertaining to the Holy Names Annual Alumni Prom, the date being November 12. This is the first semi-formal of the school year and all the girls are excited about going—it seems that all the talk now is what to wear. Holy Names College plans to give the Alumni their full support and it can only be hoped that this will be returned for their prom in January.

P.S.—To the boys—Alumni Prom is a Roundabout.

## RAIDERS OPEN AT U. OF D.

### 'Shadow and Substance' Scores Notable Triumph

By WENDY GILCHRIST

"Every member of the cast is entitled to an accolade for turning out performances of professional quality. All of them were close to perfect."

In those words Ted Douglas, staff reporter of The Windsor Daily Star, summed up his review of the Assumption College Players' production of Paul Vincent Carroll's "Shadow and Substance," presented in St. Denis Hall on November 11, 12, and 13, under the direction of the Rev. C. P. Crowley, C.S.B.

Much of the outstanding success of the production was due to the superlative casting of the 10 parts in the play. Each member of the cast entered wholeheartedly into the assigned role, and both principal and supporting characters played their parts with a team spirit that resulted in a uniformly excellent presentation.

Paula Clary, who played Brigid, gave a splendid dramatic performance, the equal of which is seldom seen on an amateur stage. With a poignant loveliness Paula portrayed that selfless quality that evokes the imagination of an audience, and thus she became the mirror of what they wanted to see. Paula moved through "Shadow and Substance" with the lightness and grace of one of Brigid's sacred visions, and she turned the concluding scene into a tragedy that was limpid and glorious. The mystic light in her eyes and the lilting music of her voice transported the audience into another world, the experience of which will not soon leave them.

The play is a subtle piece of writing that portrays the conflicts and mental struggles going on in the hidden Ireland that outsiders so seldom see or understand.

Frank McTeague carried the role of the Very Rev. Thomas Canon Skerritt, the representative of an alien culture, the learned interpreter of Catholicism, the cultivated classicist, who was tragically unable to understand the people of the little Irish town. Frank gave a vibrant performance, one that quivered with irony, pride and contempt, that was engulphed in loneliness, but was also heroic enough to face tragedy like a man.

In the drama the Canon and the rebel schoolmaster represent the conflicting forces that crash Brigid (the spirit of the nation) between them. The Canon hates the schoolmaster for his reckless insouciance, but he loves Brigid for her purity and kindly nature.

Brian Smythe, in the role of the schoolmaster, Dermot Francis O'Flanagan, who accused the Canon of swaddling the town in ignorance, gave a hard-headed and truculent piece of fine acting that elevated his scenes to a height of tense emotion that left the audience gasping.

Throwing the Canon's arrogant intellectuality into high relief, the dramatist gives us the two of the people curates, who understand the simple faith of the people of the parish.

Joseph Leddy and Peter Vander Voort turned in heart-warming and humorous portrayals of the Canon's assistants, whose main clerical faults were slapping about the parish in their second-hand car and prescribing remedies for old ladies' rheumatics. Joe Leddy, as Father Corr, did a masterly picture of a misguided but zealous defender of the faith.

Beverly Johnston was delightful as Katy Cooney, the spinster aunt of the new schoolmaster. This role required many rapid changes of pace and mood, and Beverly showed amazing control as she passed from the doting but domineering aunt to the officious and gossiping housekeeper of the Canon.

That beloved veteran of the Players, Peter Broder, portraying Martin Mullaone, the local pub-keeper, gave vitality and high comedy in his role as leader of the deputation of parishioners who waited upon the austere Canon to discuss a grave theological problem that was throwing the town into an uproar. His deft changes from the blustering husband to the deflated demagogue were a joy to behold.

Helen Canniff, playing the part of Rosey Violet, Martin's self-pitying wife, presented a cameo portrait of sharply-etched characterization. Be-

neath her dramatized appeal for the Canon's tongue-lashing of her husband was an undertone of subtle mugging, beautifully timed to highlight the rich comedy of the scene.

Shirley Tossignant, as Thomasina Conannon, known to everyone merely as "the Canon's niece," left nothing to be desired in her role of the high-spirited colleen seeking the happiness of young love. Shirley mastered the required giggle of her difficult part with a natural gaiety that rocked the audience with heart-satisfying laughter.

John Lewis, portraying Francis Ignatius O'Connor, nephew of Katy Cooney, newly-fledged schoolmaster and lover of Thomasina, captivated the spectators' sense of humour with his priceless rendition of the bashful son of the Irish soil, effacing himself obsequiously before his "betters."

The eye-catching and satisfying stage set was designed by Dr. Philip Stratford, assisted by Evelyn McLean, Milford Vuckovich, the technical director, assisted by Peter Broder, created the professionally beautiful lighting effects.

The technical staff was composed of: Edward Browell, stage manager; Alec Pavlini, assistant stage manager; Iris Savchetz and Diana Barr, wardrobe; Janet Posloski and Doreen O'Brien, properties; Michael Maloney, bookholder; Nancy Birchard, make-up; Edmund Long, Donald Snyder and Gerald Dietrich, stage crew; and Norman Golden, publicity.

A new and gratifying feature of this year's production was the Little Theatre, constructed within St. Denis Hall by means of black and gold velvet drapes. Not only did it give the intimate and congenial atmosphere of a theatre, but it also rendered the projection of the actor's voices acoustically perfect.

Students who missed this production deprived themselves of a dramatic experience rarely offered in the amateur theatre.

### Here's a Deal, What a Steal!

Bernie O'Connell, the basketball ticket agent, offers anyone interested a chance to pick up a little extra loot. Here's the secret—sell four reserved season tickets and you will be refunded the \$3.00 previously paid on your student ticket books. All additional sales credit you with an extra dollar each. Those interested should see Bernie or call Fr. Hussey's office in the near future.

### Clary, McTeague Sparkle

Paula Clary (left) and Frank McTeague are central in a stirring scene from the recent Drama Club triumph "Shadow and Substance." For three straight nights, the Assumption College players amazed audiences with the quality of their performance. Clary and McTeague were outstanding in the leading roles. Paula as Brigid, an Irish lass, and Frank as the stern Canon.

### Meet the Faculty

RALPH K. COWAN

A newcomer to the staff is the very competent Economics Professor, Ralph K. Cowan. After attending high school in Kitchener he initiated his study in Economics at Assumption. The Bachelor of Arts degree was conferred upon him in 1949. He continued studies in Economics and Political Science and received the Honors degree in these two fields in 1951.

The University of Michigan was the next rung on the ladder. Here Mr. Cowan received his Master's Degree in Economics in 1952. The year 1953 saw the launching of his teacher's career at the University of Michigan. To complete his knowledge in his field, Mr. Cowan is working on his thesis "The Canadian Balance of International Payments—1926 to 1939," to procure the Doctor of Philosophy Degree.

Assumption is proud to have Mr. Cowan on her faculty.

### WILSON REPORTS Student Life In Scandinavia

Many of us here in America are inclined to look upon our universities as the models upon which all other universities are or should be fashioned. But one does not have to remain long on a European university campus before he sees the activity and interest of the students, breathing a whole new life-energy into university life. Here, even at Assumption, we see students who blissfully spend their four years in the classroom, their only end being the attainment of a piece of parchment which states that they have won a degree in some field. Many of us, unfortunately, go through university and miss half of our education because of only a moderate interest in that sphere of activity labelled "university life."

#### No Financial Problems

Before citing any examples of what I am attempting to illustrate, let me point out a few interesting facts about the Scandinavian system of education as contrasted with our own. Those young people who wish to seek higher education are not hindered by the financial difficulties which often beset us. The fees are government subsidized and the students themselves pay only a very small part. Secondly, university students in Scandinavia possess a different attitude towards higher education—they attend university with the idea of learning, not necessarily of learning how to make a dollar. Their courses in the liberal arts field are not specifically planned in terms of a certain number of years for a particular degree. A person may enter university and study for several years before writing any formal examinations. When in his own opinion he has obtained sufficient background, he can make application for examination. While such conditions are ideal, it is well to remember that their lengthy educations are only partly paid for by the students themselves.

It also seems that the typical Scandinavian student is more mature and willing to accept greater

### Hoopsters Head For Big Season

By JOHN DONOVAN

Looking forward to the 1954-55 basketball season, Assumption College should have one of the finest teams ever coached by Stanley "Red" Nantais. This will be the thirteenth year that Nantais has been at the helm of the Varsity Raiders.

The Raiders this year will be composed of the same squad which gave Assumption the Co-championship of the Ontario-Quebec Conference in the 1953-54 campaign. Last year the Raiders compiled a season's record of 17 wins and five losses against top college teams in Canada and the United States.

#### Tougher Schedule

This coming season finds Assumption facing an even tougher schedule. The first big test comes on December 1, when the Raiders face the U. of Detroit. Other major contests include: Toronto Tri-Bells, U. of Rochester, U. of Buffalo, Niagara University and U. of Omaha. Tri-Bells is one of the better semi-pro teams in Canada. They should give Assumption a tough battle. U. of Omaha, powerhouse of the Midwest, meets the Varsity Raiders on the latter's home court. Then, Assumption journeys to Niagara University. The Niagara Purple Eagles, with outstanding returnees Charlie Hoaxie and Ed Fleming, have been pre-season rated as fourth in the nation. Last year Niagara downed the Raiders 89-64. This year, Assumption hopes to improve on last season's score.

In the Intercollegiate League, Assumption's greatest competition will come from the University of Western Ontario and Toronto University. The two big games that will determine the League Champion are the Western games according to pre-season reports. Last year Assumption and Western split. The Raiders lost a thriller in London and overwhelmed Western in the return match.

#### Eleven Veterans

Assumption Varsity Raiders are indeed fortunate to have 11 veterans from last year's squad to face this year's rugged schedule. Heading the list are the three Senior members of the squad—Chuck Collini, Lou Veres and Ed Chittaro. They have three years of Varsity experience behind them and they should have the best season of their college career. George Joseph, Dick MacKenzie, Hugh Coyle, Matt Borowiec, Larry Conorton and Dick Kennedy are the six Juniors on the team. They should surpass last year's achievements, having had a year of Intercollegiate experience. The seniors will be bolstered by Howie Triano, Chuck Schiano and Paul Metzger who are up from the Junior Varsity and by newcomers Bill Burchling and Neil MacEwan.

With this material, Coach "Red" Nantais hopes to mold a team which will better last season's record. If he can do this there is no reason for the Varsity Raiders not gaining sole possession of the Intercollegiate Crown.

responsibility than our own. Whether this is due to the effects of war and their constant awareness of "Big Brother," is an interesting question.

#### Student Projects

With this in mind, yet as now look at some of the student activities which are apt to awe the visitor. In Helsinki, Finland, the students of the Institute of Technology have, since the war, built themselves a small city, called Tech-Town, consisting of ultra modern student residences, restaurants, gymnastic facilities, the inevitable "sauna" or Finnish steam bath. Admittedly, the government appropriated some funds for the project, but by and large, the students raised the money themselves by canvassing business and private individuals.

Norway and Sweden can also boast similar developments, both the "Domus" in Stockholm and the (Continued on Page 6)

## Editorial

"I'll be home for Christmas!" Letters home from students at this time of the year all contain this line or something similar. But, how can those students be sure they are going to fulfill their idle prophecy, when they place their lives in jeopardy every time they enter a car. Last year nearly 25 percent of the people killed in traffic accidents were of college age. Despite this alarming fact, accidents continue due to pure carelessness on the part of the college driver.

A sophomore was taking his girl home after having a wonderful time at the biggest prom of the year. He had been drinking, and furthermore, insisted on driving with one hand on the steering wheel and the other around his girl. The weather and road conditions were favourable to a normal driver, but, for the drunk driver, they were hazardous. As he approached a far curve, he began to turn the wheel rapidly with his left hand. The realization that he wasn't going to complete the turn struck him. Sickening terror completely overwhelmed him. The horrible sound of grinding steel as the car rolled down the embankment served to remind him of his stupid carelessness. In the next instant a precious life was lost. Under the smouldering ruins of the wrecked car lay the ambitions, talent, ideals—the whole future—of his girl.

Accidents can most easily be prevented by college students. Young drivers have the advantages of good physical condition; fast reactions, clear eyesight and excellent co-ordination. The only disadvantage of the young driver is his tendency to drive too fast. Young drivers do not realize the heart-breaking results of reckless driving.

The weather, road, and traffic conditions should be taken into consideration. Rain and snow aren't a sign to speed up and race home in order to avoid a bit of nasty weather. Stopping time and traction between the car and the road are reduced, therefore, speed must be reduced.

Sometimes, road conditions are so poor that one is forced to slow down and drive cautiously. Other times, the road may be in fairly good condition, and the driver takes advantage of this—by driving thoughtlessly. Therefore, he does not see the sharp curve in the road or the holes in the cement and another accident is recorded. Everyone realizes the increase in traffic around the holidays, but instead of adjusting their driving to the traffic, they try to beat it. Racing other motorists on the pick-up at stop-lights should have been left behind with high school days.

Alcohol and gasoline don't mix. If you drive, don't drink. If you drink, don't drive. Many lives will be lost this Christmas because people get into the spirit with spirits of alcohol. Although alcohol stimulates the body metabolism, it depresses reaction time and alertness. It weakens all the faculties of the body used in driving and many times causes the death of the driver.

Many people know all these precautions to safety; why are they still killing themselves? The real killer is the foolhardy nation that it can happen to someone else but not to you. If you closely investigate the attitudes and habits of a driver who has had a tragic accident, you will find you possess many of those very same habits. It could just as easily have been you. In high school we are told not to commit teenicide; surely we in college have learned at least this one high school lesson well!

## The Deadly Cocktail

One bottle of liquor, one one-armed driver, one mile of road: this is the recipe for the deadly cocktail which is so popular today among the college crowd.

It is considered the most potent cocktail ever invented. Above we see the results. All collegians who are foolish enough to try it, deserve these results.

## W.U.S. Sponsors Scandinavian Night

On Friday evening, November 26 at 8:30 p.m., the World University Service is staging "Scandinavian Adventure" at which Stuart Wilson will discuss his summer abroad and study tour of Scandinavia. Following this, colored films of Scandinavia will be shown and refreshments will be served. All students and their friends are invited. Come and enjoy a free and informative evening!

# T. C. WHITE ADDRESSES GRADUATES

## Windsor Education Director Predicts Great Future

Very Reverend Vice-Chancellor and Members of Convocation:

My first words must be ones of appreciation for the honour of addressing this second convocation of Assumption, since it has been granted the right to confer degrees. My next ones are those of congratulations to those who are being rewarded and honoured here this evening. May you always bear with pride and some feeling of responsibility the degrees which have been awarded to you.

All look forward with confidence to the role which this university is destined to play in the national life of Canada, and more particularly in the area commonly referred to as southwestern Ontario. All of us anticipate an expansion both in enrolment and in the number of faculties which will operate within its orbit. Already plans are under way to establish a science college. Many people see a need for a medical school in this densely populated area, and others would like to see a professional school for prospective teachers. It is quite possible, and indeed probable, that these and other faculties will eventually emerge, and the University will become, in even greater degree than it is now, an institution of primary importance in the life of the Windsor community.

### Arts Focal Centre

In the face of this expansion which we greet with such optimism, it is well that we maintain a proper perspective as to overall function of a university and, in this connection, I would like to suggest that, regardless of the comparative size of enrolments or financial budgets of the respective faculties, the Liberal Arts college must continue to be the focal centre of the university's service to the public. Doctors, teachers, engineers, and other professional personnel, will most assuredly be trained for their respective services, since it is the responsibility of universities to provide vocational education at the post secondary school level. There is, however, an increasing awareness that teaching the techniques of a profession does not constitute an education. It is for this reason that most of the professions today require courses in the liberal arts as a prerequisite or as a complementary to the professional studies. This applies even in the training of officers for the army, navy and air forces. Pilot studies at Colgate and Princeton universities appeared to prove the desirability of integrating academic and military studies. This all seems to point to the inevitable conclusion that true and complete education still must concern itself with studies originating from grammar, dialectics, rhetoric, music, arithmetic, geometry and astronomy, those seven liberal arts which formed the basic courses of the original university. In these days of such unprecedented scientific and technological advances, when it might be truthfully stated that the progress of two centuries has been crowded into a period of three or four decades, it is quite natural for some of us to come to regard as fundamental the researches relating to engineering, business, medicine, politics and teaching. What we must not forget is that man, as a human personality, can only achieve true greatness and real happiness in the measure that his mind and spirit have been disciplined through study and reflection upon what might be termed the more abstract principles and phenomena of life.

### Oneness of Life

At the risk of betraying an ignorance of philosophy, I should like at this point to emphasize the oneness of life. It has become convenient for us to categorize life's different aspects as being economic, social, political, and spiritual. Let us remember when we do so that none of these can ever be completely independent of the others. William Gladstone stated on one occasion that "nothing can be politically right which is morally wrong." In the field of economics today, one cannot be blind to the intricate intertwining of many economic, social, political and spiritual factors. The causes of a labour strike or its settlement cannot be interpreted in terms of economics alone. To attempt to unravel the social and other aspects of life found in public education, in the practice of medicine, in the establishment of pension plans, as well as most of our group and private enterprises, would most surely be a futile waste of effort. The stability of any social unit, whether it be the family, the community, or the state, depends upon the fine balancing of all humanity's interests and drives and the existence of this stability is the thing which we can designate as culture. In this sense, it is true to state that, in the nineteenth century, the western world, and particularly its older sections, possessed a culture to a greater degree than

MR. T. C. WHITE  
Director of the Department  
of Education for Windsor

it does today. And strange to say, the factors which may have contributed most to the present unbalance of forces in society are increased knowledge and the abnormal rapid advances in science and technology. Sir James Hill, father of John Stuart Mill, thought "that if the whole population were taught to read, if all sorts of opinions were allowed to be addressed to them by word and reading, and if by means of

Academic procession at the convocation, showing the Vice-Chancellor's party, headed by the Beadle, Rev. E. J. Hartmann, C.S.B. Following him are the

Vice-Chancellor, Rev. E. C. LeBel, C.S.B., and Dean Langlois. This is the second convocation held at Assumption College since it attained university status.

suffrage they could nominate a legislature to give effect to the opinion they adopted all would be gained." Those of us who have seen the achievement of literacy and the present state of our political life would hardly profess that all has been gained. Literacy alone opens the door to evil and perverse propaganda just as effectively as it does to the truth. One hears reference to the Dark Middle Ages when knowledge and learning could be referred to as a flickering candle lighting the way to a very few and leaving the great majority of mankind in dark ignorance. Using a similar analogy one could probably regard mankind today as a throng passing along a highway full of blinding lights where those which would guide us along the proper pathway of life are apt to be confused with those which would lead us astray. One has only to view the programmes on television, to become completely confused as to which beer has the best flavour, how to operate on credit with nothing down and as long as you like to pay, how to cancel a long list of bothersome debts by incurring one big one. Truly, the transmission of knowledge alone based upon man's literacy has in some ways resulted in man's greater bewilderment rather than his enlightenment; and, in his state of bewilderment he cannot be said to possess a culture. Dr. Adolph Meyer has stated the case in another way when he says, "What ails most people is not that they are ignorant but that they know so much that isn't so."

An English writer states, "I suppose there never was a time in this country when thinking on the large human problems of conduct, morality, aesthetics and religion was less precise than it is today."

Nadanagh, a contemporary writer, has expressed the opinion that the "illiterate Spanish peasants have a higher culture than the equivalent order of Englishmen who can all read and write."

### Literary Problems

The achievement of literacy in the Western World, so productive of fine results, has created new and danger-laden problems.

No one would for a moment lament the advances which have been made in the fields of science and technology. The standard of living in the Western World, and certainly in our own land, has reached an unprecedented high level due to the advances during the past hundred years in mechanics, medicine, and the other sciences. We would not want time rolled back even if it could be. And yet there is no denying the fact that these advances have raised baffling problems in the operation of our social institutions such as the family and the community and our political institutions such as the family and the community and our political institutions such as the municipal corporation, and province, the state, and the World Council of the United Nations.

In what way, you may ask, does all this relate to Assumption College or its graduates? In reply, I would like to suggest that, if there is to emerge a new balance of life's forces, if there is to emerge a twentieth century culture, the liberal arts colleges must play a leading role. The primary and secondary schools of our nation, because of the fact that they have the privilege of dealing with the entire population of youth must play an important part also. The leadership, however, rests with those who pass through our universities. It is there that time is given to intensive study and deep reflective thinking on the part of youth who are reaching maturity. Only insofar as this segment of youth is enabled to grow into the roles of leadership, will something be done to bring back into harmony the social, political, economic and spiritual forces at work in the world.

One might observe in passing that the success of the primary and secondary schools is influenced by the fact that many of their teachers have experienced the benefits of education in the liberal arts and transfer these in modified form to the youth under their care and tutelage.

### Imbalance of Society

And one cannot but feel that the task of redeeming the world society from the imbalance which has been brought about through abnormal scientific advancement and a plethora of undigested knowledge is an urgent one. The real education of youth cannot be ignored for long without disastrous results. Socrates attempted to warn his fellow Athenians of the dangers when he said "If I could climb to the highest point in Athens, I would proclaim, 'O Citizens, why do you scrape and turn every stone to gather wealth and pay so little attention to your children to whom one day you must surrender all.'"

It may well be that today we are too much concerned with our standard of living and too little with the capabilities of the rising generation to make proper use of it.

### Three Major Criteria

May I, in conclusion, suggest three major criteria by which Assumption College, or any other liberal arts college, will have to be measured for its effectiveness in bringing the world back into balance. In the first place, it must maintain and strengthen the natural bond which exists between the intellect and the spirit. The philosopher, Bertrand Russell, alludes to a present day weakness in this regard when he submits the opinion that "We know too much and we feel too little."

(Continued on Page 4)

# ASSUMPTION COLLEGE HOLDS CONVOCATION

## D. Anderson Valedictorian Of Senior Class

### Valedictory Address

Vice-Chancellor, Honoured Guests, Ladies and Gentlemen: It is an honour and a privilege for me to have this opportunity of speaking on behalf of the graduating class. In the course of this evening we will be receiving many words of congratulations and best wishes from our relatives and other friends and it is a truly happy occasion for us, but yet we do feel, very strongly, our indebtedness to many people. We are not self-made graduates and there is not one graduate here tonight who does not humbly and happily recognize his dependence upon parents, teachers and other friends.

From our earliest days our parents have been constantly seeking our welfare and as we grew up and finally embarked upon a college career it has been our parents who have encouraged us in our times of discouragement; shown faith in us when we have made mistakes; and been patient with us when we have been irritable. The encouragement, faith and patience of our mothers and fathers have enabled us to attain this goal.

We extend sincere thanks to the Basilian Fathers who have promoted the ideals of higher education through this college. The college was founded in 1857 by the Jesuits but after six years the college was closed. If the Basilian Fathers had not established themselves here in 1870, the existence of the college today is very very doubtful. Under the leadership of the Basilians the college has grown in size and strength until today it stands as an autonomous university, a vital centre in the life of this community and a living memorial to all the Basilian Fathers who, down through the years, have given their very lives to Assumption College. Without the college many of us would have been deprived of a higher education. To all the members of the faculty we wish to express appreciation for their inexhaustible patience shown us when we have been unconscious in our efforts or indifferent.

As students we often can see only the work we must do in order to graduate and we fail to think of the long hours spent by the members of the faculty preparing lectures and setting and marking examinations and constructively criticizing long and tedious essays. As graduates we do appreciate your efforts and your interest in us has always been sincere.

Each of our lives has been touched by the graciousness of a multitude of friends. Your interest in us has been manifested in word and deed and although you may have thought them insignificant they have meant a great deal to us because of the generosity and thoughtfulness which prompted them.

We are happy to have graduation exercises at our own school since we are proud of Assumption because she has revered the name of God and has held the torch of wisdom high. We wish her well. May her torch ever send forth light

Donald W. Anderson, class valedictorian, is shown being given his degree by Vice-chancellor LeBel, assisted by Doctor G. Horne. Mr. Anderson plans on entering divinity college next year.

until the darkness of ignorance is no more. May we as graduates use constructively the wisdom we have gained here and face the future with faith and determination—each with his own small torch lifted high to give light to those around us, and under God may our lives express:

In things essential—Unity  
In things doubtful—Liberty  
And in all things—Charity.

T. C. WHITE

(Continued from Page 3)

It is no mere coincidence that Arts Colleges have for the most part been founded by religious bodies. Trinity, St. Michael's, Victoria, Wycliffe and Knox College, belonging to the University of Toronto, Queen's and McMaster, all had their inception at the hands of religious leaders. And here through almost its entire history, Assumption College has been operated and guided by the Basilian Fathers. All of us—Roman Catholics, Protestants, and Jews—are happy in the fact that the intellectual pursuits of students at Assumption have been guided by religious and lay leaders who themselves possess a deep and abiding belief in things of the spirit.

In the second place, the liberal arts college must foster and encourage freedom of thought within the limits of the moral and political law. It must never become the place for indoctrination of ready made ideas.

Dr. William S. Carlson, American University President, has this to say: "We must stress intellectual individuality and freedom of thought and opinion. We must combat any attempt to establish cultural sausage factories that produce conformist digits who submit so willingly to the toxic tyranny of money, material possessions, and smoking car standards of popularity."

I came upon this inscription not long ago on the walls of a school: "The teacher who walks in the shadow of the

REV. E. C. LeBEL

The Vice-Chancellor of Assumption College who is one of the factors in the recent growth of the college. Father LeBel has been Vice-Chancellor since Assumption achieved its university status.

temple among his followers gives not of his wisdom but rather of his faith and lovingness." "If he is indeed wise he does not bid you enter the house of his wisdom, but rather leads you to the threshold of your own mind. For the vision of one man lends not its wings to another."

Speaking as one who is not a member of the Roman Catholic faith, I can state that I have heard of no single instance when the fact that Assumption College is operated by the Basilian Fathers resulted in anything approaching Roman Catholic indoctrination or proselytizing.

Thirdly, the liberal arts college must maintain a high standard of intellectual pursuit which is in keeping with the leadership role which it is to play. None must be graduated from its walls who has not proven his ability to think maturely or who has not acquired the knowledge necessary to accurate generalization. I think the citizens in this community can rest assured that Assump-

## 23 Students Receive Degrees In Arts, Science

At the fall convocation of Assumption College, October 29, 23 students received degrees. Two of them were awarded degrees in Science and 21 in Arts. The ceremony was the second convocation held at Assumption College since it was raised to University status two years ago. The Prayer of Invocation, asking God's blessing on the school, its staff, and students, was offered by Rt. Rev. Monsignor Langlois, Dean of Essex. Then the graduates for degrees were presented by the Vice-President and the degrees were conferred by the Vice-Chancellor. They received the following degrees:

### Bachelor of Science

Grade C—C. A. S. Khan, San Fernando, Trinidad, and O. Salonen, Amherstburg.

### Bachelor of Arts

Grade A—J. N. McKelvie, Windsor, Grade B—D. W. Anderson, Maidstone; D. R. Kelly, Rochester, N.Y.; P. K. Mullen, Hamilton; J. L. Sommerman, Detroit; Sister Augustin-Marie, S.N.J.M.; H. H. Bick, G. S. Callaghan, Sister M. Cecile-Alma, S.N.J.M.; J. N. Ferris, F. W. Knight, S. Nosanchuk, Sister Virginia Marie, S.N.J.M., all of Windsor, Grade C—C. W. Burge, M. J. Karcz, Nicholas Lacyk, and R. F. X. Martette, Windsor; G. G. Maxwell, Tecumseh; and N. F. Purdie, Amherstburg. Grade D—T. L. Buckborough and G. J. Meloche, Windsor.

### Undergraduate Awards

Undergraduate awards were presented as follows:

General proficiency awards—Guy B. Sullivan, Dagenham, England, and Passaic, New Jersey; Marie E. MacDonald, Windsor; Andrew J. Garlatti, Windsor.

Dr. Roy Coyle prize in Zoology—Robert C. Willey, Windsor. American Mothers Club Bursaries—J. W. Carpenter, Grosse Point; Charles A. Schiano, Rochester, N.Y.; Peter A. Howland, Rochester, N.Y.; Patrick J. Suraci, Rochester, N.Y.; Richard J. Moriarty, Rochester.

Basilian Fathers Scholarships—Lawrence G. Culhane, Rochester, N.Y.; William M. Stephen, Rochester, N.Y.

Board of Governors scholarships—Herb F. Chute, New Liskeard; Marie E. MacDonald, Windsor; Donna E. Urie, Windsor; J. Ryan Higgins, St. John, N.B.; Warren S. Morgan, Windsor; James G. Laframboise, Riverside; Shirley A. Tousignant, Windsor.

Canadian Mothers Club Bursaries—Robert J. Carney, Vancouver, B.C.; John C. Monegas, Windsor.

CWL Bursary, London Diocese—Stephanie Horeglad.

Dominion-Provincial Bursaries—Dorothy May, Harrow; Edward P. Mazur, Leamington.

Eastern Construction Co. awards—Peter G. L. Dunn, Windsor; Peter A. Howland, Rochester, N.Y.; Patrick J. Suraci, Rochester, N.Y.; Ford Motor Company scholarship—Victoria Tkach, Windsor.

Holy Names College Alumnae scholarship—Charlotte L. Coviak, Detroit; Anne-Marie Holowacz, Toronto.

Holy Names undergraduate scholarship—Mary J. Mullins, Woodslee.

K of C Trust Fund scholarship—Michael G. Bolan, Cobalt.

Laurendeau bursary—Albert W. Cylwicki, Detroit.

McGuire bursary—Thomas J. McKeavy, Owen Sound.

Pearson bursary—Philip C. Beers, Rochester, N.Y.

Dr. Wm. J. Shea memorial scholarship—J. Ryan Higgins, St. John, N.B.

Ellen Sullivan scholarship—Leonard J. Dietzen and Thomas O. Tiernan, both of Chaptanoga, Tenn.

Windsor Chapter, Assumption Alumni scholarship—Louis J. Veres, Windsor.

Twelve bursaries from the Atkinson Foundation were presented to Herbert F. Clute, New Liskeard; Helen C. Caniff, Riverside; Gabriel Klambauer, Windsor; John A. McPherson, Windsor; Beverly J. Johnston, Peterborough; Andrew J. Garlatti, Windsor; George A. McMahon, Windsor; Louis S. Romano, Windsor; Bruce C. Thorn, Windsor; Pearl C. Holland, Windsor; Richard R. McKenzie, Niagara Falls, Ont., and Stuart J. Wilson, Windsor.

tion College will in the years ahead maintain and enhance its reputation for sound scholarship. To all those who graduate from its walls, and more particularly to those at this present convocation, I should like to emphasize the responsibility which the possession of a degree carries with it. It identifies you as one who has been equipped to give leadership and to live abundantly. Only insofar as you do these two things, will you reflect credit upon your university.

None of us is in a position to predict accurately the future development of this university or this community. Of two things, however, we can be sure—first, that the prosperity and status of the arts faculty of Assumption will pretty well determine the real value of its

contribution to the constituency which it serves and, second, that in an increasing manner this university is destined to become the cultural centre and leavening agency in this community which we love. Windsor is a community which is destined to greatness—and not merely in an industrial or economic sense. Our community in the past has set a fine example to the rest of Canada in friendliness, spirituality, brotherliness, and charity, as well as in its contribution to the fine arts. Assumption College through its staff, its students, and, above all, through you who are its graduates, will ensure that the contribution of the future will greatly exceed anything which has taken place up to now.

## TIME OUT

with LEIF

Basketball fans will soon have an opportunity to see some great basketball and exercise their lungs in support of the Assumption Varsity Raiders. The opening game of the season is next Wednesday in the U. of D. field house. The Detroit squad is noted for its ability to put a good team on the floor. Our Assumption boys will have their hands full in winning this one. However after witnessing the style and spirit of the Varsity Raiders in practice sessions we feel confident that they will carry off the victory to start the season with a bang. In fact this reporter is so confident he is willing to put his head on the block and predict a five point victory for the men from Assumption. This prediction should come true if Raiders such as Joseph, Borowiec, Veres, Coyle, MacKenzie and company play up to their last season form. As an added incentive, it would be encouraging to the team if there was a turnout of Assumption Boosters across the river. Let's show them our spirit.

\*\*\*

The Assumption Hockey League commenced activities recently with all the puck and blade boys whaling away at each other at the Windsor Arena. This fact may seem insignificant in itself, but as the first workable intramural hockey league in recent years is should receive its share of support and acclaim. The wizards of the ice lanes have heaved to with a will and seem bent on a superior brand of play. There are many players of outstanding ability throughout the league. This fact is enough to make one wonder whether or not an All-Star team could be formed to play exhibition games with other teams. Perhaps even a game with Western is not in the realm of the impossible. It would certainly be a step forward in athletics at Assumption.

\*\*\*

Last Monday your reporter was relaxing with his evening paper before a night of gruelling study. In perusing said paper I noticed an article concerning the University of Windsor Ontario. The item dealt with the Intercollegiate football playoff against Queen's University. Western came through with its usual fail to win the contest in the last second of play, by recovering a fumble for a touchdown. Congratulations Western! However there is one point that has us worried that is whether or not UWO's fantastic luck will carry over into the basketball season. You have to be good to be lucky but let us not be ridiculous.

\*\*\*

FOR WHAT IT'S WORTH: Bill Lee, a familiar campus figure at Assumption was recently released by the Windsor Bulldogs. We are sorry to lose a man of Bill's character and calibre. Remember that you read it first in this column that Bill Dineen would enroll at our Alma Mater. We wonder if there is any truth to the rumour that Matt Borowiec, Raider centre, is trading his gym shoes for army boots. We hope not because this campus wouldn't be the same without big Matt around. Congratulations to the Assumption boys who helped A.K.O. bring the Canadian Junior Championship to Windsor.

## Sophomores Proud Champions

The sophomore football team downed the hard-fighting Frosh to complete a clean sweep to the Assumption Intramural championship. Standing, left to right: Morand, Dupont, Houle, Kaiser, Sheehan. Front row: Eustace, Deitrich, Coughlin, Tomlinson, Paling, F. Sheehan, Harrington. Missing: Howland.

## Frosh Edge Sophs 6-5, In Hockey Opener

By RON IANNI

The Freshmen drew first blood in the opener of the intramural hockey schedule Tuesday morning. Despite the disadvantage of being short-handed, the fighting freshmen pulled ahead of the hard hitting sophomores in the final minutes of play. When the smoke had cleared the final score was 6-5 for the Frosh. Leading the scoring parade for the winners were captain Butch Lugli and Gene Nori with two goals each. Gerry Cronin and Mike Laval rounded out the scoring.

Dino Panizza headed the scoring attack for the Sophomores by potting a pair. Fred Dupont, Phil Eustace and Mike Saffrin were the other goal getters for the losers.

Referee Art Cline and John Craddock kept the game in hand, issuing only three penalties. The three culprits were Saffrin, Dupont and Morand. If this game typifies the brand of hockey to be played this year we can look forward to a tooth and nail fight to the wire for top honours.

## Juniors Overpower Senior Squad

The Juniors proved too powerful for the rival Seniors, outscoring them 6-2 as the intramural hockey schedule got into full swing Thursday afternoon. Forced to play the defensive game because of the absence of a goal keeper, the Juniors capitalized on several lapses in the Seniors' attack to clinch the contest.

The scoring attack was well distributed throughout the Junior team with Ross McKinnin, Jim Waddell, Paul Martin, Frank O'Neil, Dick Donald and Paul O'Neil each scoring a goal in the winning effort.

Claire Fiaschetti and Ted Davies teamed up to account for the Seniors' scoring.

The hard fought contest was marked by five penalties. Bernie O'Connell, Dick Donald and Joe Halloran drew minor penalties for the Juniors as did Paul Roche and Ted Davies for the Seniors.

## Sophs Champs With 7-0 Win

Editor's Note: This writeup is frugal and uninforming. This was due to the morbid and uncouth sense of humour of the idiot and imbecile who, for some lofty and philosophic reason, took the original from the Purple and White, leaving the editor stranded. We sincerely hope that this clown is happy for making a tough job tougher; he has succeeded.

A hard-hitting Sophomore team beat the scrappy Frosh 7-0 to complete an undefeated drive to the intramural football championship. A tough, rugged game all the way, the stalwart Soph line proved to be the deciding factor as they repeatedly stopped drives by the Frosh.

The Sophs scored the only TD on a pitch-out play around the end, with Kaiser diving over to pay dirt. Terry Sheehan, a stand-out all the way, added two more points with singles in the end-zone.

The Frosh, a team that never gave up, were sparked by Ambedian, the relentless little quarterback who has been a great contender all season, and the charging line play of big Moose MacPharlin and end Gerry Carion.

Sheehan, Dupont and Houle starred in the Soph backfield, with a complicated running attack. The line was spurred by the nucleus of Tomlinson and Howland.

Sophomores: Tomlinson, Kiser, Coughlin, Sheehan, Eustace, Morand, Paling, Howland, Hool, Deitrich, Harrington, Sheehan, Cunningham, Manoni.

Freshmen: Jolicœur, Pope, McNamara, Hartford, O'Neil, Britton, Ambedian, Carion, Lang, Van Nest, Delaney, Hancock, Matz, Ducharme, MacPharlin.

## Frosh Make Comeback

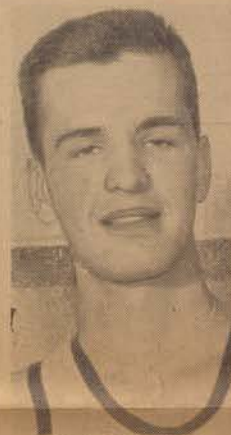

After a disappointing start this season the Freshmen showed their true form by gaining the playoffs. They lost their opening game 27-0 to the Sophomores. After this initial setback they steadily improved, finishing the season with a 2-win, 2-loss record. They swept past the Navy 17-0 in the semi-finals, only to suffer a 7-0 defeat at the hands of the undefeated Sophs in the finals.

Their improved play can be accredited to such stalwarts as Fred Lang, Moose MacPharlin, Gerry Carion and "Gutta" Ambedian, their scrappy quarterback. We say, "Hats off to the Frosh."

## FINAL STANDING

Seniors	0	3

## Meet the Team

MATT BOROWEC

One of the most popular figures about the campus is in his third season at Assumption. Standing six feet, five inches, Matt plays at centre for the Raiders. His famous hook shot will be a big factor in the championship drive this year. Last year he was second highest scorer on the team.

Matt comes to us from Hamtramck where he starred in his high school years. He is a junior Artsman, majoring in English. Two distinctive characteristics of Matt are his light sense of humour and his inextinguishable manner. He is also a star reporter on the Purple and White.

## CO-ED CAPERS

By MARILYN MILLER

Hats off to the H.N.U.A.! Their "November Twirl" was loads of fun—the best hut dance ever. Purple and white streamers served as a canopy to a beautifully shaded hall. Glittering behind the handstand could be seen "H.N.U.A. November Twirl." The council deserves an A for such a fine affair. Convenor for the dance was freshman representative Natalie Stasick who, with the aid of the entire council, did a really good job. Congratulations.

"Oh, am I stiff" seemed to be the comments in the girls' locker room, the morning after the first Gym Nite, sponsored by the H.N.A.A. at St. Denis Hall. The girls are really enthusiastic when it comes to basketball—especially since there's a chance of playing intercollegiate ball, and the good attendance proved this. The athletic program includes basketball and badminton, every Monday night at 7:30 at St. Denis Hall; swimming—weekly at Forster Collegiate and bowling parties at least once a month. With such a rich program it can only be hoped that the women on campus make use of it.

All's definite now. The H.N.U.A. Prom is Friday, January 14 at the Prince Edward Ballroom, Bill Richardson providing the music. With Natasha Sleswar and Sheila O'Rourke as co-convenors, the affair promises to be superb. The Ballroom is a lovely place to hold a dance as was proven by the group who attended the Alumni Prom. Everyone agreed that they had an "ideal" time.

**COUNCIL TIDBITS:** The Mother and Daughter Tea held November 7 at Holy Names Hall was a huge success. The day was grand and the affair was double it. . . . Christmas is in the air. Plans are now under way for the Annual Children's Christmas Party, which, in our opinion, is the most heartwarming gathering of the season.

## U.N. Delegations Meet in Toronto

Five Assumption students acting as delegates from the United Nations Club on campus travelled to the Caledon Hills Farm of the University of Toronto, Thursday, November 11, to represent the school in a meeting of University U.N. Clubs. The topics under discussion were "The Specialized Agencies of the U.N.," "University Club Organization," and "Human Rights." Students attending were Ted Zatyko, Nicholas Asare, Bernard Sattler, William Girard, and George Hamerschmidt.

### Important Speaker Present

Friday, November 12 was the first day of the meeting and consisted of registration and introduction. On Saturday, November 13, Mr. Saul Eas, chief of the United Nations Section of The Department of External Affairs arrived at Caledon Hills and spoke on "The Specialized Agencies of the U.N." A lengthy discussion period followed. A social evening was held Saturday, consisting of songs, dancing, and an amateur talent contest.

Sunday morning, the last day of the meeting, was devoted to an interpretation of the Declaration of Human Rights.

### A.C. Invited to Montreal

An invitation was tendered to Assumption College to be present at a Model Security Council to be held in Montreal on February 11 of next year. Eleven Universities and Colleges in Ontario and Quebec will be present and it is hoped an Assumption delegation will be among them.

### Executive Changes

Robert Carney was elected to the office of Executive Chairman of the Assumption United Nations Club at its last meeting, replacing George Hamerschmidt who becomes co-chairman of the Study Group committee.

### WILSON REPORTS

(Continued from Page 1)

Smolinlyen in Oslo are owned and managed by student organizations. The former was built by the Nazis during the war as officer quarters. The "Studenthyen," only very recently completed, is opened to the tourist trade during the summer months and holds the reputation of being one of the largest and most modern hotels in Europe. In Canada, it is comparable to the new garden terrace style of apartment building.

### International Interests

These are but a few examples of the major undertakings of Scandinavian students. Their initiative and resourcefulness seems to be unlimited, even in the field of international matters. Their enthusiasm for international seminars and exchange scholarships is a further illustration of their broad range of interests. For an extremely well integrated view of university education, Scandinavia can show a great deal to the rest of the world. To the tourist, to see these varied activities is an inspiration, and shows what can be accomplished by students who are willing to come out of their shells and make their influence felt in every phase of life.

Next issue: England, France and the Cote d'Azur.

## H.N.C. Mother-Daughter Tea

On the afternoon of Sunday, November 7, the young ladies of Holy Names College gave a lovely Mother - Daughter Tea at Holy Names Hall on Huron Line.

The table was beautifully set with a white damask tablecloth, and centred with a striking floral arrangement of baby mums in Assumption's colours—gold, mauve, and white. Burning purple and white tapers effectively completed the setting.

Pouring the tea during the afternoon were Mrs. C. A. Cianci, charming in a navy gabardine suit featuring a beaded collar; Miss Margaret Richardson wearing a smart dress of deep mauve; Mrs. A. A. Thibault, and Miss Betty Sheridan, tumbling in a grey and red dress; Mrs. Jamie Holland wearing a black crepe dress complemented by a white collar.

Receiving the guests were Sister Aloysius Mary, Dean of Women; Miss Margaret Ceresa, President of the Holy Names Undergraduate Association, wearing a navy faille suit; the Vice-President, Miss Iris Savchitz in a white nylon blouse and steel gray skirt; and Miss Pearl Holland in a flaming red blouse and a beige skirt.

Several Holy Names girls assisted in serving the guests: Anna Marie Holowacz, wearing pale gray gabardine, Sheila O'Rourke in a salmon-pink tailored suit, Alice Rittenhouse in navy blue bengaline, Natalie Stasick wearing a charcoal jumper and a white blouse, Lynne Toth in navy blue iridescent taffeta and Ellen Balluff in a black velvet sheath dress.

Among those present were: The Reverend Basilian Fathers, Mrs. Max Savchitz, Mrs. A. Rittenhouse, Mrs. P. L. McManus and her daughter Patricia, Mrs. C. C. O'Rourke and Clare, Mrs. I. M. O'Rourke, Mary and Mrs. L. Treisz, Mary Kay and Mrs. C. V. Hinderberger, Marcia and Mrs. C. Maronate, Phyllis and Mrs. Gordon Pratt, Charles and Mrs. Martin, Frances and Mrs. G. O'Connor, Margaret and Mrs. Allan, Wendy and Mrs. Gilchrist, Penny and Mrs. T. E. Kerwin, Marilyn and Mrs. I. J. Quinn, Shirley and Mrs. Wallace, Margie and Mrs. Limon, Marilyn and Mrs. B. Miller, Rochelle and Mrs. J. E. Goulet, Janet and Mrs. Foslowski, Donna and Mrs. Mrs. Elaine and Mrs. Bruce, Aileen and Mrs. Fox, Doreen and Mrs. O'Brien, Nancy and Mrs. F. J. Hogan, Lenore and Mrs. J. Garinger, Fran and Mrs. E. M. Warren, Eleanor and Mrs. Pare, Mary Jane and Mrs. D. M. Mullins, Patricia and Mrs. M. V. Westrick, Pam and Mrs. C. E. Chauvin, and many others.

## The Women's Side

By FRAN O'CONNOR

On Thursday, October 28, a meeting was called at the Holy Names Athletic Association to elect officers of the Women's Athletic Council for the current year.

Pearl Holland was elected President, assisted by Diana Barr as Vice-President, Nancy Hogan as Secretary and Pam Chauvin as Treasurer.

Our congratulations to these girls as well as the H.N.A.A. for their wise choices, and it is our sincere hope that this current athletic year proves to be as successful as it promises to be!

### Swimming Starts

Thursday, November 4 saw the first meeting of our swimmers at Forster Collegiate pool, with an average turnout of girls. It is hoped that this number will increase as a capable instructor and life-guard are on hand each Thursday evening at Forster Collegiate pool between 7:00 p.m. and 10:00 p.m.

### Basketball Limps

If a number of girls appear to be limping about the campus this week, pay no attention for this is not old age creeping upon them but merely an indication that the Basketball and Badminton season got underway Monday evening with a "bang!" It appears that the girls are not what you call "in condition," but under the able coaching of Mrs. Elizabeth Thompson this problem is soon to be remedied. It was agreed upon by the girls to organize a regular team and compete against other city teams to be arranged by the manager, yet to be elected by the Athletic Council.

These plans cannot be carried out without the full support of you girls, so let's have all of you on hand in the gym next Monday evening between 7:30 p.m. and 10:00 p.m., showing that school spirit so prevalent here at Assumption.

Merry Christmas

## Chalk Up One For Assumption College Students

Santa Claus made an advance trip to the homes of 44 underprivileged children. He acted on behalf of the student body of Assumption College who collected a fairyland of toys for the youngsters. The students brought toys from home and donated some of their pocket money to make the Christmas story more real both for themselves

and the less privileged. The names of the needy were provided by Catholic Welfare and Protestant Welfare organizations. Four, helping with distribution are, left to right, Len Dietzch, Mary Kay Hinsperger, Bernie Kelly, and Betty Sheridan. (Story on page two.)

## Students Publish Raider Program

Assumption basketball has been highlighted this year by an official Raider program, something new and long awaited in this our major sport. Through this "priceless gem" of team information the many Raider fans become supplied with a broadened knowledge of the team and Assumption may now boast of its significance in the realm of basketball with sufficient backing.

Merely a month ago the plans were adopted for this new publication, one of the weekly Athletic Meetings and under the editorship of Paul Martin who, combining his efforts with Mary Kay Hinsberg and John Craddock, the dream was brought to reality. Having had previous experience in this capacity, Paul undertaking the tasks of arranging the program, securing the use of the College Advertising Bureau, collecting interesting team data, and having necessary pictures taken quickly, combined his materials and came up with a piece of highly complimentary work. Mary Kay, his associate editor, backed by last year's experience, as Secretary of the Athletic Union, has done her worth in the literary field as she donated much of her precious time to the experiment. John Craddock also is worthy of high acclaim as he voluntarily offered his sports writing talents to fill out the program with great sporting comments. While these sturdy men took the lead, the little woman with a heart of gold, Mrs. Perry, successfully upheld the financial end.

It is through such student co-operation as this that Assumption can be recognized as a democratic institution where the combined efforts of all open the curtain on a brighter tomorrow.

## A Christmas Message From the President

My Dear Students:

On behalf of the staff may I extend to you our sincere wish for a Blessed Christmas and a Happy New Year.

Once again may I remind you that it is the religious meaning of this great feast which carries with it its true significance. The birth of the Saviour is recalled to our mind during these days and this fact realized, carries with it a deep spiritual peace which is capable of helping us over any difficulties that may beset us. It recalls to our mind also the great commandment of Love of God and Love of Man for God's sake. If we, living in the world, were able to build into our thinking and our actions the virtue of love based on faith and hope in the Christ Child, we would find peace in our time and happiness forever. Each of us should realize our personal responsibility in trying to make a better world through the deep mystery of the Christ Child's revelation.

May we all have a truly Blessed Christmas and a Happy New Year.

VERY REV. E. C. LeBEL, C.S.B.  
President

## Raiders Bow In Opener 70-61

The Assumption Raiders unveiled their 1954-55 model against the highly rated nationally ranked Titans from the U. of Detroit. Showing signs of nervousness in the early moments of the game, the Raiders were down 6-0 before Hughie Coe showed them the way. Dick MacKenzie and Matt Borowiec, the latter a two-time All-American, lit the scrapheap and rebounding with the bigger and taller men and they upheld the fighting Raider tradition. Unable to stop the Detroit "Titans," Guy Snarrow and Bob Ducker, the Purple Raiders made up for it with the brilliant passing Veres, Joseph, and the scrapping Kenedy, Colimani and Chitraro while the homecoming admiralty was "of their perseverance paid off; the plucky cagers slumped a Detroit lead of 20 points down to nine before the final whistle blew and the 200 Assumption stalwarts who journeyed to Detroit for the encounter went home with all said and done, the 34-85 Raiders were better than ever. More love to them.

Raiders Rout  
Blue Devils 94-77

On Saturday, December 4, the Purple Raiders exhibited their championship form and, led by sharpshooters Lou Veres and Charlie Collins, who scored 26 and 12 points respectively, completely demoralized a good Lawrence Tech squad 94-77. In running up their second highest scoring total short of the record the Assumption boys displayed their wares to a capacity crowd of 2,000 thrilled fans, who watched and cheered Hughie Coyle's playmaking, George Joseph's aggressiveness and Dick MacKenzie's rugged rebounding.

## Arts Magazine In Production

At last Assumption is going to take its place alongside other Canadian Universities by producing an arts magazine. As indicated by its name, the Kaleidoscope means to be the channel whereby the various literary talents and views on the Assumption campus can be published under one cover.

If you haven't been approached already, that does not mean your efforts at fiction or non-fiction, short stories, essays and poetry are not wanted. On the contrary, any contributions, no matter how insignificant they may seem to you, are patiently being awaited by the editorial board.

Although little work has been submitted up to now, the Kaleidoscope is expecting a rush just before the deadline date of January 14. Please help them out by getting your efforts in as soon as possible.

Dr. Stratford, Harley Forden, Mike Vukovich, Louis Podgornik, Ruth Heyd, and Alice Rittenhouse will be able to accept your work, and of course, will treat it in all confidence until publication.

Sparked by Larry Connorton's dead end, with 10 points to the Raiders' cause, Assumption pulled ahead in the second quarter to lead at the half 48-32. However, Trine looked very impressive in his half handling. In the second half, L.L.T. sprung to life and with John Basileco's 20 points (all of which were scored in this half immediately) they made a game try but failed to keep up with the peerless pacers of Assumption. The Raiders were hot and who could stop them? Eddie Chittaro, Dick Kennedy, Bill Bureigh and John Borowicz saw limited action but did not creditably, contributing a total of 14 points to the Raiders. The Raiders' final score was 76-40.

Happy New Year

### A Christmas Thought

Christmas 1954: the world is in a state of chaos and confusion. It is not a confusion of material forces; it is a confusion of ideas. People have become so engrossed in the wonder of material discoveries, material wealth and material pleasure, that they have lost sight of their spiritual goal. They have set up a material religion with no place for God.

One of the greatest examples of this is the notion of Christmas prevalent today. For nineteen hundred years, to the Christian world, Christmas has meant the celebration of the birth of Jesus Christ, in the spirit of one of His chief doctrines, love for fellow man. It was the custom to express this spirit by the exchange of gifts. In recent years some profit-seeking sharpers have capitalized on this custom, thrown Christ from the celebration of His own birthday and changed the hold name Christmas to the pagan name Xmas. This is but one example of the confusion of thought in our time.

People today, particularly in North America, wholeheartedly agree that democracy is the ideal form of government. Democracy is based on the liberty and integrity of the individual man, a Christian principle. Yet they would live in a democracy with a materialistic way of life. Some people, particularly these people, wonder why democracy is in its present state. They want the benefits of both materialism and democracy, two opposites. They would have their cake and eat it too: another example of confused thinking.

The university student of today is faced with a muddle of conflicting ideas which if viewed separately are far short of clarity. The trend is toward individual uncorrected thoughts and not clear ideas which present a complete picture. This adds to the confusion of the times.

As students, we may be over-awed with the huge, widespread conglomeration of facts which make up knowledge; it may confuse us. At Christmas, however, a fitting time, let us stop, look past "the trees and see the forest;" let us forsake the details to see the whole plan. If we do clearly see the whole plan our spiritual goal and the place of new knowledge in reference to this goal and plan, we can avoid this confusion.—A Christmas thought.

## Meet the Faculty

MR. MILES

Mr. Andrew Edward Miles, lecturer in Biology, Mr. Miles was born in Providence, Rhode Island and had his primary and secondary education there. He entered Brown University and received his first degree, the A.B. in 1949. Two years later Mr. Miles received his M.S. degree from the University of Rhode Island. Then in 1952, he joined the faculty of Assumption College where he had been since. He is presently in research and preparing for the degree of Ph.D. in the field of Entomology from Michigan State Agricultural College, aside from his regular duties of lecturing and conducting laboratory studies.

In his spare time Mr. Miles manages to work at his hobbies which are photography and woodworking. Married, he and his wife Marion have been blessed with a little biologist, a son, Andy Jr., who is now one year old.

## Crusaders Victors In First Battles

The Assumption College Crusaders came from behind to win their second game of the season 62-59 over the Detroit Tech Freshmen. The contest went into overtime with the score 53-53 at the end of regulation time.

Jack Hool and Neil MacEwan paced the scorers with 16 and 12 points respectively. In the overtime, Reno Bertola and MacEwan scored four points each to clinch the victory.

Jack Hool, Paul Metzger and Chuck Schiano paced the Junior Varsity over Kane Hatters 60-49 in an earlier contest.

This year, the Crusaders have been entered in the Intermediate Collegiate League. They meet their first league opponent December 11 when they play Ryerson of Toronto at St. Denis Hall. Coach Dr. DeMarco will probably start Reno Bertola and Neil MacEwan at the guards, Chuck Schiano at centre, and Rippe Cooke and Paul Metzger at the forwards.

## GROSS DISOBEDIENCE

Supreme Court Justice Douglas, coming out of the Embassy following a state dinner, was immediately recognized by the attendant, who called out: "The car for Mr. Justice Douglas! Justice Douglas, car!" There was a long and uneventful pause. At last, the Justice started for the parking lot on foot. "It's a fine car," he apologized to the attendant, "but it just won't come when it's called."

## "Operation Santa Claus" Launched by Students

By JIM HARTFORD

To many kids in the city of Windsor, there's more than one Santa Claus. As a matter of fact, there's a whole university of them. They are the students of Assumption who, under the organization of Mrs. Perry, and Chairmen Bernie Kelly, Betty Sheridan, Bernie Suttle and Len Dietzen, made monetary donations, or contributed what old toys they were able to find in their homes. These went to 40 youngsters, 20 of which came from the Catholic Welfare, and the remaining 20 from the Protestant Welfare.

Last Monday, a barrel was set up in the lounge, and proved to be quite successful in absorbing what toys were to be had. It was there also, that the monetary donations were accepted, and these also resulted in being more successful than estimated. On the following Thursday, the boarders put in their proverbial two-bits by canvassing the neighborhood for toys. The pile of toys was then added to by donations of oranges, candy and nuts.

Saturday, December 11 found several enthusiastic A.C. students buying more gifts for the needy youngsters with the donated money, while the delivering was done on the following Tuesday, via the College truck, to those anxiously awaiting.

And so it is that 40 kids who may have otherwise been shaken in their belief in Santa Claus, will be able to celebrate the great Feast with no feeling of being forgotten.

Assisting the chairmen in their various operations of collecting, telephoning, buying, wrapping and delivering were: Ann Gentile, Lynn Toth, Dick Moriarty, Buster Piner, Ellen Balluff, Paul O'Neill, Paul Martin, Mary Kay Hinsperger and John Cradock.

## Down A.C.'s Bowling Alley

The Assumption Bowling League has recently completed its seventh week of activity at the Campus Bowling Alleys. The League has had fine support with 10 teams participating each Wednesday. Each team will play each other team and then the top eight teams will engage in a round robin play-off. This league is of top-notch calibre with many fine scores being turned in. The High Single was scored by Claude Malette. He hit 224. The High Triple of 551 was scored by Nick Lukos. Both of these men are to be congratulated. There is quite a fight going on for the last play-off position. The outcome of this race will prove of great interest.

A Congresswoman from New York has introduced her young granddaughter to the facts of life. The child doesn't quite get it, but she confidently quotes Grandma to her friends: "When girls are little they like dolls, when boys are little they like soldiers; but when they all grow up the girls want the soldiers and the boys want the dolls."

## BOWLING STANDINGS

Team	Captain	Points
8	Moir	18

# RAIDERS EDGE NORTOWN 98's 76-72

## TIME OUT

with LEIF

What's the word from the Intercollegiate league? There are some early season scores which we can compare with the Raiders' and at least have a clue of what to expect in league action. Through an extensive press association we have obtained these scores. Queen's was beaten in a close-fought contest by Oswego State Teachers College 73-69. McGill was swamped by St. Lawrence Univ. 105-57. These two scores indicate that these teams are of the same calibre as last year. Western bowed to Michigan Normal 76-39. This score shouldn't be accepted at face value as Western had only a week's preparation for this. Toronto Varsity succeeded in protecting its Hart House mastery by defeating D.I.T. 68-63. That was more than the Raiders could do. The only thing to say about the Intercollegiate now is, "We'll see!"

\*\*\*

**FOOD FOR THOUGHT:** The Raiders met D.I.T. last Wednesday expecting an easy conquest. They were upset. Why? Certainly not for lack of student support. Could it be overconfidence? Maybe because they were still full of the glory of the victory over L.I.T. However, the fact remains they are letting the school down if they play in such a haphazard fashion. We are not condemning anyone but we will have to wait and see their showing in future contests. These boys certainly have enough latent ability if they will only pull together. We know that they can improve, but will they?

\*\*\*

Before this article becomes too involved, even for me, I will wish all my avid readers a Happy and Holy Christmas and all success in the coming year.

\*\*\*

Since the outset of this season this reporter has observed two errors in the managing of the basketball games. There have been many comments from the students none of which were praising. These situations were the seating arrangement at the games and the snack bar. We were glad to note that one of these problems has been remedied. Congratulations to Bernie O'Connell for bowing to public opinion. Now will the powers that be give some aid to the understaffed snack bar so we can get some service at half time.

## Frosh Down Juniors 5-2

On Monday, November 22, the high scoring Froshmen backed by a driving team spirit outplayed the Juniors in the time of 5-2 goal netters for the Frosh were Louis LeMay, Jerry Cronin, Gordon Kirk, Butch Lugh and John Weiss. The scoring for the Juniors was done by Rod Scott and Paul O'Neill. The fast-moving game was marred by only one penalty - that to the Frosh's Mike Doyle.

## Seniors Defeat Sophs 3-1

Led by the two-goal effort of Claire Fiaschetti the Seniors had to capitalize on every break in order to emerge the winner over the Sophomores on Thursday afternoon, November 25. Mike Robert aided in the winning cause, while Terry Murphy was the lone marksman for the Sophs. There were only two penalties, those going to Salfrin and Sisco, both on the Sophomore team.

## Frosh Squelched 5-2 By Seniors

Impeded by the inability to capitalize on scoring opportunities, the formerly undefeated Freshmen suffered their first setback at the hands of the Seniors 5-2, on Thursday morning, December 2. On the other hand, the Seniors made no mistakes and piled up an impressive score. Claire Fiaschetti with two, Mike Robert, Bob Knowlton and Jim Turner were marksmen for the Seniors. Rickie Valentini and George Schmalz were the Freshmen scorers. Cronin, Doyle and Schmalz drew penalties for the Frosh while Fiaschetti, Hart and Knowlton were penalized for Seniors.

## Sophs Edge Frosh 3-2

In the closest and most hard-fought contest of the young hockey season the Sophomores squeezed out a 3-2 win over the Freshmen on Wednesday morning. The game was marked by hard-fought hockey and the tempo had to be held in check by frequent penalties. Referees Art Clune and John Craddock handed out no less than nine penalties: five going to Frosh Doyle, Sevi, Lugh, Valentini, Cronin and four to the Sophs, Duperrit, Sisco, Murphy and Morand.

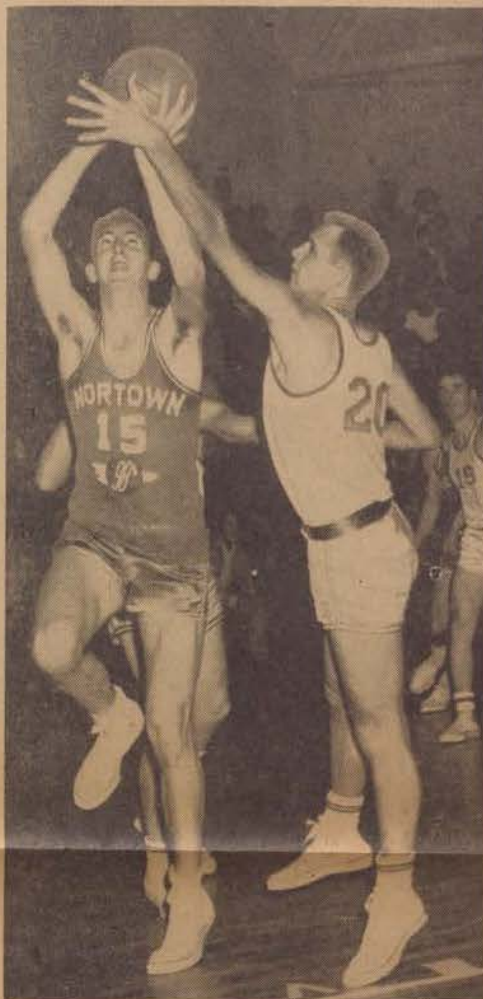

Only the sustained Sophomore drive enabled them to overcome the Freshmen threat. Highlighted by the scoring plays of Terry Murphy, Stafford and Pete DeVriendt, the Sophs staved off the last minute rush of the Frosh who staged a desperate attempt to gain a tie. Butch Lugh and Louie LeMay pierced the Sophomore defence to register goals but these did not prove sufficient.

By merit of their victory the Sophs gained a tie for second place with the Frosh. Both teams trail the league leading Seniors by two points.

## Seniors Crush Juniors 4-1

The league leading Seniors overpowered the Juniors 4-1 on Wednesday. The fast-moving game saw both teams minus the services of a goalie. Claire Fiaschetti, Mike Robert, Paul Hart and Dick Sheehan were the marksmen for the Seniors and Joe Halloran potted the sole goal for the losing Juniors.

## Trotter Gives Matt Trouble

Matt Borowiec of the Raiders and Doug Trotter of the Nortown 98's are shown jumping for the ball in action from their recent game. George Joseph and Dick MacKenzie combined with 25 and 21 points respectively to help the Raiders down the 98's, 76-72.

## Raiders Upset By D.I.T. 62-56

By PETE HOWLAND

After an impressive showing against the U. of D. and a peerless performance with the Lawrence Tech Blue Devils, an overconfident Assumption Purple Raider Club was demolished by the second half dynamite displayed by the Detroit Tech Dynamics last Wednesday, December 8. The same Raiders who couldn't miss against L.I.T. could not buy a basket from the revenge-minded Motor City boys, who sought to avenge Assumption's record making victory over them last year. They did so, slipping the noose around the purple pack's basket to gain a 62-56 upset victory.

Assumption's regulars were slow in starting and were down 8-0 after the first three minutes of play but finally gained acceleration with the power packed impetus given by Lou Veres, Larry Connorton and Matt Borowiec. Showing some signs of the play that had merited them the co-championship of the Canadian Inter-collegiate League, the Purple Raiders maintained a 33-28 lead at the half.

But the boys from the other side of the river were not to be denied. Led by centre Dan Perkins' 17 points and Bob Locker's 15, the Dynamics roared back to overtake the Raiders in the closing minutes of play and then after padding their claim lead put the ball into the deep freeze, safely away from the desperate Assumption cagers.

Although severely humbled by the setback, the varsity could still boast of the game's high scorer, Lou Veres with 18 points to his credit; the scrappy playmaking of Hughie Coyle, George Joseph and Dick MacKenzie. Perhaps it was just as well that the Raiders had an "off" night against this D.I.T. team instead of an intercollegiate squad. Getting this game out of their system, the Raiders are looking forward to an unblemished record in conference play. We wish them luck and are confident that they will triumph.

About all we can say after the Nortown 98 game is congratulations to a fine team. What a comeback.

## Christmas Fantasies in Dress

### Dressed to the Hilt In Glitter

The girls are really putting it on. Like razzle-dazzle ensembles, everything's jeweled and shiny for the holidays—then topped off with diamonds, real or false. Lavish isn't the word. The look is one of opulence: satins and laces and tangles piled on even in casual clothes. Top designers are turning out informal fashions with a champagne sparkle. Proving they're not pompous about gold and glitter, girls have chosen fantastic fabrics in the simplest fashions and are wearing low-heeled shoes with the dressiest clothes. Very new is the short-skirt dress which comes back every so often but at the present is made of broad, satin or some other precious fabric.

#### For Holiday Festivities

Who will be the prettiest dressed girl at the party? You, of course. The party of Christmas and New Year's festivities has cast a spell over fashions for the holiday season. And now is the time to plan what you are going to wear to the Christmas dances and New Year's parties. Luxurious fabrics at a moderate price make choosing a suitable costume very easy this year. All you need is to select a becoming style, but a simple one.

If you fancy separates, there are embroidered sweaters, shirts, rhinestone-studded cardigans, gay blouses, beads and belts and other accessories that add sprightly sparkle. If, however, many of us feel, at this Christmas shopping, empty wallet's time of year, that we simply cannot afford a brand new holiday outfit, there are plenty of ways in which an old favourite can be brought up-to-date—ideas we gleaned from Paris and Rome. For example, a deep satin cummerbund and sash, a touch of fur, (it doesn't have to be real, of course), a strategically placed, winking belt to achieve the popular low waistline effect, or a luscious French flower of velvet or silk. The newest and smartest trend is the "one colour" theme or a combination of blended lines. They fur muffs, shoulder stoles and jackets have come back to accompany your favourite formal or cocktail dress. And don't forget to have satin slippers dyed to match your evening (and daytime) costume to add a finished look.

## The Women's Side

By FRAN O'CONNOR

Holy Name's College is proud and privileged to have as its basketball and badminton coach this year, Mrs. Elizabeth Thompson. Mrs. Thompson is a native of Windsor, who attended Forster Collegiate. While she played on the basketball team during her years at Forster, they held the title of City Champs. She was also the proud possessor of track awards during her high school years.

#### Championship Coach

After graduation from high school, she entered London Normal School where she became captain of the basketball team there. During recent years she has coached at J. E. Benson Public School, and has brought other city public school teams to victory.

At the present time, she is on the National Board of Women Officials (which rates referees). This board is the first of its kind in Canada and is affiliated with the National Board of Women Officials in United States.

For the past four years she has been an active referee in the girls' city intercollegiate basketball games. Mrs. Thompson has been rated as one of the top officials of Western Ontario and we are proud to boast her coaching here at Assumption.

#### Drawing to be Held

It is likely that most of you have been approached by an eager co-ed urging you to buy tickets on a drawing to be held at the annual Christmas assembly. The Holy Names' Athletic Council is sponsoring this drawing for the purpose of raising funds for girls' basketball uniforms. We hope you will give it your wholehearted support.

#### Bowling Party

The first bowling party was held on Tuesday, November 23, under the arrangement of Clarisse Martin. We hope your continued support may be felt throughout the coming year at these occasional bowling parties as well as at the other sports provided in your interest.

#### SOME LIGHT ON THE SUBJECT

"My husband has a terrible delusion, Doctor," reported the woman. He keeps thinking he's a refrigerator."

"Well," consoled the psychiatrist, "it could be worse. A fairly harmless delusion, I would say."

"It's not the delusion I mind," sighed the woman. "It's just that when he sleeps with his mouth open the little light keeps me awake."

## A.C. Players Score Hit Again At Adrian

On Thursday, December 2, the Assumption College Players, in response to an invitation, travelled to Siena Heights College's Adrian, Mich., to present "Shadow and Substance." On arrival, the players were received by members of the Siena Heights College Drama Club and taken to the theatre to acquaint themselves with it. The stage had already been set up by the students of the College who had worked all day in doing so, carrying fifty-pound platforms, seventy-five pound burdens and other things too heavy for the Assumption stage crew to carry. Shortly after, they were all served a delicious supper and retired to rooms to rest before the play.

The performance itself was so well received by the enthusiastic audience of 780 that the players were rather surprised at the extent of it. They received an invitation to return in the spring and present something else for them. The players expressed the hope that we will be able to oblige. Many thanks to Siena Heights College from the Assumption Players Inc.

## Lou Veres Tries For Scholarship

Last Friday, December 10, Lou Veres, a senior honouring in History, was called to Toronto to be interviewed for a Rhodes Scholarship. Lou says that he met some of the most intellectual students and men of Ontario. Although not selected Lou gained valuable experience in his short association with these select people. Lou wishes to thank Father Mulvihill, Father Swan, and Father Crowley who gave their aid in this matter.

## CO-ED CAPERS

By MARILYN MILLER

With Santa distributing gifts and everyone singing "Rudolph" the H.N.U.A.'s annual Christmas Party can be truly called the most successful affair of the entire school year. The expression beheld on a child's face when he opens up his own small Christmas package (in some cases the only Christmas gift) cannot be described in writing.

The Holy Names Prom is well on its way to being a success. A theme has been chosen and it promises to be very good. At a girls' assembly held recently, the decision of everyone was that they were all going to the affair and help in the planning of it. Tickets are \$3.00 a couple, and is a semi-round-about (boys as well as girls may ask). Dancing from 9-1:00 to the music of Bill Richardson's Orchestra.

**ATHLETIC TIDBITS** . . . The girls' basketball team won their first game of the season by defeating Assumption C.Y.O. by the score of 33-19. . . . All girls, remember there's swimming every Thursday night at Forster Collegiate at 7 o'clock.

## A. C. RAIDERS SWAMP GOLDEN GAELS

1954 Rates  
As Big Year

## P &amp; W Reviews Year

January 15—The 19th Annual Holy Names Prom was held in the Knights of Columbus Hall.

January 23—The Assumption Purple Raiders won their second intercollegiate game of the season by defeating the McMaster Marauders, 74-56. The Raiders sparked throughout the whole game and George Joseph was the big noise for the Assumption quintet with 27 points.

February 1—Assumption Raiders defeated Windsor Alumni 80-42.

February 8—Stu Wilson was selected as delegate to W.U.S. Seminar to be held in England during the summer.

February 9—The Commerce Club was organized on Monday, February 9 at the D.H. Among well-known guests, the die was cast for a permanent school club for business students.

February 12, 13, 14—The Homecoming Weekend was a great success beginning with the Homecoming Parade on Saturday, February 13 from downtown Windsor. Highlights of the parade were the beautifully decorated floats; the outstanding ones were the Purple Raiders Rocket Ship and Pat Suraci dancing under the guise of Mr. Basketball. Alumni Open House was scheduled in the Students' Union and dinner in the College cafeteria.

Our Purple Raider squad packed a thriller against the Toronto Varsity Blues for a score of 59-56.

February 17—Angus Munro of The Windsor Daily Star spoke to the staff of the Purple and White. His topic was "So you want to be a reporter."

February 26—This marked the first in a series of four Campus Forums held during Lent. A capacity crowd heard panelists Barbara Loughhead, John Brookshire and Mike Vuckovich discuss the books, "The World and the West" and "Civilization on Trial."

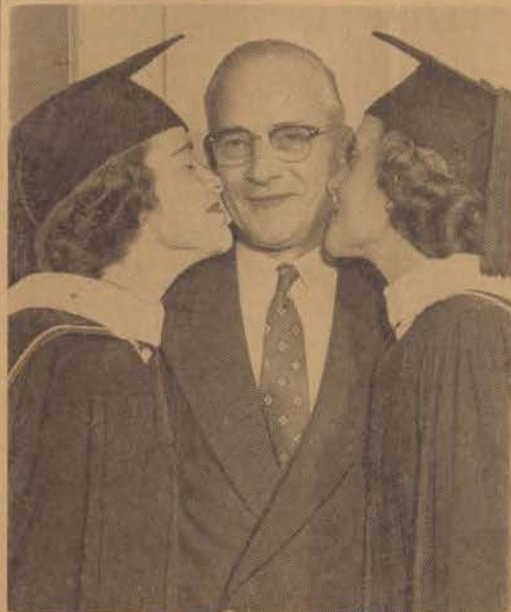

March 5—The student body, at a surprise assembly, honoured Father E. C. LeBel, C.S.B., as the first president of Assumption as a university. Fr. LeBel, completely taken by surprise, accepted a portrait of himself, not as a tribute to himself, but to the fact that Assumption is now a university. He stated that the large number of students at the assembly meant more to him than anything else.

March 13—Raiders Co-Champions!—Assumption Cagers walloped the Mustangs from the University of Western 58-54 to share title crown. Approximately 3,000 fans jammed St. Denis Hall to witness the most spectacular game of the season. The triumph gave the Assumption crew a share in the coveted Wilson trophy, emblematic of Ontario-Quebec Conference Supremacy. Dick McKenzie, rookie from Niagara Falls, was the outstanding player for the night scoring four field goals and going wild in the free throw department for a total of 16 points.

March 26—The election campaign, one of the most exuberant displays of school spirit in years, ended Friday, March 26 with Richard Kennedy of Chatham as S.A.C. President. Assisting him in office is Windsorite Jim Hester as First Vice-President and Charles Collins of Royal Oak serving as Second Vice-President. Completing the Executive is Bernice Kelly of Toronto, as Senior Class President; Len Dietzen of Chittanooga and Bob Knuckle of Windsor as Junior and Sophomore Representatives respectively.

April 23—The ARTS BALL featuring Fred Netting, The Beachcombers and an Hawaiian Trio was a tremendous success. The Frontiersmen did a great job! The South Sea theme was carried out beautifully in the decorations. Betty Jean Holland was Queen.

## Remember This? ...

A P & W SCOOP OF '54: Mary and Marg Richardson, seen above with their smiling father, were the first twins ever to graduate from Assumption. They graduated at the first Assumption convocation, one of the big events of 1954. The editors were at a loss to pick out which is Marg and which is Mary, a problem which baffled the college for four years.

October 1—Frosh Week highlighted by a new event, the Frosh Parade which ran through the main streets of the city.

A new post, dean of men, and addition of 10 new faculty members came at the opening of the fall term. Rev. E. J. Hartmann, C.S.B., was named dean of men. The new faculty includes five full-time members.

October 29—At the second convocation on October 29, Assumption conferred B.Sc. degrees on two undergraduates and B.A. degrees on 21 others.

November 11—Shadow and Substance, starring Frank McTague and Paula Clary, scored a hit on St. Denis Hall stage.

November 19—The Sophs beat the Freshmen to win the first 12-man intramural Football Championship. Intramural hockey was introduced at Assumption.

December 1—The Raiders opened the basketball season with a close loss to University of Detroit.

December 10—Amid the Christmas celebrations the students held their annual Christmas Dance at Lakewood Golf Club.

December 12—Freddie Thomas received a tremendous ovation on his return to Assumption, as the Raiders downed the Nottown 98's.

December 14—The students played Santa Claus to the underprivileged children in Windsor.

Seek Entrants  
For Competition

The Creative Arts Club wishes to encourage those students interested in Art to enter their work in the "National Federation of Canadian University Students National Art Competition," which will take place at the University of Toronto. Dates for the National Competition exhibit are January 31 to February 4, 1955. The students from Assumption College must present their entries to the Creative Art Club by January 23, 1955. The exhibit includes Oil Paintings, Water Colour Paints, Drawings or Prints, and Fine Arts. Valued prizes will be awarded to the winners. Several entries have already been made. For further information please contact Betty Sheridan, Ben Norman, or Ron Gentile.

Psych Club  
Tours Eloise

On Thursday, January 6, the Psychology Club went by chartered bus to the Wayne County General Hospital at Eloise, Michigan. At the hospital, they were taken to the buildings housing the mental hospital where they were met by Dr. H. Hirsch, recently appointed Director of Psychiatry at Eloise. Dr. Hirsch took the group of 24 to one of the staff rooms where she gave a very interesting talk on the purpose, work, patients and staff of the hospital. She then turned the group over to Dr. Pearce, a psychiatrist at the hospital, who took them to an observation office in one of the wards. Here Dr. Pearce led a discussion on the divisions of mental illness, and the symptoms of various types of psychotic illnesses. The doctor then brought in several patients one after the other. The students were allowed to question the patient about his life, work, attitude to the hospital, how he happened to be there etc. After each patient was taken from the room, the group diagnosed his case. Altogether the students interviewed six patients. After these interviews, Dr. Pearce brought in the shock machine and explained its use and operation. When the discussion concerning shock was over, another short discussion period was held wherein the students could ask any questions they had about the hospital.

All in all it was a very interesting afternoon. The students who went and saw for themselves the workings of a mental hospital have a much better understanding of its work and the type of illness it deals with. At a time when mental illness is stressed and publicized as it is today, it is well to have at least a small understanding of what can and is done for those unfortunate.

CAN'T HARDLY GET THEM  
NO MORE

Prof.: "Tell me all you know about Keats."

B. Artsman: "I don't know anything—in fact, I don't even know what they are."

Speed, Class, Teamwork  
Beat Queen's Soundly

The Purple Raiders took off to a flying start in their drive to the 1955 Senior Intercollegiate Championship, by beating the Golden Gaels of Queen's, 85-48.

Assumption flashed too much speed and stamina for the visitors from Kingston. The local collegians were never behind from the opening whistle, forging into a 6-0 lead in the first minute and winging well ahead of the Gaels through 40 minutes of fast but not too exciting action.

A.C. Admitted  
To A.U.B.C.

It has been announced that Assumption College has been admitted to full membership in the Association of Universities of the British Commonwealth. This Association is composed of leading universities in Great Britain, Canada, Australia, New Zealand, South Africa, India, Pakistan, Ceylon, Malta, Malaya and Hong Kong. Admission of Assumption to this body constitutes recognition of the College's standing in the field of higher education, both within and without the Commonwealth. The A.U.B.C. promotes the exchange of information among its members by general and regional conferences, facilitates the interchange of students and professors among various countries by a system of scholarships and bursaries, and makes available, through a central bureau in London, England, information concerning available candidates for professional positions. The official announcement of Assumption's admission was conveyed to Father LeBel by Dr. Foster, Secretary, following a meeting of the Executive of the Association in London, which took place in December, 1954.

A crowd of 1,500 fans looked on as Assumption boosted its over-all season's record to five victories and three defeats.

Queen's, which had dropped a 74-60 verdict to Mustangs in London the night before, just didn't have the legs to keep pace with Assumption's fast-breaking attack. After making a determined stand against the high-flying Raiders during the first five minutes, the Gaels faded quickly. They found themselves on the short end of a 19-9 score at the 10-minute mark and then looked almost helpless as Assumption built up a commanding 45-27 margin by halftime.

Verses High Man  
Captain Lou Verses, the Raiders' leading scorer this season, again led his team to victory. This time he hooped 25 points from nine field goals and seven foul shots. Matt Borowicz clicked for 16 points, George Joseph counted 13 and Hugh Coyle tallied 12. Verses now has scored 117 points in Assumption's first eight starts.

Giant Centre  
Paul Fedor, who scored 20 points against Western's night previous, by came right back with an 18-point effort. Jay McMahon, the Gaels' giant centre from Pen State, clicked for nine points although he didn't score a single field goal.

Assumption hooped 28 of 71 shots from the floor while Queen's clicked on only 12 of its 50 chances. From the free-throw line, Assumption potted 29 of 42 shots and Queen's dumped 24 of 39 attempts.

## ... And This?

ANOTHER P & W SCOOP OF '54: Pictured above is George Joseph in action against Western in the final game of the season when the Raiders emerged co-champions. The Raiders have started their "drop the co" campaign by trouncing Queen's, 85-48. They move to McGill and Kingston for two more games this weekend, a well-conditioned and confident team.

## Editorial

This past week, our yearbook, the Ambassador, went to press. This is a notable event any year, but particularly this year. It was decided that the Ambassador of 1955 should be entered into competition with the yearbooks of other colleges. Preparations for this are being made.

Assumption has always been proud of its Ambassador. It has been improving with each publication until these past three years it has been singularly outstanding, a match, at least, with any other we have seen. The layout, the ideas, and the photography have been followed by many other books. It was an honour and a tribute to the college when the city of Windsor asked them to help put out a program for their centennial year. This is an acclamation to the Ambassador also.

We have observed the evolution of the 1955 edition under the direction of Editor-in-chief, Buster Piner. From this observation, we are willing to say that this year's Ambassador will be the highlight of '55. A great deal of work and time has gone into it and, before publication, there will be a great deal more. Therefore, on the event of the Ambassador going to press we wish to congratulate all who have helped in making this event

## Change of Name?

By PAM CHAUVIN

(Editor's Note: The question of whether the name of the Purple and White should be changed has been a pet peeve of the editors for the past couple of years. Opinions for both the pro and the con are numerous. The editors have not as yet expressed their opinion, but however, collected opinions from some of the more prominent students about the campus; these are listed below. Letters concerning this issue will be most welcomed. As a matter of fact, letters on any issue are most welcome; so far there has been a noticeable scarcity of these.)

Question—Do you think that the name of the Purple and White should be changed?

Richard Kennedy—President S.A.C.—Yes, I think that it should be changed, now that Assumption has achieved a university status it seems only fitting that the paper should bear a more striking title.

Lynne Toth—President of Psychology Club—Yes, the name should be changed. The paper should have a more suitable title. Purple and White sounds more collegiate than university.

Harley Forden—Editor of Kaleidoscope—The paper grows with the college—therefore it should correspondingly adapt itself to the new situation properly by a new name. In keeping with the three colours, purple, white and gold, I would suggest renaming it the "Tricolor"—a symbol also of the academic, athletic and social items that it treats.

Paul Martin—Chatter Platter—Time and Progress wait for no one. He who hesitates is lost. Change and novelty are the essence of everyday activity. An old name changed anew is like a stormy night which after having rained itself out washes in a brighter tomorrow, full of sunshine and maturity. I would suggest "The Streamliner" or "The Golden Banner."

Margaret Ceresa—President of H.N.U.A.—Yes, I think that the name should be changed especially since our colours are now purple, white and gold.

Lou Veres—Captain of the Basketball Team—The name isn't original the way it stands now. The name should be representative of not only academic aspects but social and athletic too. The paper should reflect a more panoramic view of academic and non-academic activities not only on our own college level but with regard to provincial and inter-provincial levels.

Buster Piner—Editor of Ambassador—I have long proposed that the name should be changed. It is no longer descriptive especially since our colours are now purple, white and gold. Such an important publication should have a more dignified title.

Brian Smythe—President of the Drama Club—The college paper, in accordance with the growth of the college itself, should also adopt a different name of perhaps a more original and interesting title.

### WHO'S FAULT

Sam: "Did you hear about the donkey who broke his leg on the street?"

Joe: "Did they blame the driver?"

Sam: "No, it was the asphalt."

—Definition of a wolf: A big dame hunter.

## The Famous Fish Incident

A Freshman was overheard asking what the "FISH INCIDENT" was. Every upperclassman will remember the burying of Pete Randall's goldfish and the trial following; a big scoop for the P & W of '54. Shown above, are mourners who are paying respects to the beloved fish who were murdered by an ichthomaniac, who was never caught.

## TIME OUT

with LEIF

Well, here I am back at the old stand again after one of those really big holidays. Did I hear someone say that it's a wonder?

The first little interesting gem that we picked up since our return is that the Varsity Raiders started off the New Year with a bang by trouncing Aquinas College 86-51 (as if you didn't know). This seems to be heartening news after the dismal pre-holiday showing of our club. Let us hope that the boys will continue to improve and go on to greater things in the Inter-collegiate League which commenced last week. They can do it and much more easily if the great student support is kept up. In recent days Western and Toronto have both lost more games. Western was overpowered by Michigan Normal 85-55 while the Varsity Blues were downed by Alfred Univ. 70-53. The records show that the Raiders have the best record at the end of the season also. We again wish "Red" Nantais and the Purple Raiders the best of luck and hope that they keep at least one step ahead of the opposition.

Now we come to the second item of news which of course is more basketball. The intramural league got into action last week. The league should certainly feature some fine action if the opening games can be considered indicative. The two opening contests were real humdingers. The players in the league should be grateful to their hard working commissioner, John Elliott. John has worked long and hard getting the league organized and we feel that congratulations are in order.

FOR WHAT IT'S WORTH: This reporter was glad to note that Bill Dineen, the Red Wing from Assumption, has come out of his early season slump and has turned in some fine games in recent weeks. . . . The strong and the weak, the thin and the fat have started a weightlifting club (no, not at the D-H). The mounds of muscle meet weekdays at 4:30 under the gym. . . . The Assumption Crusaders see Tiny Tots have been playing some fine basketball in the preliminary games this year. They also boast an undefeated record. These fellows work hard and certainly deserve some support.

## Intramural Hockey Schedule Reopened

## FROSH TROUCE SENIORS

In the first intramural hockey game of 1955, the Freshmen whipped a tired, old, Senior team, 6-1. The hustling youngsters stormed the Senior goal for three straight periods, and only the brilliant reminding of Bernie Kelly kept the score down. George Shinnals led the attack with a hat trick. Ricky Valentini scored twice and Butch Lugli once, for the flying Freshmen. The four Senior tally was netted by Mike Robert. The win left both teams tied for first place in a tight race. The Seniors seem to be giving away to youth in the late stages of the season.

## JUNIORS EDGE SOPHS

In an early morning game, the Juniors barely overcame a hand-capped Sophomore team, 8-7, at the Windsor Arena. The last place Juniors were sloppy and lazy, but took advantage of opportunities, and overpowered the tired Sophs. The scoring was rapid in the wide-open game, as Ross McKinnon led the Junior attack with a hat trick. For the Sophs long Phil Eastace netted two pay-off shots, while Peter Devriendt was effective on defense. Scoring also for the Juniors were Leonard (2), O'Neill (2), and O'Connell (1). Frank Sheehan (2), Hogan (1), and Devriendt (1), tallied for the Sophs.

## Fred Thomas Seeks Revenge On Raiders

(Editor's Note: P & W Editor Paul O'Neill, while travelling to his home in Quebec City, ran into Freddie Thomas on the train. Freddie was travelling to Montreal with the Northown 98's for an exhibition game. The results of this meeting provide the material for this article.)

Freddie Thomas, former Assumption great athlete and member of the Northown 98's, who were recently beaten by the Raiders, stated to a P & W reporter that the Torontonians were eagerly awaiting their home game with Assumption on February 20. Thomas said that the Eastern Champions were indignant at the setback which the young collegians had dealt them and had vowed revenge.

## Thomas Out Early

Assumption fans will remember the exciting game in which the Raiders edged the 98's, 76-72. Unfortunately, Thomas went out of the game early in the first quarter with an injured knee. This was a tragic climax to the tremendous occasion given to Thomas in a pre-game ceremony. However, even without the fabulous athlete, the Toronto club put up a terrific battle which was filled with suspense to the final buzzer.

## Knee Healed

The Varsity Raiders travel to Toronto on Feb. 19 for a game with the U. of T. Blues at Hart House. The next day, they meet the 98's in their home gym at St. Michael's College School. Freddie Thomas assured your reporter that his knee would be fully healed for the game. This, coupled with the fact that the Raiders might be tired from the Blues game, should prove a formidable barrier for the Raiders to smash.

A large host from Assumption is expected to converge on the Queen city for this big weekend of basketball. From the look of things, Assumption will need all the support that they can get, at both games. Students who plan to see these games should be at the gym early, for sell-out crowds are expected. Even Hart House is expected to be filled.

## Lou Veres High Man As Raiders Rout Tommies 86-51

By PETER HOWLAND

Assumption's Varsity cagers rang in the 1955 basketball year with a resounding victory over the Aquinas College Tommies of Grand Rapids, Michigan. Amassing a total of 86 points, the polished Purple Raiders throttled the visitors' basket, holding the small but scrappy Aquinas squad to a mere 51 points. The purple pack exhibited strong rebounding ability and a good eye, hitting in 50% of their attempts from the field in a one-sided contest. About 1,200 fans witnessed a near perfect performance by the Varsity men and were visibly impressed with the action.

Captain Lou Veres paced the Raiders' attack with 16 points and some excellent quarterbacking on the court. Dick McKenzie was the sparkplug of the second half with nine points bringing his total for the night to 15. The "old reliable" Hugh Coyle, pitched 10 as did classy Howie Triano, Matt Borowicz added nine points, and little Eddie Chittaro pumped in four straight sets for a total eight points.

## Pucksters To Play Wayne

Intramural Hockey Commissioner, Mike Doyle told the P & W that an all-star team would play a home-and-home series with a team from Wayne University of Detroit. The games are expected to be played at the Windsor Arena. A method of picking the all-stars has not as yet been determined, but it is expected that the coaches and referees will constitute the voting board.

Doyle stated that this was a definite step forward for hockey at Assumption. The organization of a league for the students this year has been a success in spite of the great difficulty of obtaining ice at opportune times.

The games are to take place sometime early in February. Mike said that the hockey setup at Wayne was similar to that of Assumption and that they had contacted him and made arrangements for the series. Any who wish to see these games please see the next edition of the P & W for game time and lineups.

## Jobs!

Effective immediately the bulletin board near the men's locker room in the basement of the Science Building will be used exclusively for information concerning employment opportunities for students. Inquiries regarding available positions may be made to the Dean of Men, Fr. Hartmann.

The Executive and Professional Branch of the National Employment Service has just released the first list of positions in industry and business open to 1955 graduates.

George Joseph, Dick Kennedy, Larry Connorton, Charlie Collini and Bill Barleigh played creditably and contributed 18 markers to the Varsity cause. Outstanding for the Aquinas Collegians were Kobya and Mackowiak with 13 and 12 points respectively. Assumption's record now stands at four wins against three losses.

## Raiders Rip Rochester

The Purple Raiders journeyed eastward for a pre-holiday game versus the undefeated U. of Rochester Yellow Jackets. Inspired by the fanatical cheering of many Assumption alumni, students and friends, the Raiders, a 15 point underdog, upset the "doers" to gain a 71-67 win in a thrill-packed, fast-paced contest. Rookie Bill Barleigh entered the game in the final three minutes of play and tossed in six quick points which, when added to his sparkling defensive play, proved to be the turning point in a game that had been tied up nine times throughout the evening. Hughie Coyle sparked the Varsity attack with flashy ball handling and was high scorer for the Raiders with 16 points. Matt Borowicz and Lou Veres chipped in 11 and nine points respectively. Charlie Collini came through with eight for eight free throws.

## Bulls Trample Raiders

Playing at the U. of Buffalo the night after the Rochester contest, a game but weary Raider quintet tried in vain to match wits and brawn with the Buffalo Bulls led by "Jumpin' Jim" Horne who dunked 31 of the New Yorker's 82 points. The Purple Raiders, however, could only muster 61 points. Hughie Coyle being top man with 10. George Joseph had nine, Matt Borowicz and Dick McKenzie each had eight points to lend a helping hand to the tired Assumption cagers as the Bulls made it one and one on the road for the Raiders as they trudged off to their Christmas vacations.

## Modern Hair Cuts? On Sharing Date Expenses

When Charles of the Ritz and other leading hair stylists unveiled the creation which revolutionized women's hair styles, it seemed as though women were invading the animal kingdom. These creations were labelled the Pony Tail, the Poodle Cut, the Duck Tail, and the Boyish Bob. What made these hair styles so popular?

Let's take the Pony Tail first. Its simplicity and "easy-to-care-for-ness" led to its immediate popularity. With a Pony Tail there is no worry about doing hair up every night. All it requires is a good thrashing to keep it looking as satiny and clean as a horse's tail. For "dress-up," a rhinestone baret may be mounted as a horse's bridle or flowers may be placed over it in the fashion of the floral wreath to the winning horse at Santa Anita.

The Poodle Cut appeals to the more industrious girl. For hours of labour in curling it are rewarded by countless hours of pleasure with her uniquely created pet. How every working girl can attain the prestige of owning a poodle on her meagre salary.

The less ambitious girl who wants to "clown" in the short hair society turns to the Duck Tail. Its sweeping lines have put the duck to shame and girl's date's imagination to work. Each girl has her own particular reason for imitating that particular region of the duck.

"My but that boy has unusual curves." On turning around the person is observed to be the modern girl with that inimitable Boyish Bob. This is the answer to the bossy girl's prayer. When pressed for time, a wash cloth may be passed over it to give it that smooth gleam. And once in a while a shave around the edges preserves that clean "American Girl Look."

The most important factor which these hair styles have, is their distraction ability. When confronted by a shaggy mess of hair, a pony tail swishing back and forth, or a duck tail hitting you between the eyes, no normal person could possibly take note of the girl. Thus she may be very popular, detracting attention from her personality, talent, and disposition. If she learns to manipulate her Pony Tail, shake her Poodle, or wiggle her Duck Tail, then hers is the title "Miss About Campus."

A pertinent question among college students is how to meet the expense of the social functions on a limited financial budget. The importance of attending social functions is manifested in the advantages they have to the students. Social contacts are broadened and the groundwork is laid for the expectations of the business world. It is not possible to conceive of any occupation in this modern world wherein one will not come into contact with a person or persons. The person who is not familiar with the idiosyncrasies of individuals is definitely handicapped.

Bearing in mind the importance of social affairs, what can be done to allow the financially-limited student to share in the benefits? This perplexed student is usually of the male species since he is the one who pays the bills on the date.

The only practical solution is the sharing of expenses by the female; naturally the masculine ego would be offended by his date handing him a few dollars to defray costs. But when the B.N.U.A. sponsors a dance and the girl buys the ticket, the boy is not offended. In most cases, he is relieved since he has to buy a corsage, pay for the after-dance rendezvous, and the transportation. If the coeds are willing to pay for the ticket to a formal when they also have to pay for their gowns and accessories, surely they must be willing to pay for the tickets to other big informal dances. At these dances the financial demands of corsages, post-dance entertainment, and transportation are upon the boy.

Some may be so naive as to consider this a reactionary proposal. But the failure of the big dances is simply due to the lack of funds among the men of the student body. With the expenses of basketball games, bus dances, and movie dates, the financial straining is practically nil by the time major dances occur.

Since the girls obtain as much enjoyment as the men, would it be unsuitable to expect them to pay for part of the expenses?

Editor's Note: We would especially like to receive your opinions on the topic of sharing expenses of a date. The best letters of the men and women, whether in favor of or in disapproval of the proposition, will be printed in the next issue. All notes and letters may be left in the Purple and White office.

## Who Should Wear The Pants?

A very controversial issue is the topic for this time. From a recent survey on campus, there are many varied and pertinent views on the question, "Are women's clothes becoming too masculine?"

First we obtained a Freshette's view on the subject. "In general, I don't think women's clothes are becoming too masculine. School and date togs are definitely feminine because most girls dress to impress the males and do so with great ingenuity."

From reliable sources we know that the males appreciate girls who dress with femininity. Sports clothes such as levis, slacks, etc. do not suit girls. However, certain occasions may require such dress but this should be limited to very special occasions where dresses or skirts would be out of place.

It depend greatly on the individual but I think girls should retain feminine charm in all dress."

Eleanor Pare  
Fresh Queen

Now we have a Junior boy's view. Quote: "YES, I think that women's clothes are becoming too masculine since the women of today are participating in just about every field there is. Because of this, they also tend to wear masculine clothes to help show that they are keeping pace with the men."

John Elliot  
Basketball Commissioner

Another loyal woman's opinion fits in about here. Quote: "Women's clothes are definitely not becoming too masculine. For example, women who wear the new tailored blouses with French cuffs do not look masculine. Rather, they present a very tidy or well-dressed appearance. Ruffles are now being added to maintain femininity and prevent any harshness. Men who complain about this must keep in mind that women dress to suit the occasion. Therefore, for sports or casual wear her attire will take on a tailored, not masculine appearance."

Pearl Holland  
S.A.C. Secretary

These are just a few opinions on this subject. The purpose of this article was not to draw a conclusion, but to bring to the attention of the students that clothes are one of the important factors in the distinguishability of the coed from the male student. We should like to warn the coeds that this situation could very well be disastrous, or, at least, confusing.

## Our Lady's Statue Decorates Campus

A statue in honor of the Assumption of the Blessed Virgin has been erected on the London St. side of the campus as a lasting memorial to his wife, who during her lifetime often envisioned "a statue to the Blessed Virgin shining out from the college grounds," the statue was donated by Frederick D. Pearson, 2675 Sandwich West, to Assumption Church. Having lived in the environment of his wife's loving devotion to the Blessed Virgin, Mr. Pearson has brought her fondest dreams to reality.

Mrs. Pearson who died March 29, 1951 expressed the wish to both Rev. Donlon, pastor of Assumption parish and to her husband to have a statue erected, such that all passers-by could think and meditate on the

devotion and love of God's mother.

Assured that no ordinary statue could depict the significance of the dogma of the Assumption, a thorough world-wide search finally uncovered the desired replica in France. Weighing 10 tons, the monument is an adaptation of a painting by Bartholome Esteban Murillo, a 17th century Spanish painter.

As one of the world's largest and most beautifully detailed monuments, this masterpiece is a fitting tribute to the college grounds and a constant guardian to all who live and work in its shadow.

## W.U.S. LAUNCHES CAMPAIGN

### World University Service Campaign Begins

The World University Service (W.U.S.) was founded in 1925 and is today composed of students and faculty in 36 countries. International Headquarters are in Geneva. Its purpose is to help meet the basic needs of the university world through co-operative relief and educational projects. The organization is actively supported by UNESCO, the World Student Christian Federation, Pax Romana, and the World Union of Jewish Students. The Canadian committee of W.U.S. came into existence in 1939. It enjoys the patronage of the Governor-General of Canada.

#### W.U.S. Past Record

Since 1946 Canadian students have raised more than \$180,000 for W.U.S. programs providing health centres, text books, medical supplies and housing facilities for students in Europe and Asia. This organization has enabled more than 70 refugee and other overseas students to study at Canadian universities. It has organized and financed seminars and study tours for some 250 Canadian students in Europe, Asia, and West Africa. The Seminar and Study Tour participants selected from every university in Canada, have been encouraged to come to a sympathetic understanding of the problems of other nations, and their attitude to Canada. It is felt that in this way, future leaders of Canada will gain a realistic grasp of the world in which we live and of the nations on which Canada's future largely depends.

Stuart Wilson of Assumption journeyed to Scandinavia and England in 1954 as a Seminar and Study Tour participant.

#### Present Program

Student health is rapidly becoming a matter of great importance in Canadian universities, for without good health a student can neither be effective in his studies or his subsequent career. In Asia, health and housing are the two most important factors in the lives of university students. Eighty per cent of the students in Asia today are suffering from malnutrition. W.U.S. has made specific attempts to study how relatively small resources can be mobilized most effectively to raise standards of student health, so that measures taken by W.U.S. can be of lasting rather than passing value. From these studies, W.U.S. has concerned itself with providing facilities for preventive measures, for timely detection of illness through regular examinations and their proper treatment, and adequate housing and nutrition which are essential to raising and maintaining standards of health.

#### The Patna Project

The Patna Health Centre in Bihar State, India will endeavour to meet these requirements and to serve the 10,000 students of Patna University. The World University Service of Canada in co-operation with the Indian W.U.S. Committee is collecting funds to build this centre.

Modeled on the Delhi Health Centre which W.U.S. supported last year, the Patna centre will operate on the basis of a Student's Health Insurance Scheme. It will be governed by a registered body consisting of representatives from the University, W.U.S., and the State Government. The Centre will consist of examination rooms with adequate medical treatment, an x-ray unit, a ward for non-infectious cases and arrangements for minor operations.

The total cost of the project is estimated at \$33,750.

Patna University has donated the site for the health centre and the Bihar State Government is contributing \$16,250. The remaining \$17,500 is being raised on a 50-50 basis by Indian and Canadian students.

Assumption's quota is \$100 per student and will be divided between the Patna Health Centre and the Japanese Seminar. The money raised during the campaign February 7-11 will be put to immediate use.

#### On Campus Activities

Applications are now available in the Registrar's Office for The Japanese Seminar and Study Tour. An Assumption student will be chosen around the middle of February to travel to the Far East on this assignment. Further information about W.U.S. may be obtained from Stuart Wilson or Father Mulvihill. All students who are returning to Assumption next year are eligible for this scholarship.

### Drive For Funds Launched Monday

On February 7, '55 World University Service workers started canvassing the student body, person to person, in aid of its two major projects. These projects, this year, are Patna and the Japanese seminar for this summer. The goal set for this campaign is one dollar per student.

All canvassers will issue receipts to donors along with small Patna tags. We ask donors to wear these tags during this week as a sign of their participation in the WUS program.

The WUS committee here on campus is depending on the student support this year. In view of the effects of the Ford strike it will be that much more of a sacrifice and, therefore, that much more of a credit to Assumption, if they reach their WUS goal.

### NFCUS Sponsors Story Contest

As part of its policy to encourage young authors in universities across Canada, the National Federation of Canadian University Students is currently sponsoring a short story contest. Local contests will be held to select representative works to be submitted to a panel of judges consisting of three prominent Canadian men of letters. The best short story will be published in Liberty Magazine, the author being paid the magazine's standard rate. Second prize in the competition will be \$50.00.

In the local competition two stories selected by a faculty judge will be entered in the national competition. Students on the campus who wish to take part are asked to note the following contest rules:

1. Entries must be submitted to the S.A.C. Office by February 20.
2. Stories should be between 2,500 and 3,000 words in length.
3. Each story submitted should be accompanied by two photographs and a short biographical note on the author.
4. Stories will be accepted from any full-time or partial day student at any recognized Canadian university who had not passed his 23rd birthday on October 1, 1954.
5. Stories which have previously appeared in student publications and for which the author received no remuneration whatsoever, will be accepted.

**Lent Begins  
February 23**

### Which One Is the Horse?

It is hard to pick out the horse from this group of motley creatures, but you will find it fourth from the left. The rest are clowns who performed in the Homecoming parade. The clowns played leapfrog down Ouellette Ave. behind the fugitive from the glue factory.

They also acted as policemen, arresting beautiful young girls passing by and locking them in the jail float. Left to right: John Elliot, Phil Eustace, Gerry Carion, Man O' War, Mike Doyle, John Leonard and Bernie O'Neill.

### Doug Burns, NFCUS Head Addresses College Students

Doug Burns, president of the National Federation of Canadian University Students, stopped at Assumption Tuesday, January 25, on a nationwide tour of Canadian universities. Burns, a law student at the University of Alberta, is making this tour personally to gain a thorough knowledge of the students of Canada and to publicize the purpose and the activities of NFCUS.

At a tea in the Students' Union in the afternoon, Burns spoke to a group of representative students from the S.A.C. press and clubs of the campus. He outlined the history of NFCUS, its present role in Canada and the difficulties which it is meeting.

Mr. Burns was introduced and thanked by Dick Kennedy, president of the S.A.C., who later received a scroll emblematic of Assumption's membership in NFCUS. Later, the floor was opened for questions, which the national president concisely answered.

Doug, who has taken a year away from his law training to be a full-time national president, the second in the history of NFCUS, said that he is receiving a priceless training in executive and public relations work. He is presently living in Ottawa to be close to the head office at Carleton College. Next year, he will return to Edmonton to continue his law studies.

"NFCUS has had an impressive past," said Doug, "but its future should be greater. When it was founded it was not expected to grow to its present stature. The program set forth at the last conference is an indication that it will grow larger still. To realize this program, however, more interest must be stimulated in Canadian students."

### Osgoode Defeats A.C. Debaters

By means of pure oratorical supremacy Osgoode Hall defeated our debating team on the resolution "That Canada is a satellite of the United States of America." Although the material of Assumption's men was peerless, they lacked the polish and experience of the Osgoode law students.

Claude Thompson and John Arnold made up Osgoode's affirmative team which defeated our negative, Hamley Ford and George Hammerschmidt, by a slim 34 points at Toronto. Here, Bob Car-

### Fr. Clemens Hurt As Car Turns Over

On Sunday, February 6, Fr. Clemens, well-known teacher at Assumption High School, received multiple injuries when the car which he was driving turned over. The injuries were broken ribs, a broken collar-bone and a dislocated shoulder. Father Clemens is expected to be hospitalized for three or four weeks.

Father Clemens was returning from Irish Hill, Mich., where he had helped out in Parish work. The road was icy and the car skidded, rolled over twice and came to rest by the side of the road. Fr. Clemens was then taken to St. Joseph's Hospital where his injuries were examined.

Because of the accident the high-school play "The Caine Mutiny Trial" which was to open last Friday at St. Mary's Academy was postponed. Fr. Clemens was the director.

### Clown, Floats In Big Parade

The afternoon of the big homecoming game, Assumption students treated the Alumni and Windsor in general to a rollicking parade through the busy downtown section of Windsor and on out to the school. The students went all out to show the Alumni that they had spirit and knew how to put on a grand show in the heat college tradition. The parade was built around a basketball theme of "Beat McGill." On one float the girl cheerleaders performed against a background of a ball dropping into a basket. On another float, the male cheerleaders guarded a none too sturdy ball where the criminal McGill Redmen were carefully imprisoned. Still another depicted a classroom complete with a dunce, professor and students. The purple raider and his lady fair, elaborately garbed in laces, velvets and furs, treated the crowds to a gay Charleston along the long route to the school. A purple and white rocket brought up the rear of the floats but it was followed by student-packed gaily decorated bonking lines of cars. Although everybody in the parade was a clown, there were a few who were provided with the regulation uniform. There were five of these pranksters walking the parade route keeping spirits up and sides shaking. John Leonard led the whole shebang on a horse—the origin of which is still a mystery. Special thanks goes to George Tomlinson and the Young Christian Students (Y.C.S.) for their invaluable help in making the parade the success it was. Kudos to Peter Howland and Arthur Chin Lee for their splendid organization of the great homecoming program.

### Everyone Goes To Prom 23

Prom 23, one of the most glamorous dances of the school year, will be held on Wednesday, February 16, in the spacious Caboto Club, famous for its fine service. This social event, highlight of the winter season, is sponsored by the Sophomore and Junior class of the college. Matt Holli, the king of the Windsor juke boxes, with his orchestra is featured. Dancing will continue from 9 to 1. The negligible fee for this occasion is only two and a half dollars. Everyone is invited and should attend. Corsages are banned!

## Editorial

### W.U.S. Campaign

Last Monday, Stuart Wilson started on one of the most difficult tasks for any student: to collect money. The cause, however, should overshadow the difficulty. The building of the health centre in India which is being undertaken by W.U.S. is not a mere act of charity; it is a necessity; a part of the program which must be completed to give aid to the most crucial part of the world of our time. Help given is always returned by gratitude; and gratitude in this case would come in the form of friendship to the Western Nations. The friendship of India is vital in the present situation in Asia.

One dollar per student may seem to some students a large amount to pay for a project with no results visibly apparent to the donor. But surely the dire, desolate, bitter poverty and the deplorable health conditions of the Indian people do not have to be described. Thousands of Indians die every year who could be saved by a little sacrifice on our part. S.A.C. President, Dick Kennedy, who has been to India with W.U.S. will testify to this.

When the canvasser for W.U.S. asks you for a donation, give with a smile. Make a tough job easier. If you think yourself a cold-hearted business man, consider it an investment. If you think yourself a Christian, consider it charity. Nevertheless, GIVE.

### Visit of VIP

Recently we were honored by the president of the National Federation of Canadian University Students, Doug Burns. This was a notable event to many of the students about the campus; about 40 to be exact. For it is our opinion that no more than 40 Assumption students know what NFCUS actually is or what it does. Yet each one on the campus pays 50 cents to NFCUS every year. To the free-spending playboy type this may mean nothing, except, of course, two less bottles of beer this year. Considering, however, the entire amount paid by Assumption, the total of \$325, it is not such a light matter.

This is not a problem at Assumption alone but a universal one throughout Canadian universities, according to Doug Burns, national president. Our visitor, who has made a nation-wide tour does not blame the disinterested student as much as the press, for the situation. Doug claims the lack of co-operation on the part of the press of Canadian universities in giving NFCUS the publicity it should rate is the big factor. The editors seem to think that NFCUS is drab copy.

The Purple and White is not an organ of the NFCUS organization, but it is an organ of the students. We feel, therefore, that the students deserve to know what NFCUS is and how their money is being spent. We, the editors, therefore, have planned an informative article for the next edition condensing

## You Have That Hour

From the University  
Of Alberta, "Gateway"

At the beginning of every university session, much is made of extracurricular activities, to explain the motto freshmen, to tell fresh of their benefits and warn them of their dangers.

One aspect of them, however, has not been emphasized enough.

Extracurricular activities can be overdone, and the student whose marks suffer because he devotes too much time to them has no one but himself to blame. Yet it is the duty, not the right, of every student on this campus to participate to some degree in a student activity.

Student enterprises are more or less co-operatives. Mixed choruses, the symphony, telephone book, Evergreen and Gold, Gateway, Drama society, Radio society, and others—all these offer a field to students interested in them.

But in addition they provide to the general student body things that make the humdrum existence of studying a little more tolerable—a newspaper, a yearbook, musical and dramatic entertainments, and, of course, the whole field of intramural and interschool sports provides a wide entertainment field.

There's little or no pay for the students participating in these functions, and the fewer that take part, the more difficult their job. It is the duty of every student to participate in some student activity. Each is an integral part of the co-operative.

The excuse, "I haven't the time," is no excuse. There isn't one student on this campus who, if he were to keep a timetable for a week, would find he had not wasted at least an hour, or spent the hour in some way not beneficial either to his studies or student activities. And it is that hour per week that is needed from, and owed by, every student.

## Lukos' Team Hits High Single, 914

After 10 weeks of activity the Assumption Bowling League is still marked by fierce competition. The league leaders remain the same but the fight for the last few playoff positions threatens to continue until the final gun. The schedule ends in six more weeks and then the top eight teams enter the playoffs to determine a champion.

Andy Garlatti, of Nick Lukos' team, is the current holder of the high single and high triple with scores of 211 and 537 respectively. Lukos' team also has the distinction of holding the high team single of 914.

Team	Standings	Pts.
Moir (8)		33
Lukos (7)		31
Duchene (6)		27
Gray (2)		26
Lugli (1)		25
Murphy (9)		23
Donovan (3)		22
Oriowski (4)		22
DeVriendt (10)		21
Dickson (5)		9

## Crusaders Win Nine In Row

The Assumption Junior Five made it nine straight wins by defeating the Nacirema Club from Detroit by a score of 70 to 58. This was probably Assumption's toughest game of the season. The Crusaders were never ahead by more than eight points until the closing minutes of the game. Chuck Schiano led the Crusader cause with 20 points while Paul Metzger had 14.

### Trim Aggies

On January 29 the Crusaders made their first start in intercollegiate. Intermediate activity against the OAC Aggies. The Assumptionites showed their worth by trouncing the Aggies 73 to 37. Assumption built up a commanding 16 to 0 lead early in the first quarter which they increased during the remainder of the game. Paul Metzger and Chuck Schiano again paced the Crusader attack with 18 and 13 points respectively.

### 22 For Hool

In a previous contest the Crusaders overpowered Gilles United 70 to 50. The game was played under a defensive pattern for the first half and Assumption only led by one point at the buzzer. In the second stanza Jack Hool paced the Crusaders to a 48 point splurge. During the game Hool scored 22 while Metzger counted for 13.

## LETTERS TO THE EDITOR

### Revolted or Revolving?

Mr. Editor:

In your obnoxious editorial concerning the expenses of dating you invited comment and comment you're going to get. It would seem that the "gentlemen" on campus are of the opinion that it is time for the co-eds to foot the dating bill. I can almost feel generations of chivalrous gentlemen turning over in their graves. Man has always considered woman the weaker sex and she would certainly be proving this theory if she started to pay the bill for man's enjoyment. The well established practice of dating has always known the man as the money-spender and the woman as the free-loader, hence who are we at Assumption to change tradition. Of course, this mercenary female realizes that she must buy a ticket for a roundabout but it ends there. Assumption boys should realize that if they won't take a girl out, there are plenty of other fellows in Windsor who would be glad to.

Revolted.

# RAIDERS TOPPLE UNBEATEN ADRIAN

## TIME OUT

with LEIF

In the past few weeks there has been much muttering around Assumption. The cause of this talk, as everyone knows, is the failure of the Purple Raiders. This talk is strictly unnecessary and is certainly not helping matters any. The only way that the student body of Assumption can help the team is by keeping up their steady moral and vocal support. This is one of the best ways to bring a team out of a state of lethargy. Also, those who think that the administration does not realize the situation need have no fear. Father Hussey told this reporter in an exclusive interview, "Quickly and quietly the athletic administration is taking steps to remedy the situation." Rod Scott, the publicity director, has been constantly advocating that greater support will bring greater results. The team realizes its plight and should show us marked improvement in future games. In the past the team has helped the school, now it is our chance to help the team.

★ ★ ★

Before the Raiders face Western they play McMaster on February 25. However the one to point for is the Western game March 12.

At this writing Western has a five won, six defeat record but they are unbeaten in Intercollegiate competition. It is interesting to note that John Metras' squad has only dropped four Intercollegiate games in the last 10 years. Western is fortunate, as Assumption is, in having a complete squad returning from last year. In addition they have two fine sophomores, Rance Smeeton, a Windsor boy and the much-heralded Ray Monnot the 6'6" centre from Toronto Tri-Bells. This Western team is so packed that they can afford to bench their second high scorer from last year, Walt Karabin. This team looks like a good bet to cop the Intercollegiate championship, especially now, since our Raiders fell apart at the seams. We will still be behind them and pulling for them all the way, but the outlook is decidedly purple Mustangs.

★ ★ ★

Hockey history was made by Assumption College on February 2, at the Windsor Arena. Before an enthusiastic crowd of 50 people, the Assumption All-Stars swamped Wayne University 12 to 2. Although this game was only an exhibition, it was the first Inter-College game in which Assumption has participated. Everyone who made this game possible deserves a lot of credit for a job well done. We certainly hope that we have not seen the last of the All-Stars. According to Mike Doyle, the hockey commissioner, there will be at least two more games scheduled for our representatives. In future a larger crowd is expected, you won't be disappointed.

★ ★ ★

FOR WHAT IT'S WORTH: Congratulations to Rod Scott on his recent appointment to the post of publicity director for the Purple Raiders. You can make his job easier by giving the Raiders your full support. . . . Art Clune, popular hockey referee in the intramural league, recently played some games with the Windsor Bulldogs and turned in a very creditable performance.

## Pucksters Beat Wayne, 12-2

Assumption College made history Tuesday afternoon as the all-star hockey team blazed its way to victory over Wayne University in the first inter-collegiate hockey game in many years.

The men from Assumption started out fast and never let up, crushing their opponents by the score of 12-2. Stuart passing and fast play out-classed the Wayne team, with the forward lines of Pinnicia, Sisco, Lemay, and Fiasehetti, McKinnon, and Robert showing great finesse and accounting for no less than nine of the goals.

Kieftuk scored both goals for the underdogs each of which were assisted on by his line-mate, Tobias.

Claire Fiasehetti, with the last trick, led the scoring attack for Assumption while Terry Murphy and Dino Pinnicia each had two goals. Valentini, Sisco, Lemay, Robert, and McKinnon rounded out the scoring parade.

The game was marked by eight penalties, five given to the Assumption players—Cronin, Valentini 2, Lemay, Doyle, and three to Wayne players—Schmidt 2, and Tobias.

A return game is tentatively hoped for around the end of February and if the enthusiasm shown on the part of both spectators and players is any indication of interest, it will be a definite reality.

### Lineups

Wayne: Tobias, Stuart, Kieftuk, Finney, Waldham, Schmidt, Gouch, Benson, Hoggarty, McDonald, Rivers, Zak, and Heavener.

Assumption: Kelly, Cronin, O'Connell, Halloran, Valentini, Doyle, O'Neill, Murphy, Sisco, Pinnicia, Lemay, Robert, Ingli, McKinnon, Davy, and Fiasehetti. Coach: John Craddock.

## Raiders Rout Redmen

Assumption's Varsity cagers showed that they were still very much in the intercollegiate title race when they scalped the McGill Redmen before a cheering crowd of homecoming Alumni. Sparked by the stellar play of George Jovovic, who had 25 points, Matt Boro-weic and Chuck Collin who had 14 and 11 respectively, the Raiders avenged a previous setback by McGill.

Bill Burleigh, certain to take Rookie of the Year honors, exhibited polished ball handling and added nine points to the Raider cause. Hustling Eddie Chittaro, playing great ball, contributed another eight points as did Dick Mackenzie to end the game with an impressive 92-49 victory over the Redmen.

## Mack's Desperate Dash Decides

One thousand screaming, happy, delirious fans watched the Assumption Purple Raiders miraculously hand the Adrian College Bulldogs their first loss in 14 games last Monday night by virtue of the great play of Dick Mackenzie.

With the Raiders down 63-61 and the clock showing a scant four seconds left in a game which Assumption had led almost throughout, quick Dick Mackenzie stole the ball at half court, raced down for the tying score and was socked on the play by a desperate Adrian defender.

The crowd went wild! They hushed as Dick stood alone on the foul line to ready himself for the sole free shot which could win the game for the purple pack or send Assumption into overtime against the valiant Bulldogs who had rallied from a six point deficit at half time to hold a two point lead and almost an assured fourteenth straight win. St. Denis Hall was tense but quiet. Mackenzie bounced the ball, sighted his goal and SWISH!! Screaming students streamed over the court. Assumption had won 64 to 63! George Joseph and Matt Boro-weic who led the Raiders' scoring attack with 16 and 14 points respectively were borne aloft along with Mackenzie, Coyle and Captain Veres by the happy students who had witnessed a heart-stopper, a truly thrilling contest.

DR. SHIRLEY

## Dr. Shirley Mourned By A.C. Students

Assumption students mourn the unexpected loss of Dr. Quennie H. Shirley, instructor in Physics and Engineering, who died early Tuesday, February 2 at Metropolitan Hospital after an illness of three weeks.

A native of England, Dr. Shirley received her early education there and on the continent. She first became interested in electronics in the fall of 1943.

She enrolled as a student at the Detroit Institute of Technology and in a year she had obtained her B.Sc. degree. She displayed such brilliance that instructors persuaded her to take a more advanced course at the University of Michigan.

Her Master's degree came in 1946, after she had progressed so far into the higher branches of electronics that she decided to carry on her own research.

The Doctor of Philosophy degree was won in June, 1952.

She was credited with designing and building a new type of dielectric machine expected to revolutionize present methods of printing and coloring on flat and cylindrical surfaces. This device cuts down the time required to give a permanent finish to colors applied to glassware, pottery and china.

Dr. Shirley was the holder of numerous patents in connection with ceramic processes in Canada, the United States and England.

Dr. Shirley was an associate member of the American Institute of Electrical Engineers, the Institute of Radio Engineers, the American Association for the Advancement of Science and the American Institute of Physics—and four weeks ago she was elected to membership in the Professional Engineers of Ontario.

Her appointment to the faculty of Assumption College was announced in October of 1954 by Rev. N. J. Ruth, C.S.B., dean, director of the Physics department.

Funeral services were held Friday at 9:30 a.m. from Janisse Brothers funeral home and at 10 a.m. at Assumption Church with Father Ruth singing the funeral mass. Burial was in St. Alphonsus Cemetery, with members of her class at Assumption serving as pallbearers.

### NICE GUY!!

A staid gentleman, honorary judge at a horse show, was upset by the dress of some of the girls.

"Just look at that young person there with the poodle cut, the cigarette and the blue jeans," he decreed to a bystander, "is it a boy or a girl?"

"It's a girl," was the reply. "She's my daughter."

## Kaleidoscope Goes to Press

The first edition of a college magazine ever to be published by Assumption College went to press last week. The Kaleidoscope, as it is called, is a collection of poetry essays and other types of creative writing, by students here at Assumption. The date for publication was given as March 10.

The Editor, Harley Forden, who was News Editor of the P & W, last year, was extremely satisfied with both the quality and quantity of the material handed in by the students. He is also optimistic concerning the future of the Kaleidoscope, which is more of an experiment than an established thing.

Harley was grateful to the excellent and expert co-operation of his moderator, Dr. Stratford and his assistants, Mike Vuckovich, Ruth Hyde, Louis Podgorski, Evelyn McLennan and Alice Rittenhouse. The Editor and his staff deserve all the laurels which they undoubtedly will receive.

### C'EST LA VIE

Two Frenchmen named Rene and Maurice became embroiled in an argument over a young lady named Marie. At last they decided to settle their differences on the field of honor. It was to be pistols. At the appointed time the next morning, Rene arrived with his second and his physician. Shortly afterwards a messenger arrived with a note from Maurice.

"Dear Rene," it said, "am honey-mooning with Marie so don't wait for me—go ahead and shoot."

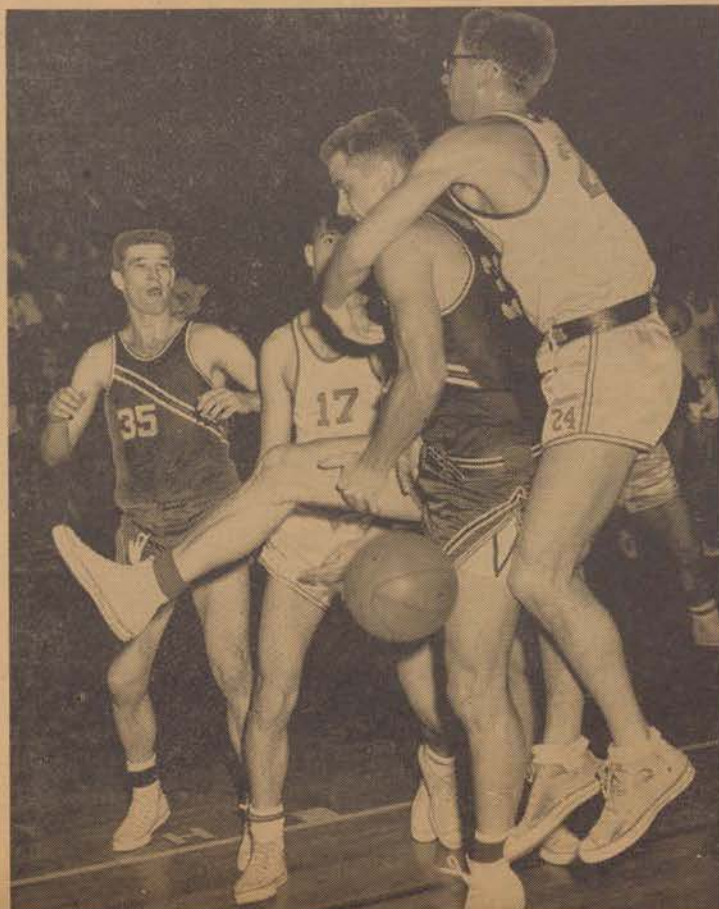

## McGill Students Vote To Quit Federation

MONTREAL—McGill University students voted 293 to 234 Thursday to withdraw from the National Federation of Canadian University students.

The reason given: Fees have been pushed up and now are 50 cents a student, compared with six cents in 1947, without a corresponding increase in the services of the national body.

The vote, by formal resolution, followed a two-hour discussion at McGill union headquarters.

## Get the Ball, I've Got the Man

Dick Mackenzie (24) tells Chuck Collini (17) to grab the ball, as he uses a choke-hold on the Omaha player. Few know that Dick wrestled bears at Niagara Falls before coming to Assumption. Omaha beat the Raiders in a slow game, 72-57.

## METZGER'S FOUL BREAKS 100

PRESS PRAISED FOR WORK

At a tea held in the activity room, the editors of the press outlined the progress of their work to the faculty and students. They expressed optimism regarding the future of their field at Assumption. The editors and their staff were praised by Rev. E. G. LeBel, the president, and Rev. C. P. Crowley, head of the English Department. The Dean of Men, Rev.

E. J. Hartmann, who was moderator of the Purple and White for five years, outlined the purpose of the press. Shown above are, seated, left to right, Paul Mason, Editor of *The Purple and White*, and Paul O'Neill, Editor of *The Purple and White*. Standing, Harry Jorden, Editor of *Kalidoscope*, and Angelo R. Fisher, Editor of the *Ambassador*.

## Raiders Net 104 Points For New Scoring Record

The Assumption College Purple Raiders smashed the old scoring mark of 98 points (set against D.I.T. last year) by amassing a total of 104 points against Tri-State College of Indiana. After holding a 49-37 advantage at the half, the Raiders increased their lead steadily. With the scoreboard showing a scant 90 seconds left, Paul "Odie" Metzger stepped up to the foul line to sink two free throws. The Varsity score was 98 points at the moment. Metzger's first shot broke the record and his next enabled Assumption to hit the century mark for the first time in its history. "Chokie" Joseph made it 102 with his two foul shots and Howie Triano added the final basket seconds before the final horn.

Dick MacKenzie played outstanding ball throughout the contest and stood as high scorer with 26 points. George Joseph was right behind Dick with 23 points. Hughes Coyle and Matt Borowicz with 16 and 15 markers respectively were the other Raiders to hit double figures.

## UN Delegation Has Accident

Five Assumption students journeyed to Montreal Thursday, February 10 to participate in a Mock Security Council at Sir George Williams College. Our delegation representing the Kingdom of Belgium were Bernard Maitre as spokesman, Nicholas Asare, Ryan Higgins, George Hammerschmidt, and William Grand.

Resolutions on International Trade, disarmament, U.N. membership, the Panama question, and changes in the United Nations Charter were discussed.

### Two Day Meeting

The initial briefing took place on Friday, February 11 with the registration of delegates and the registration supper, speeches of welcome by visiting dignitaries and then the first session began.

On Saturday, February 12 the second and last day of the Council, the delegates gathered for the final sessions and a Critique of the entire assembly. Mr. J. Hearn, U.N. Correspondent, noted that the Assumption group was "brisk and business like."

All meetings were held in the Montreal YWCA.

### Universities Present

Schools participating besides Assumption were the University of Toronto, Royal Military College, the University of Montreal, McGill University, Sir George Williams College, Carleton College, Orléans School and members of the United Nations Association of Montreal.

Countries represented were Belgium, the USSR, Britain, China, Brazil, New Zealand, Iran, France, Peru, Turkey, and the United States.

### Auto Crash

The Assumption contingent drove to Montreal through a hectic snow storm. Mechanical difficulty forced the group to remain in that city for two extra days. Ex-Assumptionite Robert Sozanski provided for the stranded students with an almost fatherly care.

Repairs having been completed, the group left Montreal on Monday, February 14 to return to Windsor. Driving through heavy snow early Tuesday morning, they hit a hydro pole which was blocking the highway. The balance of the trip was made via bus.

A benefit drawing and dance will be held in the near future to pay in part for the damages occurred.

The students proved to be well satisfied with their experience and returned more confident than ever of the immediate need for psychologists who, with their feet on the ground and their heads in the air, employ fully the discoveries of modern science in accordance with the principles of a time-proven philosophy of man. Indeed, the general theme of the convention seemed to indicate that modern psychology is gradually moving towards such a position of integration.

A noteworthy offshoot of the convention was Father Record's participation in a radio broadcast of a panel discussion on alcoholism.

## Raiders Stunned, 90-59

The Assumption Purple Raiders, very definitely having an "off night," could not withstand the Western Mustangs' emotional shooting and rugged rebounding, succumbing, 90-59, before a capacity crowd at Thames Hall, London.

Two hundred Assumptionites, including their Pep Band, found little to cheer about, but did so anyway, to make it a spirited contest. After George Joseph tied the score 6-6 in the early minutes, the purple pack was never in contention and were behind, 45-27, at the half.

The only bright spots in a contest which saw the teams' championship point scoring achievements credited to George Joseph and Dick MacKenzie.

Well, maybe next year.

## Election Date Set by S.A.C.

The President of the S.A.C., Dick Kennedy, announced that they had set the day for nominations of candidates as Friday, March 18. On that date, there will be an assembly in the gym at which nominations for all the posts on the council except that of Fresh Rep. will be accepted. The deadline for nominations will be 4 p.m. Elections will be held the following week.

## Bright Future For Librarians

An announcement from the Library School, University of Toronto, which should be of great interest to the prospective graduates, was received recently by Mrs. Hadow, College Librarian. The school of a one year course in librarianship being offered University students. This course, which leads to a degree of Bachelor of Library Science is being held at the Library School, University of Toronto.

In making the announcement to the P & W, Mrs. Hadow pointed out that, unfortunately, very few know of the variety of interesting opportunities offered in library work. There is a demand for librarians in research organizations, in industry, in government, and in business.

To further illustrate this statement, Mrs. Hadow told of the recent visit to Windsor of Miss Elizabeth Morton, president of the Canadian Library Association. During this visit, Miss Morton stated that there was a limitless field open to librarians, especially those with some training in science.

Mrs. Hadow also added that starting salary of the members of the Class of 1954 was \$2830. This year the average will likely be over \$2900 and with the ever increasing demand for librarians, there would certainly be no difficulty in obtaining a position.

## S.A.C. President Reviews Progress

Reviewing the accomplishments of the Student Council so far this year, I find two general features which define the nature of work carried out to date. In two words these features are—consolidation and progress. Quietly but diligently, your representatives have been strengthening the position of the S.A.C., plugging up loopholes, avoiding waste expenditures, and establishing a pattern—a secure mode of operation—for subsequent student councils to follow. Such is the task of consolidation. Progress has been realized in the field of school dances, in the distribution of funds, in the spreading of Assumption's prestige, and in several innovations.

Let us take a brief glance at the year's progress to date. The council began this year by drawing up a budget, to which, so far, we have adhered. Your money, your student fees, have been carefully administered according to this budget. Club grants have been awarded in a just way. No organization on campus has complained of lack of funds. This is rather remarkable when one thinks of the many activities that have occurred this year.

The drawing up and adoption of the present system of Central Financing is a great stride forward. Whereas previously funds were actually given to clubs, now the monies are retained in the one S.A.C. account, and the club grants entered on a ledger. A full description of this system is given elsewhere in the paper. It is evident, however, that with money channelled through one account, a close check can be maintained on all expenditures. This assures the student that his money is being properly spent. It also eliminates a multitude of bank accounts.

The high quality of dances held in the Lounge and the major semi-formal affairs needs no straining here. Everyone will remember the grand successes the Frosh and the Homecoming parades scored. (Bob Knuckle, Len Dietzen, Paul Hart, Pete Howland and Art Chin-Lee deserve credit for this.) Freshman Orientation Week was accounted the best yet, with the largest Frosh class ever receiving an enthusiastic introduction to all phases of college life. Assumption's name has become nationally known because of the extensive representation of our students at many university conferences.

World University Service, National Federation of Canadian University Students, Psychology, Canadian Federation of Catholic Col-

## A.C. Psych Club At Hamilton Meet

On February 4 and 5 a delegation from Assumption Psychology Club attended the eighth annual convention of the Ontario Psychological Association held at McMaster University. Representing the club were Fr. Record and seven students who are club members majoring in psychology: Lynne Toth, club president, Mary Kay Hinsperger, Donna Lrie, Charles Hickey, Paul Martin, Paul Roche, and Terry Hobbin. These attended each function of the convention which was divided into three symposiums on Friday and two seminars on Saturday. The most interesting aspect, however, was found to be the after-dinner speakers who were excellent.

The proceedings of the first day were held at the Royal Connaught Hotel. Three symposiums were conducted on "The Physiological Basis of Learning Theories," and "An Integration of the Social Sciences," by some of Ontario's leading psychologists. These discussions were for the most part well-prepared and contained excellent material. However, the philosophically orientated Assumptionites were rather dismayed and somewhat irritated by the persistence of these men in pursuing an empirical line of thought as an approach to every problem. By the end of the day they were "positively" frustrated but found relief in the after-dinner talk of Dr. Ketchum from the University of Toronto. Dr. Ketchum brought the audience its feet in a standing ovation with his humorous but forthright denunciation of the inadequacies of modern empirical methods in psychology.

On Saturday, a number of seminars were held morning and afternoon on the McMaster campus. The Assumption group went to one on "Modern Methods in Child Development" in the morning, and "Group Psychotherapy" in the afternoon. Saturday's after-dinner speaker was Dr. Magda B. Arnold who re-expressed Dr. Ketchum's general opinions in a more subtle manner. She was thanked by Father Record.

Through close co-operation with college authorities and two other organizations, the Student Council was able to provide a newly furnished Club Activities Room. Campus clubs now have a smartly modern place in which they can congregate.

### Continuity

In an effort to secure some element of continuity the Council purchased a filing cabinet and set up an elaborate system in which records of club activities, minutes, and so on, will be kept from year to year.

### Timely Retreat

The students are to be congratulated on the recent retreat. From all visible signs, it was an exhilarating success. The spirit of sacrifice and penance exhibited from the opening mass to the closing blessing and the rigid obedience to the silence rule could not but have accomplished their purpose.

Last year, the retreat was held later in the year. Holding it at the beginning of Lent seems to be a great improvement. It is said that in order to accomplish something one must start well. After a retreat, one should be able to maintain the spirit of penance more effectively. Since we constantly live in an atmosphere of material luxury under which the spiritual is sometimes buried, we find it difficult to reverse our manners suddenly and live in the spirit of penance required for Lent. With the help of the retreat it is much easier to raise our minds to the level of penance and thus make a good Lenten effort to prepare for Easter.

We could not help noticing the lack of sunburns which were so outstanding during the last retreat. The retreat of '54 happened to fall on the opening game of the Tigers and at a time when the sun was just opening. This was too much of a temptation for some students, who were also suffering from spring fever. The removal of this temptation by the change of time was an excellent move. "Candleburn" may not be more handsome than sunburn, but it certainly is more useful.

We would like to thank Father Dorsey for being so helpful in preaching an interesting and informative retreat. He helped many of us.

## Letters to the Editor

Dear Sir:

What are they up to now? Since Assumption College received university status and decided to confer the Bachelor of Commerce degree, this question has been asked on the campus many times.

"They," refers to the members (75 men—2 women) of the Commerce Club, which is now nearing its first school year of activity. The principles of the organization are to facilitate (1) field trips to industry, (2) social activities—in other words, to facilitate group activity (a necessary phase of university life) among commerce students.

These factors are most evident when one reviews the agenda of 1954-55. After the membership campaign during registration week, the first "Commerce Casual" was held on campus; this dance proved most successful. A "stag" preceded the tours of Imperial Oil and Polymer plants at Sarnia, Ontario. Then, the members toured the Goebel Brewing Company, Detroit, Michigan. The strain of the mid-term exams was offset with a plant tour and informative lecture conducted at Hiram Walker and Sons Ltd., Walkerville. Then followed a social evening at Thomas' Edgewater Inn where the Commerce Graduates received "Grads Plus." On the proposed agenda before final exams are trips to the Detroit Stock Exchange, Ford or Chrysler plants, and a tour for the graduates at the London Life Insurance Company, London, Ontario. And, there will be another "stag" to conclude the year's activities. At this time, on behalf of the Executive of the Commerce Club, I would like to thank our Moderator, Dr. G. Horne, and the Business Administration and Economics Staff instructors for their advice and co-operation, and those students who have assisted our projects throughout the school year.

Though, in our infancy, mistakes have occurred, we hope and trust that in the future, when the question is asked, "what are they up to now?" a spirit of good-will and respect is implied.

James A. Hester, Jr.,

President,

Assumption Commerce Club.

## Registrar's Reminders

Students who expect to graduate in December should consult the Registrar's Office as soon as possible to have their records checked.

The Windsor Junior Chamber of Commerce is offering two bursaries, with a value of one hundred dollars each, to male residents of the Windsor area who have completed at least one year of university work at Assumption College, and show evidence of academic achievement and financial need. Applications should be made to the Registrar before October 1.

The bursary offered by the Naval Officers' Association of Canada is a Windsor Branch, which is attached to H.M.C.S. Hunter, has been won by Alfred Levack, who is in the second year of the pre-engineering course. He is a member of the U.N.C.T.D., and was judged to be the best cadet in the first year in 1953-54.

## Employers Not Seeking "Book-Worm" Graduates

During the past few weeks, the college Director of Placement has brought to the campus representatives of a number of Canadian industries to interview prospective graduates of 1955 with a view to offering future employment. We might mention in particular the representatives of the Shell Oil Company and the Proctor & Gamble Company, who were much impressed by the superior quality of the students interviewed. Similar visits are expected during the remainder of the semester. Hence it seems fitting to offer some advice regarding things students should bear in mind when they approach a prospective employer.

The advice about to be given is based on information received from the Executive and Professional Division of the National Employment Service, which handles the job applications of university graduates all across Canada.

First of all, few employers insist on wanting only the top men of the class. Rather, the employer is seeking students who have done fairly well in their classes but who have also been active and prominent in extra-curricular activities. They feel that this type of student is apt to be a more mature man than the "book-worm" type, and therefore will probably be a more valuable employee, especially if he is to be trained for an executive position.

Next it might be useful to say a few words about the attitude the student adopts when seeking the position. One executive who annually hires close to 100 graduates is quoted: "One of the things I have noticed frequently in interviews is that many students do not put their best foot forward. They frequently appear in sloppy dress, and sometimes have concealed manners. Under such circumstances it is difficult to judge their real worth. Although I may be missing a bet, I just pass up the concealed chap, but the lad in the dirty slacks and a sweater or sport shirt might be just the one I want, but on account of his appearance I am a bit doubtful."

There is also a tendency among some of today's graduates to think far too much of salary, pension plans, holidays, etc., rather than of the opportunities of advancement if such is deserved. Employers definitely do not appreciate having an applicant thinking of his future pension on the day of applying to join the firm. It usually means that he is just not joining the firm.

Another quality employers ask for is integrity. Possession of this quality is difficult to prove until the man is actually on the job, but occasionally lack of this quality can be detected in advance. An instance would be when a student accepts more than one offer of employment and when he makes his final decision does not bother to notify the other employers that he is not coming to them. This may do little harm to the student in question, but it does incalculable harm to the reputation of his university and future job-seekers among its graduates.

The Assumption Department of Placement enjoys excellent co-operation from the National Employment Service, 441 London Street West, particularly from Mr. C. B. Howe, of the Executive and Professional Division. Undergraduates seeking summer employment or prospective graduates on the search for permanent employment are advised to register with Mr. Howe. Frequently employers direct to the Employment Service requests for employees to fill positions that are not advertised in the public press. Selections are then made from among the appli-

## A.C. Players Present One-Act Play For Press

On Wednesday, February 16, a group of the Assumption College Players, under the direction of Phil Drouillard, presented one of their work-shop plays at the Norton Palmer Hotel. The occasion was the monthly meeting of the Kinettes, wives of the Kiosmen, a local service club. The cast included Nancy Birchard, Diane Barr, Eleanor Pare, Don Biers and Don Snyder. Ed Long was the one-man stage crew.

The following afternoon this talented cast again presented the play, for the Assumption Press Association, and several members of the faculty. Both presentations were well received and brought much praise to the College and to the players.

cants registered with the Service.

All students are urged to consult regularly the Employment Bureau Board in the basement of the Science Building. Here will be found notices of all opportunities of employment which are directed to the College. Application forms for any such available jobs are obtainable from the Dean of Men.

To sum up briefly what Canadian employers look for when seeking new staff among university graduates, the following points are the most important:

1. A fairly good academic standing but not necessarily the top of the class. Of course, it does not hurt to be top of the class if the other qualities sought are also evident.
2. Evidence of some experience in extra-curricular activities which tends to add maturity.
3. Not too self-centred or conceited attitude when being interviewed.
4. A neat but not flashy personal appearance.
5. Not too much worry about the amount of starting salary as long as it is reasonably adequate.
6. An evidence of being interested in the chances for advancement, and a willingness to take responsibility.

ENJOY the best!

## TIME OUT

with LEIF

On Monday, March 7, the Assumption College Purple Raiders saw their last chance for Intercollegiate supremacy fade into oblivion. To those who saw the game no explanation is needed as to what happened in the humiliating setback of 90-39 which Assumption suffered at the hands of Western Mustangs. However, those who were not in attendance at Thames Hall might be interested to know that it was just one of those nights when one team was playing at its peak of perfection while the other was just going through the motions. It is interesting to note that Johnny Metras did not even have to depend on his unusually accommodating referee Dutch Decker to give Western an advantage in this one. One thing the Purple Raiders can do to salvage this season, partially, is to wallop the Mustangs on Saturday night. I know it would make three hundred staunch and faithful fans awfully happy.

\*\*\*

The unsung heroes of Assumption as far as basketball is concerned are without a doubt the CRUSADERS. They have practiced diligently all season with little hope for fame and glory but a chance to show all and sundry that practice plus fight can bring success on the boards. In their first year of Intermediate Intercollegiate activity they humbled the two other members of the diminishing league, OAC and McMaster, by garnering four wins without a loss. This in itself is noteworthy that they won the championship in their first year of league play. Another point worth considering is that Western Colts and Varsity Seconds seceded from the league rather than play Assumption's Crusaders. The Crusaders' overall season record was 13 wins and only one loss. Under the mentorship of Coach Frank DeMarco these boys polished off all opposition with apparent ease except in the case of U of D Freshmen. However they still almost upset the highly vaunted U of D squad losing by only two points in a closely fought contest. Throughout the season the Crusaders were led by such stalwarts as Paul "Record Breaker" Metzger, Charley Schiano, Neil MacEwan, Jack Hool, Rupe Cooke, Gene Dziadura and their high scoring guard K. B. Some of these boys may move up to the Varsity next season but there are plenty of talented boys left to replace them such as Gerry Kiser, John Finch, Paul Renaud, Paul Murray, Bill McCann and Pete Howland. Congratulations are in order for everyone connected with the team, even the managers, Mike "Tiny" George and Joe Zel, you all did a swell job.

\*\*\*

FOR WHAT IT'S WORTH: Rod Scott, popular publicity director for the Purple Raiders, is recuperating in the hospital after a serious knee cartilage operation. We hope that you are up and around soon "Kuke". John Metras, that wily man from Western, had enough foresight to take his own referee to Toronto with his Mustangs to prevent a recurrence of the fiasco that marked the Raiders' visit there. . . . It's too bad that Raider captain Lou Veres who has been on the limp for a couple of weeks, missed last week's record breaking effort. . . . Can the "Rocket" win the scoring title from teammate "Le Gros Bill"? It seems that the Sophomores are monopolizing all the intramural sport championships, a job well done. . . . Has "Adge" Metzger received any offers from the Globetrotters since his record-breaking foul shot??? Canada's theme song in the World Hockey Championship was Who's Afraid of the Big Bad Bear. . . . Congratulations to the victorious V's. . . . Overheard in the infirmary, "I've been so sick lately that my insurance man came and took back his blotters."

## Joseph Sets New Record

Assumptionites, mark the day February 18! On this eventful eve "Chokie" Joseph set a new intercollegiate record for most points scored in a single game with a brilliant 35 markers. Aided by Charlie Collini's 17 points and Dick MacKenzie's 15, "Chokie" left the McMaster stalwarts gasping, as Assumption rolled to an 83-65 victory over the Marauders at Hamilton.

## Varsity Victimizes Raiders

The Assumption Purple Raiders, handicapped by a small Hart House gym and hampered by the loss of five players via the foul route, blew a 10 point lead in the closing minutes to fall before the Toronto Varsity Blues 81-73. Though the cheers of a hundred Assumption students, who had journeyed to the big city for the contest, were in vain, the Purple Pack gave a good account of itself. MacKenzie and Coyle hit for 16 and 14 points respectively before they fouled out. Likewise captain Lou Veres (playing a tremendous game), Matt Borowicz and Chuck Collini, were forced to leave the playing floor. Without these formidable basketweavers, Assumption was unable to cope with a brilliant Toronto scoring drive which netted them the victory.

## Nortown Nailed

Playing their third game in as many days, the Purple Raiders showed the Toronto fans just what they could do with a full team as they trounced the Nortown 98-84. Any revenge (wow) that Freddy Thomas and his cagers desired was futile as Assumption completely throttled the Thomas' men. The Raiders were apared by Dick MacKenzie's fine defensive checking of the former Assumption star, George "Chokie" Joseph contributed 20 tallies to the Raiders' cause as the purple club made it two straight wins over the one-time Senior "A" champs.

## Marauders Mauled Some More

Spateheaded by big Matt Borowicz, 20 points, Assumption bounced back into the intercollegiate championship race by virtue of a 62-40 victory over McMaster at St. Denis Hall on February 25. The Marauders, fighting for their first league win made a game of it all the way, but the Assumption cagers were not to be denied a win that would enhance their chances of a championship. Hughie Coyle, Dick MacKenzie, Charlie Collini played smart basketball as did the "Rochester Rockets", George Joseph and Larry Cothorn.

## Nets 35

GEORGE JOSEPH

## Aquinas Falls, 72-59

The day following the McMaster game the Purple Raiders travelled to Grand Rapids, Michigan to face the Aquinas College Tommies in a return encounter. The hometowners were up for this one and held a 51-49 lead as the game entered the final 10 minutes. However, Dick MacKenzie and Matt Borowicz started scoring for 23 and 21 points apiece and with the Raider rookies Bill Burelgh, Jack Hool and Neil MacEwan holding the Tommies to a mere eight points in the final quarter, Assumption rolled to a 72-59 win which gave them a 13-11 record to rthe season with three games left to play.

## Intramural Standings

TEAM	Won	Lost	Tied

Frosh Science (Sabga)	1	5	1
Frosh Arts (Lang)	1	6	1
Navy	1	6	0

## Sophs Beat Frosh, Cop Championship

By RON IANNI

By virtue of their second straight win over the fighting Freshmen, the Sophomores emerge as the hockey champions for the 1954-55 intramural season.

The final game was a close fought contest which was finally decided by a 4-3 score. The winning goal came in the last three minutes of play on a smartly maneuvered pass play in which Dunn and Sisco assisted on Dino Pinnicia's 18-foot drive. Due to the severe tension of the final game tempers ran high and consequently eight penalties were handed out to keep the game in check. Murphy, Sisco, and Dupont were penalized for the Sophs with Murphy drawing a match misconduct midway in the game. The Freshmen were handed four penalties, Doyle and Suraci both receiving two. The Sophs scoring was well distributed, with Saffran, Sisco, Dupont and Pinnicia all notching markers. For the Frosh Butch Lugli denied the twine twice to lead the way while Valentini followed with a single.

In the first game of the intramural finals, the Sophs displayed championship form in trouncing their rivals by a score of 11-2. Dino Pinnicia led the way with a starry four goal effort.

The Frosh were handicapped by the loss of Nori and Cronin but nevertheless they conceded nothing in going down to defeat but their lack of reserve strength proved to be an insurmountable factor in their quest for victory. The Soph attack was spearheaded by the one-two punch of Pinnicia and Sisco, who accounted for seven of their team's 11 goals. Dunn, who notched two, and Sheehan and Saffran rounded out the scoring for the Sophs. The winners had only two penalties imposed on them and those went to Sisco and Sheehan.

Lugli and Carion managed to score for the underdogs while Doyle, Lugli and O'Neill were charged with minor penalties.

## Intramural Ball Nears Finish

This season the Intramural Basketball league has run into many unexpected difficulties as far as gym times are concerned. This has necessitated an improvised schedule but John Elliot, commissioner of the league is determined to decide upon a champion by March 17. Up until now the league has been strong with four teams vying for the league lead. This situation will probably exist until the final game. The big surprise is that the pre-season favorites, the Seniors, have lost two games and are tied for second place.

## The Woman's Side

By FRAN O'CONNOR

Although the girls' basketball team has had little or no publicity and has gone on apparently unnoticed of late, the girls have gone out to clinch nine victories in as many starts. It must be noted, however, that this success cannot be due to the students' support. On the other hand it seems as though constant teamwork and fine sportsmanship have made their contribution to this success. Could it be also that the newly provided purple and white uniforms have proven an incentive to these girls? We extend our sincere hopes for their continued prosperity.

Perhaps the most featured success to date lies in the defeat of Forster Collegiate girls, who until this past week have held first place in the Senior Girls' Intercollegiate race in Windsor. Added to this, the girls have chalked up victories over Assumption C.Y.O., Assumption Regis Club, Kennedy Collegiate, Patterson Collegiate, and Lowe Vocational. It must be added here that without Mrs. Elizabeth Thompson, (known as "She" to the girls), our indispensable coach, the team would never enjoy the success it does to-day. All due thanks and respect is extended to her.

There must be a sufficient reason for the prosperity of the team, and after we have introduced the team to you, we're sure you'll understand. First of all, we have Pearl Holland, President of Women's Athletics in the H.N.U.A., as well as captain of the team. Pearl comes from St. Joseph's High where she played three years of basketball. Her basketball fame here at Assumption can also be noted. Pearl holds a permanent forward position on the team.

Then there is Shirley Campbell, one of our night students. Shirley comes from Patterson Collegiate, with five years experience behind her. Her basketball began as far back as grade school, and at the present time holds a forward position, with Assumption.

Shirley Toussaint, one of the "smaller" members of the team has been known to give the competitors more than a little trouble. Shirley comes to us from Forster Collegiate, and though this is her first year of action, occupies a forward position—largely due to her speed and quick thinking.

Muriel Robinson comes from Assumption High in Detroit. There, she played three years of basketball and in her senior year was made captain of her team. This is Muriel's second year on the Assumption team and she can be found in forward position also.

Gayle Tobin's basketball playing also began in grade school. During her high school years she played for both Kennedy Collegiate and Lowe Vocational teams. She too holds a forward position.

March Marontate hails from Amherstburg, where she played for St. Rose High during her four years there. This is her first year of active play at Assumption and she holds down a forward position.

Fran Warren is another Amherstburg girl, and she also played for St. Rose High during her years there, when they held the WOSSA championship. At Normal School she was president of Women's Athletics. During her teaching career, she coached both the junior and senior teams at Immaculate Conception. At present, Fran holds a forward position with Assumption.

Gay Brash, also an Amherstburg girl, claiming St. Rose as her Alma Mater, played for their team during her high school years there. At the present time, Gay is coaching both the junior and senior teams at St. Rose, who are competing in the finals. Gay plays guard position with our girls.

Elaine "Nino" Bruce, another of the pint-sized members of the team,

## N.F.C.U.S.— What Is It?

The National Federation of Canadian University Students is the organization that acts as the representative of Canadian college students. This means that at the present time N.F.C.U.S. represents some 45,000 students. Its purpose is to bring these students closer together, to form a Canadian student community and promote the interests of Canadian students. N.F.C.U.S. proposes to this:

1. By promoting cross-country and international debates.

2. By setting up a system for exchanging students between various places.

3. By fighting for the distribution of the Federal Government of some \$3,000,000 in scholarships, bursaries, loans, etc.

4. By obtaining a student reduction of between 15 and 35% on the cost of sporting goods.

5. By obtaining a student reduction on train fares.

6. By obtaining a reduction on play royalties for students.

7. By having the sales tax removed from textbooks.

8. The Canadian University Press, was formed by N.F.C.U.S.

9. N.F.C.U.S. sponsors a national short story, and a national art contest.

10. N.F.C.U.S. operates a travel bureau offering low rates for students travelling to and in Europe.

11. N.F.C.U.S. arranges national and international seminars and international student exchanges.

N.F.C.U.S. should be of vital interest to all Assumption students for it offers an opportunity for making contacts with students from all over Canada and discussing mutual interest and problems. It offers an excellent opportunity for increasing the prestige and recognition of Assumption on other camps.

Assumption entered N.F.C.U.S. only last year so N.F.C.U.S. is still in an organizational stage. All the college students here automatically paid membership fee in N.F.C.U.S. along with their tuition. So to get the most from your investment do all you can to help N.F.C.U.S. become one of the leading organizations on campus.

has proved to be worth her weight in field goals. She has played for St. Clare's High for three years and is an excellent player.

Ficky Tkach hails from Walker, where she played basketball for five years. Virky also takes a guard position with the team.

Sheila O'Rourke comes to us from St. Mary's, where she played intramural basketball for four years there. This is Sheila's second year of action with Assumption, and she also holds down a guard position.

Last but by all means not least, we find Marilyn Miller who also plays guard. Marilyn played for three years in the church league with the Synagogue, during which time they held the all Ontario Junior "B" championship.

I'm sure that by now you have reason enough for the outstanding success of the girls' basketball team, and we hope you'll show your appreciation for their tireless work by your support at all home games!

## S.A.C. PRESIDENT

(Continued from Page 1)

By providing such a record it is hoped that clubs will profit each year on the succeeding year's work. Besides the care required in maintaining the filing system there is a great amount of other paper work to be done. The S.A.C. office receives an average of 20 letters a week which must be answered.

### Club Associate

Approximately every month a meeting of representatives from every club on campus is held, under the chairmanship of the Vice-President of the S.A.C. Correlation of activities and Student Council directives are effected at this meeting. All forthcoming events are presented to the chairman who puts them on the Student Council Calendar. Conflict of club activities is thus avoided.

To summarize: this year thus far has proved one of solid progress. Speaking for myself, I should like to say that the enthusiastic cooperation, industriousness, and perspicacity displayed by every member of the Council has made my task as president a pleasure. The S.A.C. is particularly indebted to our moderator, Father E. C. Pappert, for his guiding guidance and many helpful suggestions.

Richard F. Kenney (President)

### Central Financing Method

1. No club may have a bank account. There will be a separate page in the Treasurer's ledger for each club receiving a grant from the S.A.C.

2. (a) Any money needed by a club will be given out by the Treasurer and his co-signer (the moderator of the S.A.C.) at their own discretion as directed by the S.A.C. within the amount of the grant awarded to the club.

(b) Not more than one-half of the grant may be taken by a club during the first semester.

3. At the end of the first semester and at the end of the school year a complete financial report must be submitted by each club to the Treasurer to account for all funds administered by that club.

4. (a) All funds according to a club through an activity are to be deposited in the treasury of the S.A.C. Such funds will be credited to the club's account as money for their use over and above their grant.

(b) Funds raised by a club by private subscription, loans, etc.,

deposited with the S.A.C. treasury and may be withdrawn when needed for a purpose determined by the executive of the club.

5. Any club which has proved itself to be an actively functioning club, contributing much to student extra-curricular activities at the College and having a reasonable amount of student participation, and, in the opinion of the S.A.C., having brought some measure of prestige to the College, such a club will be allowed to hold a banquet at the end of the school year, the necessary funds for such being taken out of the club's S.A.C. account, exclusive of the original grant, unless so voted by the S.A.C.

6. Any Club fulfilling its program and making a profit for the year, over and above its grant, and, in the opinion of the Council, deserving it, such surplus funds will accrue to the club the following school year.

## CO-ED CAPERS

By MARILYN MILLER

It is always interesting to know just what the past grads are doing.

Ten women graduated in the 1954 June graduating class and all have taken their place in the world of opportunity.

Detroit seems to be a popular site for the '54 grads to seek employment. Roseleen and Gwendoline Melotte are working in a Detroit hospital while Joan Robinet and Patricia Adams are employed in a downtown office building. For Pat, wedding bells are not far off—September and then she will have "steady" employment.

If you go over to the Registrar's office and want your time table checked, Margaret Richardson, a '54 grad may help you solve your problem. Another '54 grad on campus is Barbara Loughheed, who manages the Bookstore. (I'm sure we've all been in the bookstore and watched Barbara rush about getting a book that we needed.)

Eileen Kelly, Kathleen McKay and Mary Richardson have all found work here in Windsor. Eileen has decided to make "children story-telling" her career. She is working at both Willistead and John Richardson libraries, children's department, and is planning to attend Library School in Toronto, next year. Miss McKay is interested in social service work and that is how she is employed. Mary Richardson is employed by the Bell Telephone Co., in the downtown office, where she is working with other Holy Names Alumnae.

One of the '54 grads has decided to make teaching her profession. Bettyjean Holland is attending Ontario College of Education in Toronto and then plans to teach high school physical education and English.

All these graduates worked studiously while in college and gained their B.A. degree. Now they have good positions and find that the insight into matters that they received while in school has been valuable.

Good Luck to them all!

Elections are just around the corner, with the nominations this week and the elections the next. H.N.U.A. offices which will be filled are President, Senior Representative, Junior Representative, and Sophomore Representative. Since athletics have become such an important part of the program, the Athletic Representative will be elected this year along with the other posts, instead of next year.

To have a good and experienced 1955 H.N.U.A. Council, voters must go to the polls and vote carefully—after all, the girls elected will serve you for an entire year. So let's think before we cast our ballots.

# 90 PER CENT CAST BALLOTS

Student Council for 1955-56

A rabid election campaign which featured entertainment, speeches, gifts and signs ended on election day when a new student council was chosen by the student body. A record 90 per cent of the students turned out to vote as candidates stood by, nervous and expectant. After a comparatively disinterested beginning at the nominations assembly the campaign picked up to a frenzy and had its climax at the counting

of the votes. The above candidates were chosen for office; seated (left to right), Robert Knuckle, First Vice-President; Charles A. Schiano, President; Iris Savchetz, H.N.U.A. Rep. Standing (left to right) Leonard Dietzen, Second Vice-President; Peter Howland, Junior Rep.; Bill Stephan, Sophomore Rep.; Bernard O'Connell, Senior Rep.

## Warden Ambassador To Japan Seminar

Assumption's representative on the World University Service study tour and seminar this summer was chosen recently. From 10 applicants (the greatest number ever to apply here), members of the faculty plus our local W.U.S. committee selected William G. Warden of Ingersoll, Ont., for the honour. Of the three tours offered, Bill has chosen to be one of the 20 Canadian and seven American students to visit Japan. Paula Clary of Riverside, Ont., selected as sub-delegate, will take over in the event that Bill is unable to go.

"Mr. Warden," as he is known to his English students at Assumption High School, graduated here as an English major in 1950. After teaching two years at St. Mike's in Toronto, he returned here in 1953 for postgraduate work in modern drama. Upon returning next fall, he will complete his work on his M.A. At the same time he will put his talents and experience to work in acquainting us, through talks and articles, with the problems existing in "the middle that is the East."

At Koyasan, a Buddhist monastery, orientation will last four days, a two week study-tour of the country following. A jolly week of toil will then prepare the group for the two week seminar on "The Responsibility of Higher Education," at the International Christian University near Tokyo. Before returning, they will enjoy a week to spend as they see fit.

### Alternate Tours

The seminar topic of the tour of West Africa (May 14 to Sept. 14) is "The West African Background." This group of six will be orientated in England and will pass through France to visit the Gold Coast, Nigeria, French West Africa and Liberia.

The other group will see the West Indies (June 21 to Sept. 14). The

seminar topic, "The Emerging Caribbean," will be based on knowledge gained in Cuba, Haiti, Puerto Rico, the Dominican Republic, and Jamaica.

### W.U.S. On Campus

A national and international organization, the Service has two main objectives: to further international understanding on the university level, and to provide relief in war-torn or backward countries. The second in such campaigns as our Assumption group promoted in January. The hundred and fifty dollars thus acquired was one of the many contributions which made possible such monuments of goodwill as the W.U.S.-built T.B. Sanatorium in Patna, India.

## Glee Club Plans Musical Treat

The Assumption College Glee Club is holding an evening of musical entertainment on Sunday, April 17 at 8:30 p.m. in St. Denis Hall. The club and other student entertainers have been working hard for a considerable time in order to prepare an excellent programme for this—their entertainment night.

Many students were surprised at the excellent quality of the work produced by this club which has been so recently organized. At the Campus Forum they had a chance to hear what long hours of practice and intense interest were capable of producing. The public has realized what a splendid club Assumption has and invitations to sing have poured in. In order that all the students and the general public of Windsor could hear and enjoy the beautiful music of the club and other student musicians, the evening of music was blue-printed and now is an established fact for April 17.

Assisting the club in the programme will be Miss Barbara Craig and Miss Delores Costello. Miss Craig is a well-known Windsor pianist and Miss Costello is recognized as one of Windsor's rising young singers in local music circles.

The Director of the Glee Club, Mrs. Violet Webb Leach, will join with Father Maillois in a piano and organ duet. They will also accompany the Glee Club in several of their numbers.

The programme promises to be entertaining for all tastes in music. There will be an intermingling of musical comedy with Easte religious music. Students should certainly take this opportunity to enjoy an evening of superb entertainment.

## New SAC Prexy Sets Future Policy

"Dear Students:

"The elections are ended. We, the students of Assumption University should be proud of the clean, hard fought, sincere campaign efforts of our candidates. Completed are the labours of campaigning yet the work has just begun. Speaking for next year's S.A.C. we will strive for an active, honest, and efficient council.

"We, on the council, would like to follow the "Open Door Policy," for the coming year. The main tenets of the policy are:

1. The ideas put forward by candidates during the elections will be regarded as suggestions to the student body. If a particular idea appeals to a student, he should approach his Class Representative and ask for action on that particular idea.

2. We would like to continue the policies of this year's S.A.C. improving on these policies when and wherever possible.

3. We, the Council members, are the representatives of the students. Therefore, we will always welcome any ideas, suggestions, or criticisms of the students.

Through such a policy, all the students, both men and women, would be adequately represented. The success or failure of such a policy lies with the students. Next year's S.A.C. possesses the zeal of a patriot, the enthusiasm of a rookie, and the ability of a champion. If we, the students give them our confidence and by following the "Open Door Policy," we can be assured of a successful year intellectually, culturally and socially."

Sincerely,  
Charles A. Schiano  
President-elect

## Chas. Schiano New SAC Head

Charles Schiano, a junior from Rochester, New York, was elected on March 24 to the Presidency of the Students' Administrative Council of Assumption College.

Pledging an "Open Door" policy, Mr. Schiano swept into office over his only opponent, Rupert Cook, who put up a brave but unsuccessful fight. The new president brings with him valuable experience as both a Frosh and Junior Representative and as the Intramural Football Commissioner.

### New Executive

Capably supporting President Schiano in the 1955-56 Executive will be Vice-President Robert Knuckle of Pep Band fame who emerged victorious over candidates Frank Novak and John Elliot.

Bernard O'Connell defeated John Craddock in the contest for Senior Representative. Mr. O'Connell served admirably as Business Manager of the Assumption Purple Raiders this past year.

Peter Howland will hold the office of Junior Rep. in the coming year, having bested both Frank Sheehan and Bill Rose in a close contest.

This year's freshman elected for their Sophomore Representative Bill Stephan. This gentleman swept all his opposition before him in the proverbial landslide. Unsuccessful opponents were Al Lugli and Ray Sakay.

Leonard Dietzen, the present Junior Rep., has been appointed to the office of Second Vice-President in 1955-56.

Iris Savchetz in an earlier election heads the Holy Names Undergraduate Association.

### Lively Campaign

Veteran observers remarked that this year's campaign was one of the most active ever seen on campus.

Highlights included a huge Schiano Assembly featuring such talent as Frankie Castro, the Quintones and Marie MacDonald, with Tommy Barrett as M.C.

Aside from a free and lavish distribution of Borden's Ice Cream, Coca Cola, cake, personalized cigarettes, all candidates displayed colourful and ingenious methods of advertising their platforms. Posters, flags, pennants, printed cards, blotters, personal phone calls and the ever-present handshake were everywhere.

Election day was very orderly with approximately 88 per cent of the student body exercising their franchise.

Shortly after the results were made known, the greater part of the student body, both victor and vanquished retired to the Dominion House, a local restaurant and snack bar patronized by the College crowd for an evening of festivity and congratulations.

## Mambo Maniacs' Mad Mixer

The Mambo Club will hold its first annual dance on Friday, April 22 in the Student Union. President Ed Salga announced that this endeavour is being made in the hopes of hastening a greater interest in Latin American dancing at Assumption. Highlighting the evening will be a Mambo dancing contest open to all members of the club with prizes to be awarded by five competent judges to the winning couple. Admission to the dance will be 30 cents a couple and 35c stag.

## Editorial

By Ripley

Last week, we were exceedingly surprised, to say the least, to learn that Assumption College has no official publication, that is, no newspaper. This enlightening fact comes to us, the editors of the Purple and White. To all those interested, the Purple and White is the official newspaper of Assumption College. If you wish to know more about this newspaper, kindly read on through these pages; they are the best source for this information.

Apparently at least two people are unaware of the fact that Assumption has a newspaper: the editor of the Western Gazette, that sterling newspaper that is rumoured to be the official publication of the University of Western Ontario, and Stanley "Red" Nantais, the brilliant coach of our Varsity basketball team. In one of the past editions of the Gazette through which we were browsing, we noticed that an Intercollegiate Basketball all-star team had been chosen. George Joseph was chosen for the first team; this was happy news. However, it also stated that the all-star team had been chosen by the College newspapers of each competing team, except for Assumption, who had no official publication. Red Nantais had cast this vote. This news was not so happy. In fact, we are both insulted and hurt. Through the entire year, we have supported the Raiders to the best of our ability. We feel that we at least deserve the right to vote as Assumption's newspaper as the other papers did for their team; other papers who have not been as avid in their support as we. Maybe Mr. Nantais has a different opinion. We hardly think that Red acted out of ignorance, for if you turn to page four, you will find an ad which bears the name of Nantais, he must know that the Purple and White exists.

We are not blind enough to think that this was done purposely to offend us. Nevertheless, we are offended. Whoever has made the mistake, has done an excellent job on that score.

\*\*\*

### Tell Us

When anyone asks you what you do you automatically say, "I go to Assumption."

As you say "Assumption" you accept the fact that the word "Assumption" represents a great portion of your present daily life and a good part of your future life. Yet... as much as that word reflects on you, you reflect on it—but only by taking a positive part in its functions do you reflect on it favourably.

A peerless example of the way this comes about is this newspaper, the "P & W." It circulates to all other Canadian universities, to some U.S. universities, and to many Alumni. It shows these strangers the status of our campus. These strangers rightfully feel that you make it what it is. And you do.

Perhaps you are one of those who feels it lacks something, feel it isn't representative, that the news is stale. If that does happen to be true, you can blame no one but YOURSELF. It IS YOUR paper.

No, you don't write for the paper, but you at least cause what is written in it. First, your activity makes the copy, then your approval or disapproval of it decides its worth. Further, the very fact that you do sit back, appraising and criticizing it, proves that you do feel a responsibility for it and that it does reflect you.

Now you say, "SO WHAT."

Just this: if those responsible for issuing the paper never receive your ideas, suggestions and criticisms, (let alone your active help), they can never reflect your feelings or produce the quality you may expect.

The paper needs those ideas that flit through your mind, and of greater importance, it wants them.

So—take the next ten minutes—jot down your ideas and criticisms, then slip them under the S.A.C. door, (or just leave them on a chair in the Lounge.)

DO IT... NOW!

## GUEST EDITORIAL

### A Philosophy of Reading

by JOHN MacPHERSON

The intelligent reader, the one who eagerly seeks an understanding of moral values and those evasive principles of literary teleology, should try to develop and apply a philosophy of reading. This is, of course, particularly difficult for the scope of literature is so broad, yet it is necessary if the reader is to derive the most satisfaction and edification from his reading.

It is never really easy to state specifically just how and why something ought to be read. Too often we are led into reading a literary work which has been described on the blurb or by the reviewers as providing a challenge to its readers. A good percentage of such literature offers no challenge whatever, but is nothing more than downright subversion and a breeding ground for cynicism. Here there is no challenge, for a challenge suggests some sort of equality between contestants, and a book which is aimed at undermining the standards of the reader is a treasonous activity. Challenge, because of its misuse, has become a dirty word no longer favoured in reputable literary circles.

On the other hand, and partly because of this abuse of challenge, many readers are of the belief that any literature that sets them thinking, puzzling, providing insights and views without an apparent solution, is evil. This, of course, is nonsense, and a little thinking while reading can be a very laudatory thing.

Actually this is a case of a little knowledge being a dangerous thing. The average reader has a variety of hazy opinions on numerous subjects which he has heard about through newspapers, radio, and television. Then one day he picks up a book in which one of these ideas is expounded. He becomes bothered and begins to think about it, and the vision and conclusion he receives is relative to the forcefulness of the book. Immediately the idea becomes practical and infused with a reality which the reader never before imagined.

This then is a legitimate challenge. It offers the reader an opportunity to broaden his limited outlook on things. It is possible that the reader might cast aside such a book through ignorance, and declaim it has propaganda, filth, or evil. If, however, such a book is read without prejudice, the reader will undoubtedly benefit, simply because he has climbed out of his rut of lazy thinking.

Good literature need not be explicitly didactic, but if it is of any worth at all, it will cause the reader to think and then to question. This is a valid challenge, and by questioning our old beliefs, opinions, etc., one can arrive at a deeper and wiser understanding of what they meant and what they mean now. Our concepts must grow if we are to grow and mature rationally and intellectually.

If the reader learns to read with a questioning attitude in order to get answers he will become aware of the creative aspects of literature. From the author's position literature has always been creative, but for the reader, this creativeness is contingent upon the effort he must exert if he is to read intelligently and beneficially.

After all, literature's first and formal end is "rational pleasure."

John MacPherson, the guest editor is a former editor of the Purple and White, serving in that capacity during 1951-52. Graduating in Social Studies in 1953, John returned to Assumption College, where presently he is completing studies for his Master's degree in literature.

In conjunction with Windsor's recent centennial festival, John was research director and editor of Souvenir Centennial Picture History and Program, and he was also a contributor to Garden Gateway to Canada. Periodically, he contributes book reviews to the literary page of The Windsor Daily Star.

In recognition of his contribution to Windsor centennial, John was awarded a special citation by the city last Fall. Keenly interested in the study of the Middle Ages, he had the honour, last June, to be nominated to the Medieval Academy of America, an honour seldom accorded a student.

## Letters to Editor

At this, the close of the school year the drama club thanks all the students for their wonderful support throughout these past eight months. On Tuesday, April 5, we closed out our very successful season with our annual one-act festival in St. Denis Hall.

We have completed our busiest year, I think, starting with the fall production of "Shadow and Substance." The three performances of this Irish drama were received so enthusiastically that we consequently presented it at Hotel Dieu, St. Ignace College in Adrian, Mich., Marygrove College in Detroit, University of Western Ontario, and at Mercy College in Detroit.

Paralleling this major production, one of our student members, Philip Drouillard, was directing a one-act play called "The Flattering Word," which was first presented at the official opening of the revamped Drama Workshop in October. This also proved so popular that it was played for the knettes in Windsor, at the Mercy College Drama Festival, for the Church of the Ascension, at the College Staff Banquet and at the annual Press Conference here.

In early February, through the efforts of Rev. C. P. Crowley, our Faculty Moderator and Director, the College obtained a weekly radio program over Station CJSP 710 on your dial, in Leamington and to the success of this program many individual members of the Drama Club have contributed.

And so, again, thanks to you, the students, to our excellent partner, the Purple and White, for its coverage of our work, and to the faculty for letting us do so much even if they are going to fail all of us. Good-bye until next year and have a good summer.

J. Brian Smyth,

Pres., Assumption Players

Mount Allison University  
Sackville, N.B.  
March 23, 1955

The Editor, Kaleidoscope,  
Assumption College,  
Windsor, Ontario

Dear Sir:

Thank you for the copy of your magazine, which I have just received. As a Western alumnus, I like the touch of purple and white on the cover. I like the poetry inside. I haven't yet taken time to read the prose, except for the review of Graham Greene's "The Living Room." Please convey my congratulations to Mr. Warden for a finely balanced, perceptive, and well argued critique—and to yourself and all your staff for a trim and attractive publication.

Yours very truly,

C. F. MacRae

W. M. Tweedie, Prof. of English  
and Acting Head of the Dept.

## Queen Candidates

### Betty Sheridan

Betty, a 21 year old senior at Assumption, comes to us from Peck, Michigan. This past year, while carrying a good scholastic average, Betty has performed with the Assumption Glee Club, held the position of Corresponding Secretary on the Students' Council, and has been President of the newly-formed, Creative Arts Club, which has been very active on campus this year.

### Lynne Toth

Lynne, also a senior student, was president of Assumption's Psychology Club, and an active member of the A. U. Glee Club. Even though she participated in this variety of extra-curricular activities, Lynne, who comes to Assumption from Harrow, Ontario, has kept well up in her studies. She is majoring in psychology and intends to follow this field after she graduates.

### Fran O'Connor

Fran is attending Assumption as a Freshman this year. Fran's talents as a pianist were very well displayed at Assumption's Lenten Forums this year. She has also been seen singing with Assumption's Glee Club, and carrying out her work as columnist for Assumption's paper, the "Purple and White." Any of Fran's professors will affirm her friendliness as well as her proficiency in the scholastic vein.

### Marcia Marontate

Marcia is a sophomore from Amherstburg. She starred on this year's undefeated Assumption Girls' Basketball team. Marcia, who has an outstanding scholastic average, belongs to both the History and French Clubs. She was also a candidate for Junior Representative on the H.N.U.A. Council. Marcia plans to teach after she receives her B.A. She is very interested in History.

### Mary Jo Brennan

Mary Jo is the youngest of the five candidates. Though only a freshman, Mary Jo's talents were displayed at the Assumption basketball games as a cheerleader. She also was in the Mambo Club, the Biology Club, was a member of the Decorating Committee for the Holy Names Undergraduate Association, and was elected Sophomore Representative for 1955-56 on the H.N.U.A. girls council.

## Campus Forum . . . An Outstanding Success

Three years ago the Campus Forum was organized to provide student entertainment during the Lenten season. The first event of that first Lenten Series was so well received that the general public was invited to attend all future events. The response was overwhelming. The intense student and public interest made Campus Forum a permanent feature of Assumption College.

This year's Forum—the fourth annual presentation—was the biggest and most successful of the entire history of the Assumption College Campus Forum. The five Lenten season events planned for this year were designed to promote student and public interest in contemporary local and international affairs of a historic, social, cultural, and economic nature. The topics discussed by student panel members, reflected present day writing, thinking, and happenings. The topics were chosen for their general interest and current importance to the modern world.

The role played by Campus Forum is twofold. First, it is an educational and entertainment medium to alleviate the lull in student activities during the Lenten season. But it assumes a second role in that it trains a multitude of students in organizing and planning a high caliber production. For, Campus Forum is presented by the students for the students. The chairman, panel members and entertainers are all members of the student body.

Co-Chairmen for this year's Forum were Brian Smyth and Milorad Vuckovich. Paul Cummings was General Manager. The chairman of the Entertainment Committee was Don Snyder and he was ably assisted by Pam Chavira and Beverly Johnson. Ed Brownell was Chairman of the Publicity Committee and his hardworking staff was made up of Evelyn McLean, Wendy Gilchrist, Ed Long, Nizar Hanafi, Mike Barber and Alex Pavlini. Ray Saitay was the Chairman of the Stage Committee. Much of the brilliant success of this year's series must be attributed to this hardworking executive whose ambitious blueprints were brought to superlative realization.

"The Third Revolution" was the topic chosen for the first event which took place on Sunday, March 6. This was a discussion of Karl Stern's recent book in which the author discusses revolutions in the field of ideas, dealing mainly with Freudian analysis. The Chairman for the first event was Bernard Maitre and the panel was made up of Margaret Ceresa, Donna Urie, Terry Hobin and Stuart Wilson. The panel did admirably both in their prepared texts and in the lively question period which followed.

The second event was held on Friday, March 11. The controversial and contemporary Guarantee and Annual Wage plan was the highlight of this event. There was a very thorough discussion of this topic from both the economic and the philosophical standpoint. As there were several union members present, the question period was one of the most entertaining parts of the evening. Charles McLean was Chairman for this event and the panel members were Fred Barth, John Brockenshite, Ed Brownell and Stuart Wilson. The panel for the third event dealt with a topic which has been the subject of much discussion and controversy during the past decade. The topic was "Modern Art." This event was the lightest of the series. The chairman was Mr. Sidney Key, curator at Willistead Art Gallery. The panel consisted of Evelyn McLean, William Burton, Michael Maloney and Mike Barber. The panel discussion was highlighted by the showing of several modern paintings. The result was that an undercurrent of laughter prevailed throughout the evening. The panel must be congratulated for such a fine treatment of such a difficult question.

The fourth event dealt with a current historical problem—"U.S.S.R.'s Foreign Policy and Internal Strife." Once again, a topic not only of general interest but also of vital concern to all was chosen. The development of Russia's foreign policy and internal strife was traced from revolution days right up to today. All who attended this event were undoubtedly pleasantly surprised by the excellent handling and comprehension of the problem displayed by the competent panel made up of Lou Veres, Charles Neilson, Bert Turner and George McMahon. Milorad Vuckovich was Chairman for the evening.

The fifth and last event held on Friday, April 1 discussed "Spatial Form in Modern Literature." Chairman for the evening was Brian Smyth and the panel members were Richard F. Kennedy, William Warden, Pearl Holland and Frank Mc-

Teague. The panel's discussion of obscurity in literature proved to be very learned and—obscure? The question period following this event was a dual between the learned panelists and their learned professors. The result was an intermingling of brilliant answers and obscure, witty retortations. The panel is to be congratulated for an extremely informative discussion which gave the audience insight into a modern literary problem.

The entertainment for this year's Forum was of a very high caliber. The first event was honored by the International Light Opera Society who sang selections from the Student Prince. The well-known Windsor pianist, Miss Barbara Craig and songs by Miss Helen Toth completed the entertainment bill.

In order to formalize the atmosphere of the second event, an innovation in Forum entertainment was employed. The Students' Lounge was transformed into a Roman slave market complete with singing soldiers, luckless maidens and a distinguished senator with a southern drawl. Don Dietzen (the junior senator from Tennessee) gave a brilliant oration on "The Life of an Assumption Bachelor." Four dashing Praetorian Guards, locally known as "The Artsmen" sang several songs. Co-ed songstress Marie MacDonnell's singing and Iris Savatche and Natasha Siewer's dancing completed a thoroughly enjoyable programme of "Roman Scenes."

The third event brought into focus a cross-section of the sparkling array of campus talent. Fran O'Connor and Natalie Stasick played a piano duet—Iris Savatche played a violin solo—Mary Treisz sang several selections and Anne Gentile put on a superlative display of toe-dancing. Tommy Barrett topped off the musical by giving a history of the tap dance.

The fourth event gave many the opportunity to glimpse the type of work and talent produced by the Drama Club. Dick Kennedy, Don Snyder, Don Bennett and Brian Smyth presented a skit on women card players. Many were delightedly surprised when Brian sang "Over the Rainbow." Joe Letty's recitation rounded off a well planned and well executed programme.

The fifth and last event featured the Assumption College Glee Club under the direction of Mrs. Violet Webb Leach. This organization, though recently organized, turned in a remarkable performance. Their programme of musical comedy and Easter music left nothing to be desired.

The Campus Forums brought to the spotlight many talented students—congratulations to the entertainers, panelists and executive for a job very well done.

### Benny Louis Arrives Today

Benny Louis, famous Canadian orchestra leader will arrive today from Toronto with his orchestra. Benny is known to many of the Canadian students as the top dance band in the nation. He plays regularly at such well-known places as the Casa Loma and the plush Royal York Hotel in Toronto. The numerous students from St. Michael's in Toronto will remember him from their graduation dances.

## Experts Ponder Forum Problem

Assumption may be starting a new trend in collegiate activity with their Lenten Campus Forum series. This year, the forums have been such a success, covering topics from Psychology to History, that plans are being made to enlarge the series. Shown above, are the

members of the first panel of the series, whose topic was Karl Stern's *The Third Revolution*, a discussion on religion and psychiatry. Seated (left to right): Donna Urie, Bernard Maitre, Margaret Ceresa. Standing: Stuart Wilson and Terry Hobin.

### The Engineer

Guiry and Nader

Verily, I say unto you, marry not an engineer, for the engineer is a strange being possessed of many devils; yea, he speaketh eternally in parables which he calleth "formulas" and he wieldeth a wooden acceptor which he calleth a slide rule, and he bath but one Bible—a handbook.

He talketh always of stresses and strains and without end of thermodynamics. He showeth always a serious aspect and seemeth not to know how to smile, and he picketh his seat by the springs in the car and not by the damper beside him; neither does he know how to relax, except for its power, nor the sunset except for its specific heat.

Always he carrieth with him his books and he entertaineth his maidens with steam tables. Verily though his damsel expecteth chocolates when he calleth, he openeth the packages to disclose samples of iron.

Yea, he holdeth his damsel's hand, but only to measure the friction, and kisses but to test viscosity. For in his eyes shineth a far-away look which is neither love or longing but a vain attempt to recall a formula. There is but one key dear to his heart, and that is the Chi Sigma Phi Key; and one love letter for which he yearneth, and that an "A" and when to his damsel he writeth of love and signeth with crosses, mistake not these symbols for kisses, but rather for unknown quantities.

Even as a boy he pulleth a girl's hair to test the electricity therein, but as a man he discovereth different devices; for he would count the vibrations of her heart strings and reckon her strength of materials; for he seeketh ever to pursue the scientific investigations and inscribeth his passion in a formula; and his marriage is a simultaneous equation involving two people and yielding diverse answers.

### Knuckle Heads New A.C. Band

One of the most active student organizations on campus this year is the newly formed Assumption Band. Under the able baton of Bob Knuckle, the band provided the highly enjoyable musical entertainment during the basketball games. How did this band come into being? In answer to this question, Bob Knuckle replied: "Most of us were with the old Assumption College Band under the great Frank Menichetti, M.Mus. We got together after a two to three year layoff so as to continue as a group. Other notable student musicians hailing from Walkerville, Patterson, and Forster joined in. We even have a member from the Brazilian school in Houston, Texas—Mr. Fraser, who plays a pretty wild trombone."

Among the other members of the band are: Jim Guiry, Bern McNamara, Stu Wilson, Bernie Buhlman, Carl Cohen, Gord Kirk, Chuck Kirk, Bill Burton, Des Deneau, Doug Young, John Frena, Mike Hogan, Mr. Vanderzanden, C.S.B., Brian Beck, Clyde Jacob, Charlie Burns, Adam Scheurman, Ed Agnew, Gerry Fournier, Jim Turner, and Joe Emon.

Maestro Knuckle added "I don't think any Canadian University can touch us, especially when we get rolling. We received many compliments on our efforts on the London trip—many from Western students."

Included in the future plans of the band are a banquet at the Sunnyside Hotel on the Athletic Council at Father Hussey's expense. A Band Concert has been planned but too much school work has prohibited it.

The band has been a credit to Assumption this year, and the students should be proud of it. It deserves full support in all its endeavours.

### A.C. Philosophers At Brescia Hall

On Saturday, March 12, accompanied by a delegation of Christian Democrats, the moderator, Fr. Garvey, arrived in London for the annual Brescia-Assumption discussion. A new member, St. Michael's College of the University of Toronto also arrived to add keen insights of philosophical reflection to the discussion. This year the theme centered around Christian Ideals of Democracy. The two speakers for Assumption, Michael Maloney and Paul Roche, spoke on Law and Democracy, and Economics and Democracy, respectively. Also included in the Assumption group were Paul Hart and Terry Hobin who added lively interest to the discussion at the end of every speech. The three delegations of Universities were served two excellent meals and a tour around the scenic campus of Brescia. At five o'clock the discussion ended and a High Mass was sung by Father Garvey with the Brescia choir beautifully singing the Mass in Gregorian Chant. The weary but happy delegates arrived back at the college in time to see the last thrilling moments of the Western Assumption basketball game. This annual discussion, besides showing the philosophic talent of the three universities also created a spirit of fellowship. Next year the groups from Brescia and St. Michael's will invade Assumption for the annual philosophic duel.

## TIME OUT

with LEIF

Here it is spring again and the ball season is ready to open. More than that though it is the end of the school year. I have wondered what to write about in this last column and I finally decided that a review of Assumption's activity in the world of sports would not be out of order.

The year of 1954-55 should go down in the records as one of Assumption's most productive years on the intramural level. You all will remember the thrills which the return of twelve-man football brought during the fall season. Chuck Schiano brought this major change about and should be duly recognized. Another major change was the first active intramural hockey league. In its first year it surpassed all hopes of commissioner Mike Doyle. This league brought about the first intercollegiate hockey game in Assumption's history. The Purple squad showed its worth by downing Wayne 12 to 2. After the Christmas break the men of Assumption returned to find the basketball season upon them. This year there were more teams and better games featuring the league than in the past. John Elliott, the popular commissioner, kept things running smoothly until the Seniors won the championship. In bowling, Pete DeVriendt, managed affairs smoothly in what was another best season ever for Assumption. I think that thanks and acclaim should go to Paul Roche and the members of the Athletic Council for the outstanding job done this year.

In the Intercollegiate leagues Assumption had two representatives, the Purple Raiders in the Senior division and the Crusaders in the Intermediate division. The season was well sprinkled with exciting moments. Among these were the last minute victory in the Adrian game, the heartbreaking defeat in Toronto and the beating of Western in St. Denis Hall. These were all high points but the Raiders failed in their quest for their second straight championship. All the same it was a fairly successful season and the boys should receive a fair share of credit. The Crusaders competed in the Intercollegiate league for the first time. In their first season they walked off with the crown and were only defeated once in overall season play. At this point I must repair one oversight, in the last column the Crusaders were featured but I forgot to give Phil Mazzone his due. Sorry Phil, we all know the Crusaders wouldn't have been the same without you.

\*\*\*

FOR WHAT IT'S WORTH: The Intercollegiate All Star team is Ellis, Western; Monnot, Western; Fedor, Queen's; Joseph, Assumption; and Fawcett, Toronto. ... Don't forget to see Reno Bertoia at Briggs Stadium on April 14. So long until another year, it's been fun. ...

## Seniors Snare Sophs for Intra Mural Cage Crown

A scrappy, speedy Senior basketball team emerged as the victors of the intramural playoffs by virtue of a 71-37 triumph over the smaller Soph Engineers. Sparked by Mike Robert's 22 points, the upperclassmen used their height and fast-breaking offense to good advantage and were never on the short end of the score from the opening whistle. Jim Steele and Larry Koyak added 15 and 14 points respectively to the Senior cause and were assisted by the brilliant passing of Jim Hester, Gord Moir and Bernie Murphy. Fred Barth, Claude Malette and Paul Roche were also very impressive during the encounter. For the Engineers it was their first loss of the season and a tough one. Art Watt was the Soph "by" man with 26 points, high score for the night. Gerry Fulford, Art Chin Lee and Bob Condon added 10, 19, and six points respectively for the side, rulers who made a game try. Bruce Thorn and Walt Leschyn saw considerable action in the contest which marked the close of a most successful season. Much credit for the league's good fortune this year must go to Basketball Commissioner John Elliott, and the many capable referees.

### Senior Ace

JIM HESTER

### Semi-Final Playoffs

In one of the semi-final games, the Seniors trounced a strong Junior quintet 42-22. Again the "old boys" hustled paid off, Robert and Steele hitting for 16 and 11 points apiece. For the losers Jim Waddell and Frank Nowak were high with eight and five points. "Tennessee," Lenzie Dietzen, Dick Moriarty and John Leonard, played outstanding ball with Jose Emon, Joe Nader, and "Big Red" Marshall scrapping with the best of them.

The Soph Engineers had to eke out a close 33-27 win over the Frosh independents to advance into play-off finals. Art Watt hit for 24 points to lead the way for the Sophs, and was bolstered by the play of Art Chin Lee, Gerry Fulford and Bruce Thorn. Hancock was high man for the Frosh with nine markers with Van Nest and Fletcher right behind with seven and six tallies apiece. Kost, Matz, Gray, Renaud, Ducharme, and Philchuck, also played admirably.

## Moir Cops Alley Crown

By PETER DeVRIENDT

After three weeks of playoffs among the top eight teams of the league, Gord Moir's team emerged as champs for the second consecutive year. The team is composed of Gord Moir, Larry Koyak, Mike Robert, Claude Malette, Girard Quenneville and Bernie Murphy. This team defeated the powerful Navy team composed of Nick Lukos, Andy Garlati, Bob Day, Bob Dupont and Ken Antaya. Moir's team took all the games in total pinfall and beat their opposition by 94 pins.

## THE WOMEN'S SIDE

by FRAN O'CONNOR

As we find the scholastic year quickly drawing to a close, it is only natural that we should stop for a moment, and reflect upon the outstanding achievements of the Girls' Basketball team during the past season.

The team as a whole has shown a remarkable progress since the season opened in the fall. The untiring efforts of our coach, "Sis" Thompson, are largely responsible for the team's success. It may also be noted, that constant teamwork under the able direction of Pearl Holland, captain of the team, has played a significant part in bringing the girls to victory.

As the season drew to a close, it was seen that the college girls have 11 victories to their credit in as many starts. This fact is especially noteworthy, as this is the first year in its history, that the H.N.U.A., can boast of a winning team. It is certain that future years will bring as much if not more success to the college campus, through the efforts of the girls.

It has been my privilege to bring "The Women's Side" of sports to the attention of the campus, and in signing off for this year, on behalf of the student body, I should like to express my sincere thanks to the girls' basketball team for a job well done.

## Athletic Council To Climax Creditable Year

By PETER HOWLAND

The Athletic Council announced today that plans for its annual Athletic Banquet have been completed. The banquet, which will be held on Monday night, April 18 in the Students' Union, will consist of a dinner followed by the presentation of awards to various members of intercollegiate and intramural teams. There will also be a short talk by a guest speaker who will be named at a later date.

The members of the Assumption Athletic Council as well as their moderator and the Director of Athletics, Dr. Frank DeMarco are to be commended for their meritorious services in making 1954-55 a great sports year at Assumption. The Council directed the new 12-man football league, the new hockey league as well as the outstanding basketball and bowling leagues. The A.C. also sponsored golf and tennis tournaments. They were responsible for the successful dances held after every basketball game and initiated the students' excursion to the Western game.

The A.C. executives: President, Paul Roche; Vice-President, John Leonard; Secretary, Pete Howland; Treasurer, Ennis Murphy; the class reps: Senior Rep., Bob Knowlton; Junior Rep., John Craddock; Soph Rep., Art Chin Lee; Frosh Rep., Fred Lang; and the sports commissioners: Football, Chuck Schiano; Basketball, John Elliott; Bowling, Peter DeVriendt; Hockey, Mike Doyle; Golf, Rod Scott; Tennis, Fred Dupont, and Swimming, John Morand are to be lauded for their unselfish, tireless labors in making Assumption athletics a success.

## Players' Festival Climaxes Year

Before an exam and holiday-reduced audience, the Assumption Players presented their annual One-Act Festival on Tuesday, April 5, in St. Denis Hall. Three plays were presented and they marked an innovation in the Festival, in that all the plays were directed exclusively by the students. These student directors were Philip Drouillard, Marilyn Miller and Peter Grant, who directed "The Still Alarm," "The Marriage Proposal" and "Music Hath Charms," respectively. The last play "Music Hath Charms" established another precedent, for it was the first time that the Players presented an original play, as it was written by its student director, Peter Grant.

Continuing the tradition of presenting the Frank McIntyre Awards to live of the players, there was an adjudication by Rev. C. P. Crowley, Dr. Philip Stratiard, Milord Vukovich and Helen Canniff. After a heated argument that was heard as far as the Flats, the judges arrived at a decision and presented the Awards to the following:

Best Director—Philip Drouillard  
Best Actor—Brian Smyth  
Best Actress—Natascha Siewer  
Best Supporting Actor—Pete Broder  
Best Supporting Actress—Shirley Tounignant

After the presentations, the curtain was opened and the audience was invited to come on stage and participate in a detailed adjudication of both the plays and actors. The enjoyable evening finally had to be called at about 11:30 as many of the students had 8:30 classes the next morning. All in all, it was a successful climax to a successful year.

## Magazine Published

The new college magazine, the Kaleidoscope, was published recently to the enjoyment of many students. This fine collection of creative writing was distinctive in both form and quality. The striking cover was particularly outstanding in its colour and simplicity. Shown above, examining the results of their work are Evelyn Maclean, artist, and Harley Forden, editor.

## Arts Queen of '55

## And '54

The pretty girl (top) with the blank expression was chosen Arts Ball Queen of '55. She is exceedingly popular but hard to recognize. The pretty girl (below) is Miss Bettyjean Holland who was the Arts Queen last year. Bettyjean is at O.C.E. in Toronto. See them both at the Arts Ball tonight.

## He Entertained...

Election week featured much excitement and entertainment. One of the prominent entertainers was Capitol recording star Frankie Castro. Frank put on a lively, entertaining show that captivated his audience. Some of the sages of the campus say this swung the election for Charlie.

## ... And So Did She

Another entertainer who was busy during these last few weeks was Marie Macdonald, an Arts student, who is a fine singer. Marnie not only sang for the campaigns of Chuck Schitano and Bob Knuckle, but also gave a splendid performance at the Campus Forum. A pat on the back for the girl with the active tonsils.
